OVERWORKING THE BRAIN.—An intelligent writer in one of our large cities gives a note of warning which, many in the present excitement and rush of our country, would do well to heed. "In one of our lunatic asylums," he says, "there are now several gentlemen, all of whom were one year ago in full health and active business, and in each of these cases mental aberration is traceable directly to overworking the brain. They are men of wealth and social eminence, and, until their sad affliction, were distinguished for usefulness to the church and community.—But to to these we must add perhaps thousands of cases in which premature old age, or permanent ill health, and mental imbecility, have arisen from similar causes."

In 1752, an English ship stranded near New Rochelle, Westchester county, N. Y. Such have been the changes in the sea that the wreck now lies in the midst of a cultivated field, thirteen feet above the sea, and around it are 2000 acres of cultivated land.

WHAT IS AN ECLIPSE?—"An eclipse," said Jack tar, profoundly, "happens in this way—it's only the moon that breaks adrift and gets athwart the sun. It's all right by and by, for the old boy puts the helm hard up, and then it is all plain sailing."

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BEMBERFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say, the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of those complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SOUTHBRIDGE, MASS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTROSE, IA., writes, 31 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ALBION HOUSE, NEW YORK CITY, March 5, 1855.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid could procure ease her much relief. She was steadily failing, until Dr. Strong, of this city, where we have sold for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried Ayer's CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high energies of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER's Pills, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

The machine of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I M. SINGER & CO.

HORRORS OF THE COOLIE TRADE.—Recent English papers give the following details of the destruction of a Dutch Coolie ship with the loss of three hundred and fifty lives:

The Dutch ship Banca, Capt. Heymans, 700 tons burthen, with between 300 or 400 emigrants (Coolies), for Havana, put back to Macao about a month since (the despatch is dated Hong Kong, Aug. 10,) with her water casks leaking and cargo shifted, having encountered boisterous weather, and on reaching the outer roads brought up to an anchor.

There she remained repairing, the officers exercising strict vigilance in preventing the Coolies going ashore, for fear they should make their escape. For three weeks, whatever discontent may have prevailed, no fears of an outbreak would seem to have been entertained, until a Chinese doctor warned the captain that mischief was brewing. In preparing for such a contingency as a raising of the Coolies, the small arms were placed on the poop, and two guns were loaded with grape and pointed forward.

About nine o'clock of the night of the 8th the disturbance commenced, and the crew took refuge on the poop. The captain first fired a shot or two overhead, but as that had no effect, and the coolies advanced towards them, yelling frightfully, armed with belaying pins, bricks torn from the cooking places, &c., the captain gave orders to his men to fire, and immediately a volley was poured into the infuriated mass from the two guns, and also from the small arms.

This had the effect of checking and putting down the riot, and the Coolies were driven below, but they sought revenge by setting fire to the ship, and in a few minutes the captain was appalled by seeing flames issuing up from the fore hatch. A frightful scene of carnage followed; the Coolies rushed up on deck, and no doupt murdered all the officers of the ship. None of them, nor the Captain, were afterwards seen.—The ship was soon in a blaze, fore and aft. In about an hour the mainmast fell with a crash, then the fore and mizen, and about midnight the magazine blew up with a tremendous explosion. The ship was instantly hurled to fragments, and a vast number of poor creatures who were clinging on the chains, perished with her. Of the number who were on board, including crew and passengers, about 500, only about 150 escaped with their lives; the remainder were either burnt in the ship or drowned. The affair has produced a great sensation at Hong Kong.

SWISS SOLDIERS.—It is a singular historical fact that Switzerland, the only Republic in Europe, has for more than half a century furnished the most reliable troops to the monarchs of Europe in all their troubles, as well as in the enforcement of their more arbitrary edicts. At this time, the Augsburg Gazette says, recruiting for the army of the tyrant king of Naples is going on with great activity in Switzerland, and every week are to be seen some detachments of Swiss soldiery, who have been enlisted in that service, on their march shouting *Vive le Roi Ferdinand.*

The King of Naples has an army of 40,000 men, and a fleet of the three ships of the line, five frigates, two sloops of war, five brigantines, one brig, twelve steam frigates, and twelve smaller war steamers.

A correspondent of the Notes and Queries, London, says in a recent American book he reads:—"They arrived in New York on Thanksgiving Day, December 8, 1842." He adds—"Why is December 8 termed Thanksgiving Day? I cannot find that any public event connected with America occurred on that day. Is it a religious festival?"

THE PRISONERS IN KANSAS.—The case of the free-state prisoners held under the ruffian guard at Lecompton, Kansas, and to be tried for murder, is a hard one and appeals strongly to our manly sympathy.—More than a hundred of them are confined in a rough shanty, twenty by thirty feet, with no floor, and are half clad and miserably fed. Many of them are made sick by this treatment. They are guarded by a company of Kansas militia, enlisted from the gangs of marauders and commanded by Col. Titus, the bloodiest of the bloody crew, and are subject to constant insults and threats from these ruffians, who only refrain from murdering them because they anticipate the satifaction of seeing them all hung by the neck in due process of law. C. M. Marsh, formerly of Potsdam, N. Y., one of these prisoners, writes to his brother at the latter place: "If hard usage will kill us, many will never leave this place alive." He was one of those who had been robbed and driven away from Hickory Point, and for the effort to recover his own property he now awaits his trial with the others for murder.

KENNETH RAYNER.—We understand from the best authority that it is entirely correct that Kenneth Rayner of North Corolina has written a letter, declaring his preference for Fremont over Buchanan. He says that the Pennsylvania and Indiana elections have in his opinion destroyed Mr. Fillmore's chances in the South, and he prefers the election of Fremont to that of his principal opponent. Such a declaration from one of the most influential and respectable members of the Fillmore American party ought to have great weight. It is also an instructive comment upon the weak balderdash of Choate, Winthrop and Hillard, that the election of Fremont will constitute war upon the South and endanger the Union.—*Boston Tel.*

THEOLOGY AND NEGRO GIRLS AT AUCTION. A farm of 267 acres, adjoining the town of Winchester, Va., is advertised for sale, which offers, among others, the following inducements to purchase; "At the same time will be sold two negro children (girls) of four and six years, and a library, consisting principally of the *theological collections of Dr. Hill*, and containing some rare and valuable works."

The outside barbarians laugh a good deal at Puritanical Boston *racing horses* in the name of Agriculture! Boston did a far less Puritanical thing when she chased a slave in the name of law.—*Boston Chronicle.*

QUESTIONS.

Enquiries are often made by the opposers of Fremont, what would be the party issues after his election? It may be asserted that the principles of freedom will be maintained, as long as there is resistance by its foes. Yankees have a habit of replying to a question, by stating another. Now, it is asked, how could those who assert that right of property in man exists, which can be sold, extended and migrated—and those who merely declare their opposition to the extensionof slavery,to coalesce after Buchanan's election?

All the pro-slavery orators in the South, reiterate the assertion, that it is an inalienable principle that "a man should carry with him into the Territories, the same right to slave property he enjoys in his native State,"—"the people shall not do as they please as to this property—they have no right to meddle with it," &c.

John Van Buren, Butler, Wells, and all the Buchanan advocates *in New England*, would have no listening ears if they did not repeat their eternal opposition to slavery. Now, in the possible event of Mr. Buchanan's election, how is conciliation to take place among those who promulgate such opposite sentiments? They may hold together by the "cohesion of public plunder," but this cement is not very durable, nor adequate for all its expectants. A. Z.

REPORTS AND LAST CARDS.—The Boston Courier calls it an *absurd* statement, that Commodore Stockton, Jacob V. Broome, and *Kenneth Rayner* of North Carolina, have gone over to Fremont.

The same paper also notices another report, that James A. Abbott, Esq., has renounced Fremontism, and espoused the cause of Buchanan.

We do not know which or how many of them are true. We give them as we find them, from day to day, as we do election returns. We never give them as of our own knowledge, unless they are so. But we give them with telegraphic dates, or with credits to papers, letting the reader judge of their credibility,—which he can do as well as we can, perhaps.

The Boston Courier, also, speaking of "Kansas Troubles," says the New York Tribune, the most intense Free Soil paper in the United States, has the following notice, in its issue of Tuesday, of the settlement of affairs in Kansas, and the condition of people there, from a Washington correspondent.

[Here follows the article,—and then the following remark:]

Let the people of Massachusetts look at the testimony of one of the most lively of the Kansas agitators, and profit thereby.

The article, however, is nothing more nor less than Gov. Geary's official dispatch *abridged* by the Tribune's correspondent—and proves only that the Governor wishes to make the best of a bad story.

A GEM.—A letter in the Boston Courier, from Buffalo, Oct. 27, says:—"Mr. Fillmore is too honest to be successful in this corrupt day of politics. He does not care enough about success to lower himself to a level with the class of politicians who control both the other parties in this contest.

"'Aye, sir, to be honest, as this world goes,
Is to be one picked out of ten thousand.'

It would seem, alas, that success was to be meted out to those who were deepest in fraud and dishonesty. Is this so?"

THE FORGER.—The Huntington Forgeries were caused by four pairs of horses—two pairs for carriages for himself and wife and several fast trotters, two matrimonial establishments, the fair occupants of which liberally patronized the jeweller's shops—and all the et ceteras which usually distinguish a man of such taste.

The Tuckerman defalcation, in which he defrauded the Eastern Railroad, had a fast woman connected therewith.

FRAUD.—It now appears that several of the New York brokers discovered, long before Huntington was arrested, that he had palmed forged paper on them as collateral security; but instead of exposing him, they simply obliged him to substitute genuine paper for the spurious, and to pay extra interest. He is said to have been made to pay as high as seventy-five per cent to escape exposure. This is one way of receiving stolen goods.

Rev. E. H. Smith, has resigned the pastoral charge of the Baptist church in E. Weare, N. H., though that will continue to be his post office address for the present.

Keep that man at a distance who hates music and the laugh of a child.

MODERN JUDAISM.—The following extract is from an article published in The Independent, delivered at the late anniversary of Andover Theological Seminary, by D. M. Epstein, a convert from Judaism."

Subject—"The Doctrine of an Atonement in the Theology of Modern Judaism."

He states that the Rabbins say:—"That the day of death atones for all the sins of the dying individual; his repentance and good works are all necessary; still the day of death, by which is meant the pains of dissolution, is required by Jehovah, as an atonement for his sins. A Jew after his death, they say, suffers for four weeks the 'buffetings of the grave.' Then come eleven months of purgatory, during which the prayers of relatives, especially those of the children of the deceased, and also their studying of the traditions, for the particular benefit of the deceased, are all required to bring him out of it; and last of all, they affirm that Abraham sits at the gate of hell, and sees that no circumcised Jew enters ever therein. These doctrines are commonly received by all orthodox Jews, as the truth of God."

PROSPECT IN CALIFORNIA.—The Boston Chronicle says Fremont stock in California is quietly on the rise, according to the latest advices. "There is now very little doubt that we shall carry the Electoral vote and the two Congressmen. This will do something to make up for the frauds in Pennsylvania, Ohio and Indiana. The Buchanan party received its death blow in California from the Vigilance Committee. The friends of Fillmore are giving him up and going over to Fremont in troops, at every mail from the Atlantic coast. By this time he can have no strength worth speaking of. The news from Kentucky will have finished him."

"I GUESS I'LL STAY ABOUT HERE."—The San Francisco "Alta California" newspaper, states that a hungry looking man, passing Page, Bacon & Co.'s old banking establishment, which long since suspended payment, picked up a "double eagle." He looked at it, felt of it, and glanced around to see whether any one was observing him. Again he looked at the coin, and then sat down on the curbstone and began talking to "his own self." Said he, "I guess I'll stay about here; may be the bank's broke loose agin; I've got a bill agin that ar bank. Who knows? may be I'm in luck. Guess, to be honest, I'd better endorse this on the account. No I won't, nuther; I'll take a drink fust, any how;" and the old man went off to be joyful.

CRITICAL POSITION.—A Mexican in California was recently taken and tried by a people's jury at Knight's Ferry, and had a narrow escape, as appears from the following account of the affair. The prisoner was bound and placed in a wagon under a large tree. A jury was then selected, a majority of whom was to decide whether the culprit should be hung to the tree, or handed over to the authorities. They, however, in giving their verdict, stood six against six, when it was agreed that a third man should be drawn by lot to decide the prisoner's fate. He resolved to give him up to the officers of the law, which was done, and he is now in jail awaiting a trial according to legal forms. How he will finally fare, depends somewhat upon the amount of money he can command—says the Alta California.

IT IS NOT ALL OF LIFE TO LIVE.—The California papers are continually filled with accounts of murders, robberies, assaults, and crimes of all sorts. All is not gold that glitters—and even where there is gold, it costs more than it is worth (in a sacrifice of comfort, &c.,) to get it—and when you have got it, ten chances to one, you'll get your throat cut for it. We had rather live in comparatively slow, safe, christian New England—and stand some chance of dying a natural death.

A NEW BUSINESS.—Brig Kate Anderson is now loading at Bangor, Me., with orange and lemon box shooks for Messina and Palermo, in the island of Sicily.

Orange and lemon box shooks are now manufactured at Pittson and Newport, on the line of the Penobscot and Kennebec Railroad, carried to Bangor, loaded from the cars on shipboard, whence they are shipped directly to Messina and Palermo.

THE DANGER OVER—THE MEN DISARMED. Under this head, the Alta California states that since the departure of Herbert, who recently murdered a hotel servant at Washington, the servants at the hotel where he stopped in San Fransisco, have been disarmed and mustered out of the military service of the house. The arms, however, have been carefully put away for use when the Congressman again visits them.

☞ The Gloucester Telegraph says: Ben. Butler, Esqr., occupied two hours, on Monday evening, in the vain endeavor to make the people of Gloucester believe that all their political rights consisted in getting down upon their knees to a pack of Southern slaveholders, disunionists and bullies.

☞ SCRATCHES IN HORSES.—"It is said" that this often troublesome disease, unless very bad, may be cured by washing throughly with soap-suds, and then rubbing with lard fried out of salt meat. Keep clean, and wash and grease every other day until a cure is effected. Leaving mud to dry upon the legs of a horse is one great cause of this disease, and many horses are injured by want of care and cleanliness when driven in muddy weather.

☞ We have received a copy of the first number of "The Nation," a new miscellaneous and literary paper of eight pages, published by Messrs. Crofut & Bigelow, 83 Dock street, Philadelphia. Its typographical appearance is fine, and with such an editor as Mrs. Emma D. E. N. Southworth, it cannot fail to interest all. Published weekly, at $2 per annum.

SAD CASE.—The Advertiser states that a gentleman met a little girl in one of the Charlestown streets a few days ago, crying very bitterly. Thinking that she had lost her way, he took the little child by the hand and tried to comfort her, at the same time asking, "What 's the matter, my child? After a fresh flood of tears the little girl replied, between sobs, "I hav'n't got any who-o-o-o-p skirt for my doll!"

DEATH OF AN ORIGINAL CONFIDENCE MAN.—Thompson, alias Davis, with numerous other names, as occasion required—the original confidence man—recently died in a fit, while serving out a term of two years imprisonment in Sing Sing. His remains were interred in Greenwood Cemetery.

☞ Senator Benton and Lieut. Maury have engaged to lecture before the Newburyport Lyceum the coming winter.

☞ A new flag staff has been erected by the Relief Engine Company, in South Salem, Mass., 140 feet in height, at a cost of about $300.

☞ Dr. John Marsh, who was lately murdered in California, was a native of Danvers, and a graduate of Harvard College. One of the murderers has been taken, with the Doctor's wallet in his possession.

☞ Mr. Wm. B. English has issued proposals for erecting a building for theatrical purposes, in Portland, through the medium of a joint stock company.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.
NOTICES FROM THE PRESS.

From the Boston Times, June 28, 1848.

Dr. Wm. R. Hayden is doing an immense business with his "Improved Vegetable Purgative Pills." The sale in this city alone, for the last two months has exceeded five thousand boxes. They are not only the cheapest pill in the United States, but are the best. We understand the doctor is about to make a tour through the Eastern States, for the purpose of establishing agents, and we would advise all dealers in medicine to secure an agency.

WOOD'S HAIR RESTORATIVE.

THE GREATEST DISCOVERY OF THE AGE.—It seldom occurs, that we notice, under any circumstances, patent medicines, or anything of the kind, for we have a prejudice against most of them. But candor compels us to call attention to Prof. Wood's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye," but upon its application as directed, the effect is produced on the skin, which brings out the original, native colored hair, without stiffness, and gives it a glossy and natural appearance. We have seen persons who have used it, and they are much pleased with it.—[Missouri Republican.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au28m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all hope when said before commencing its use!* It is called *"Doctor Burleigh Smart's Cough Medicine,"* and is for sale by all apothecaries. au27 TuT&hS 6m.

It is believed that the course of lectures before this Association the coming season, will surpass in point of interest and variety, as it certainly will in regard to the expense incurred, any ever before given in this city.

LOCAL.

There was considerable of a scrimmage in Daniel street, on Friday afternoon, between a couple of Irishmen, who had "put an enemy into their mouths to steal away their brains"—if, indeed, it does not argue a *lack* of brains in any body, to *put* the enemy into the mouth. Bloody noses, black eyes, &c., were the results—though neither was half so severely punished as he deserved, for getting drunk. As the row occurred just before school-time, of course the young ladies who attend the High School, had the chance to see all the beautiful sight — and dodge by a crowd which reached nearly across the street, in front of the Gazette office.

There will be religious services at Hanover Street Chapel, to-morrow—day and evening.

Elder Payne of Kittery is expected to preach during the day, and Rev. Mr Fanton in the evening.

There will be services at the Middle Street Chapel, to-morrow, at usual hours —instead of at the Church.

Hon. James Pike is to speak this (Saturday) evening, at the Temple, instead of in Jefferson Hall, as advertised.—Ladies and gentlemen are invited to attend and listen to our Representative from this district,—on the great question before the country.

This (Saturday) afternoon, the people of Seabrook will be addressed by Charles L. Woodbury, Charles W. March and Wm. H. Hackett, Esqs., of this city, at the South Meeting House.

Hon. John S. Wells is expected to address the Democrats of Portsmouth on Monday evening next, at the Temple,

The Democrats propose to have a torch-light procession in this city, on Monday evening.

On Monday evening, the Republicans are to have a meeting at Jefferson Hall, to be addressed by N. B. Bryant, Esq., of Concord, and W. Hamlin, Esq., of Dover—both speakers formerly of the Democratic party.

The Fremont Phalanx, Capt. John Dame, mustered eighty members, Friday afternoon, and took passage over the P. & C. Railroad, to join in a torch-light procession at Franklin, last evening.

THE FIRST SNOW.—We had a slight snow squall in this city, on Friday afternoon, about half-past three.

Brig 'Ocean Guide,' 283 tons, built by Tobey & Littlefield in this city, in 1854, has been sold by Messrs. Ross & Sturdivant to a New York house, for the sum of $10,000.

TO BE KILLED.—An Irish girl of more than ordinary intelligence, employed as a domestic in a Republican family in this city, says that if Fremont is elected *all the Irish will be killed!* This is the doctrine taught by the Democrats to the Irish.—*Manchester American.*

A fine little boy of six years told the same story at our door a day or two ago. It was current among the boys in a mixed neighborhood of Irish and Americans.

TORCHES.—As it was not practicable to give general information of the disposition to be made of the Torches used on Thursday evening last,—at the dismissal of the procession,—any persons having torches in their possession will confer a favor to Committee of Arrangements if they will leave them at Mr. J. P. Morse's store, Congress street. C.

The steps at the Spring Market are complained of as unsafe and inconvenient. The city may have a bill of damages to pay.

NEW HAMPSHIRE.—A circular from the Fremont State Central committee estimates the whole vote of this State as follows; for Fremont 37,542, Buchanan 30,396, doubtful 2,188. Giving all the doubtful votes to Buchanan, they make the majority for Fremont, 4958; dividing the doubtful equally, the majority for Fremont, 7,146.

Some editor says that the destiny of the world often hangs on the smallest trifles. A little miff between Charles Bonaparte and his love Letitia might have broken off a marriage which gave birth to Napoleon and the battle of Waterloo. To which the Chicago Advertiser says; Yes, that is a fact. Suppose a 'little miff' had taken place between Adam and Eve! What then!

The Cincinnati Gazette of Monday says that Gov. Corwin, in view of the impossibility of electing Mr. Fillmore who was his first choice, has decided to cast his vote for Col. Fremont.

A young woman fell dead while shouting at a revival meeting in Vernon, Conn., last week.

There are two things a man rarely forgets—his first love and his first cigar.

FROM EUROPE—3 DAYS LATER.

ARRIVAL OF THE ASIA.

NEW YORK, Oct. 31.—The Royal Mail steamship Asia arrived at this port at 9 o'clock this morning.

She brings Liverpool dates to Oct. 18th.

The political news is unimportant.

The London Money Market is decidedly more stringent, owing to the Bank of England having refused advances, excepting Exchequer bills. The bullion in the Bank had decreased £640,000.

Consols for money closed at 91 5-8.

Cotton active, with a slight advance on middling qualities.

Flour and Wheat slightly easier. Corn advanced 6d a 1s. The weather has been unfavorable.

The Asia brings 185 passengers, £6000 sterling, and 80,000 francs in gold.

MRS. JONES OF KANSAS.

The Portland Advertiser contains the following letter, which will be read with interest by all who wish to know things in Kansas as they are:

MR. EDITOR:—Mrs. Jones, of Kansas, whose letter was not long since published in your paper, detailing to her friends here how she and her husband were awakened at midnight by the pro-slavery ruffians, barely escaping with their lives, robbed of their money, and their house with all its contents burnt down, was a neighbor of mine, and a beloved scholar when a girl. And to put implicit confidence in her story, as well as to love and respect her, it is only necessary to know her.

I saw another letter from her yesterday, dated the 9th inst., calling on her friends here for some present help, as she is destitute of comfortable clothing, or anything to use—had neither bed or table, having been turned out of doors at dead of night, and stripped of everything of the kind—And what is worse, she sees no prospect of relief or safety. The ruffians have made such destruction of property and goods, that it would be difficult to obtain articles needed, even had they left her some of her money. Mr. Jones is a civilized Indian, living on the reserve made to them, and protection guaranteed by our government. He has taken no part in the political matters of the Territory, but is thus treated merely because, being a christian man, he is of course, opposed to the hellish doings going on in the territory. Mrs. Jones was remaining at her place with only one assistant, at the risk of her life—hoping to save their remaining property from depredation until something takes place to give them relief and safety.

She at first hoped the Indian Agent would afford some relief, but he has done nothing. And Governor Geary's administration afforded no prospect of any protection. I gather from her letter, as well as from other sources, that the case of the free settlers is worse instead of better. She intimates that unless something takes place soon, to better their prospects, they must flee and leave all. Her husband dares not yet return to his home. And yet the supporters of this administration and the friends of Buchanan are quieting their rank and file with the assurance that all the troubles in Kansas are ended.

O. Lord, how long!

Z. HUMPHREY.

Flowers for Bonnets.
A SPLENDID lot of French, Face and Outside Flowers is offered for sale low
at PEYSER'S,
o17 corner of Daniel street.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT, THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—BEWARE OF IMITATIONS. The Mustang is sold by all respectable dealers everywhere.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*; as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb Oolong, "	1.75	5 lb. Java "	00
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1¼ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with Coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee,*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

MONDAY, NOVEMBER 3, 1856.

A MONEY CONSCIENCE.

For many years Uncle Toby has remarked, that no class of people are so fearful that charitable donations will be misapplied, as those who never gave a penny to the objects specified.

He remembers when money was solicited and raised, a score of years ago and more, for the American Bible Society, and the books distributed and sold here, there was a considerable amount of questioning, on the part of some who never contributed, as to the faithful application of the money; —but not a syllable of the sort was heard from those who gave then and who give to this day.

Similar questions have been raised on account of money collected for Missions, Home and Foreign—both in Great Britain and in this country—but with few and slight exceptions, the suspicion has been born in bosoms where no previous generosity had grown large enough to make a donation.

Within the past year we have seen and heard several expressions of regret and censure, that the funds raised by temperance men in this State, had been mismanaged and misapplied by the agent—and great concern was expressed, lest the good cause should suffer loss and be run down in consequence. These expressions, so far as we know their origin, came from persons who have not contributed a cent to the funds over which they give such a watch-dog growl. The other day at Keene, a State Temperance Convention passed resolutions, expressive of their confidence in the agent's honesty and faithfulness. These resolutions were drawn up by a man who was vastly the largest contributor to the funds, of any man in the State,—and advocated by another who was officially the almoner of another large donation, and who knew how the money was applied.

And lastly, but not least;—many times within a few months, have complaints been uttered, that the sums of money collected for the relief of sufferers by the theft and robbery committed on Kansas by border ruffians, have been diverted and misapplied!

Not one of these complaints, so far as we know, has been uttered or printed by any one who ever gave a dollar for the object.

A funny case of this kind occurred the other day in Massachusetts. One of these fearful disciples who thought the "ointment ought to be sold for three hundred pence and given to the poor," sent in and published in the Boston Courier a communication from Lexington, in which it was intimated that the ladies of that town had organized an association, ostensibly to relieve the wants of suffering Kansas, but really to aid in the election of Col. Fremont.

Another communication, however, knocks this into pi, by stating that the ladies of Lexington have converted their contributions for Kansas into *boots and shoes, clothing*, and other articles calculated for the necessity of emigrants.

Just as we are closing this article, we perceive the Boston Advertiser expressing happiness at being able to relieve the anxiety of those prudent persons who have declined contributions for Kansas in fear that they should be clothing Missourians. The first thirty bales of clothing have arrived in Boston on Friday, Oct. 31. Sixty cases more were in Leavenworth city, and would arrive in Lawrence in a day or two. The gentleman from whose letter these facts come, says that he had visited some of the districts most distressed, and was overwhelmed with the amount of forced destitution and suffering. He had thought himself familiar with the circumstances, by constant correspondence with Kansas, but had no idea of the misery we are called on to relieve until he saw it.

The success of the Clothing Committee thus far is such as may well stimulate the friends of Kansas to farther efforts. 197 cases of clothing had gone forward up to Oct. 31, from the Boston office—this does not include quite all from New England,—though most of the societies and individuals interested have worked through the agency of the Boston committee. One half of this relief, it will be seen, is already in the Territory.

CINCINNATI, Oct. 31.—*Indiana Elections.*—The official majorities from all but 8 or 10 counties in Indiana, foot up as follows for Governor:—Willard, (Democrat,) 17,910; Morton, (Republican.) 12,195.

This majority is 5.715.—It strikes us that we have seen and published a larger majority than this, say 7000. The remaining counties may possibly bring back those figures.

STORE BREAKING. — In Manchester, on Wednesday evening, before eight o'clock, a light was seen in the Fancy Goods Store of E. B. Cutler, by a lady. On Wednesday evenings store of that class are closed there, and she supposed Mr. Cutler might be arranging his show cases, and she looked in through the window, and saw behind the show cases a man with a lamp.—She supposed something wrong might be going on, and called another lady from a shop near by. They went back and saw the same man taking articles out of the cases, not knowing but what he had a right there. One said, "let us shake the door, and see what effect it will have on him." They did so, and quick as flash his light disappeared and he cleared out of the back part of the store.

The Mirror says it was a remarkably bold operation. The windows were without curtains, and the glass panes in the front door were unobscured, so that the inside operations could be seen by every passer-by. The thief entered the store by the back window. It lets down from the top and is only a few feet from the ground. He broke a pane of glass, unfastened the top window, let it down and crawled in.—He then unfastened the back door, so that his egress might be easy. He took a pearl porte monnaie, a handful of coral rings, a pocket compass, bosom studs, and some other articles, in value some $10, and perhaps more. He was taking it leisurely, and probably intended to make a choice selection.

LIQUOR LAW IN MASSACHUSETTS.—Sentences were passed last week in the Court of Common Pleas, at Lawrence, in several old liquor cases, sent down from the S. J. Court, in which the exceptions of the law, taken by the parties, have been overruled. George W. Payne, of Lynn, Patrick Quinn of Salem, Thomas Switzer of Lynn, and William Parkinson of Lawrence, each convicted of a single act of sale, were sentenced to fine and hard labor in the House of Correction. There are some eight or ten other cases, wherein the parties have been found guilty, but no sentence has yet been passed. There has yet been but one acquittal the present term, in any liquor case. So says the Salem Gazette.

☞ A Union Stove Company has been organized at Nashua, under an act of incorporation.

DIFFERENCE OF OPINION.—Everybody at the South is not in favor of the extension of slavery. The Richmond Enquirer, after going into a long argument to prove that slavery is the sole bond of union in the States, grumbles out:—

"But we write for the especial benefit of the croaking old fogies of the South, who see in slavery only an apple of discord."

So it seems there are a few "creaking old fogies" at the South who do not consider slavery a heaven-ordained institution. This is hopeful.

☞ A meeting of the soldiers of the war of 1812, was held at Salem, Oct 30th. The meeting was called to order by Col. Whipple of Salem. Gen. Appleton was chosen presiding officer, and Jeremiah Page, secretary. A committee was appointed to draw up a memorial to Congress, and another to obtain subscribers to the memorial. It was voted that the Senators and Representatives of Massachusetts in Congress be requested to advocate and support the justice of their claims.

AN OLD SOLDIER HEADED OFF BY THE BORDER RUFFIANS.—We find in the New Haven Palladium the following, which the writer says is a copy of a letter that he sent to the President:—

MOUNT PROSPECT,
WHITESIDE Co., ILL., 1856.

To his Excellency, the President of the United States.—Sir—I have received a land warrant, No. 8,831, for 160 acres of land, signed by you, and I went some 1200 miles to locate it, but was headed off by the Border Ruffians; and now I appeal to you, being President of the whole American people, for protection in my rights. I am an American citizen; was born in the year 1794, in the State of Connecticut.—An early answer to this will much oblige your humble servant. WILLIAM BEERS.

A dispatch from Washington says:

"Col. Forney sent here on Saturday, the most pressing message for more money for the election next Tuesday in Pennsylvania. Without large sums at once, he says, the State is lost to Buchanan, and possibly, he adds, it is lost at any rate."

In consequence of this demand by Forney, a new tax has been levied on the Government clerks of $3 each.—*Boston Atlas.*

RECIPROCITY.—An *agricultural* society having been established in Boston, it is proposed to establish a *marine* society in Worcester.

☞ The snow on Friday fell as far South as Baltimore—and more of it that way than this.

DISASTER ON THE SOUND.

The steamer Bay State, Capt. Jewett, from New York for Fall River, on Friday evening, at 6 o'clock, broke her walking beam; a fragment of the beam as it went up tearing off the top of the cylinder, which caused the steam to escape in large quantities into the forward saloon. In this saloon was seen sitting, just previous to the accident, a girl of nine years, named Blanchard, daughter of Mr. Blanchard, shoe dealer of Brooklyn, N. Y. As the escaped steam rushed in, she probably inhaled it in large quantities, causing almost instant death, from internal burns. Her face and hands were also badly disfigured with steam. Others in the saloon rushed out, and escaped injury.

Mr. J. B. Flagg, formerly of Exeter, now of Saux City, Iowa, who was in his state-room, opened the door when the accident occurred and was enveloped in the steam, by which he was very badly scalded.

Mr. A. J. Baldwin, of Yarmouth Port, was also in his state-room, which was instantly filled with steam. He forced open the door, threw himself on the floor, crawled along the saloon, and slid down the ladder to the main deck. As he went down the ropes, the scalded flesh was torn off. He is seriously injured.

The passengers were taken to Norwich, in steamer Hartford. Messrs. Flagg and Baldwin are now at the U. S. Hotel, Boston, where they are receiving every attention. While on board the boat the sufferers received much attention from Laura Shad, stewardess. It will be remembered that she received a silver pitcher for her kindness to the wounded on the occasion of the accident to the Empire State. Her unremitting attention to the passengers on Friday night did much to allay their sufferings, and deserves the highest commendation.

Commander Henry French, of Salem, has been ordered to Charlestown navy yard, to relieve Commander Theodore Green, whose term of service expires on the 19th of November.

☞ On Thursday last the old Town Hall and Court House at Concord, was sold at auction, to be removed, for $310.

☞ Rev. Mr. Cole, formerly of Nashua, has accepted a call from the Free Will Baptist Church in Danville, N. H.

ELMIRA, 1st.—The Philadelphia express train on the Williamsport and Elmira railroad, got off the track near Crescent, killing Thomas Fiske, baggage master, and badly wounding the mail agent and several passengers. The express car was burnt.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Boston Times, June 23, 1848.

Dr. Wm. R. Hayden is doing an immense business with his "Improved Vegetable Purgative Pills." The sale in this city alone, for the last two months has exceeded five thousand boxes. They are not only the cheapest pill in the United States, but are the best. We understand the doctor is about to make a tour through the Eastern States, for the purpose of establishing agents, and we would advise all dealers in medicine to secure an agency.

WOOD'S HAIR RESTORATIVE.

THE GREATEST DISCOVERY OF THE AGE.—It seldom occurs, that we notice, under any circumstances, patent medicines, or any thing of the kind, for we have a prejudice against most of them. But candor compels us to call attention to Prof. Wood's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye," but upon its application as directed, the effect is produced on the skin, which brings out the original, native colored hair, without stiffness, and gives it a glossy and natural appearance. We have seen persons who have used it, and they are much pleased with it.—[Missouri Republican.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all hope when she first commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuT&hS 6m.

The Committee, in arranging the programme for their third Course of Lectures, have determined to invite only lecturers of decided merit and, believing that in a course of popular lectures instruction should be blended with amusement, they have decided to introduce a NEW FEATURE, by connecting with the usual series upon miscellaneous topics, a short SCIENTIFIC COURSE; and have therefore secured the services of Messrs. Whittaker and Sprague, whose lectures are appropriately illustrated, and of the most entertaining character. It is believed that the course of lectures before this Association the coming season, will surpass in point of interest and variety, as it certainly will in regard to the expense incurred, any ever before given in this city.

LOCAL.

IN BOARD OF ALDERMEN, *on Thursday Evening, October 30th*, a petition from School District No. 3, (South End) asking for a new arrangement of districts—as theirs has too many scholars,—was referred to a committee.

The Street Commissioner was instructed to remove a timber which he has recently placed on the centre of the North Mill Bridge—and to insert a plank in its stead.

☞The Old Fire Engines, Cataract, No. 1, and Franklin, No. 6, belonging to the City of Portsmouth, were sold at auction by H. F. Wendell, Esq., on Saturday last, agreeably to a vote of our City Council.—The Cataract brought $30, the Franklin $47.50—both sold to Mr. Andrew D. Gerrish; who also took all the old hose (600 feet)—part at 9 3-4 and the rest at 5 1-2 cts. per foot.

JESSIE GET READY—A SONG.

Dedicated to the Portsmouth Fremont Club.

(TUNE—"Pop goes the Weasel.")

Jessie, get ready, November is near,
And John must be President, that is quite clear;
We can't have a Buck in the White House, you know,
For we verily think that his antlers would show.
So Jessie, get ready, November is near,
And we want you quite smart in the White house t'appear.

Jessie, get ready, November is near,
And John will be President, that is quite clear.
You did your own work for Liberty's sake,
Please do Uncle Sam's honors, four years from this date.
So Jessie get ready, November is near,
And we want you quite smart in the White House t'appear. PLENUS SPEI.

Exeter, Oct. 29, 1856.

Hon. John S. Wells is expected to address the Democrats of Portsmouth this (Monday) evening, at the Temple.

The Democrats propose to have a torch-light procession in this city, this evening.

☞This (Monday) evening, the Republicans are to have a meeting at Jefferson Hall, to be addressed by N. B. Bryant, Esq., of Concord, and W. Hamlin, Esq., of Dover—both speakers formerly of the Democratic party.

It will be seen that the Chinese Artists are to give another of their wonderful entertainments at the Temple, on Wednesday afternoon and evening, at reduced prices. Go and see.

☞Hon. Ichabod Goodwin and James W. Emery, Esq., of this city, and Gilman Marston, Esq., of Exeter, will address the people of Exeter this evening at the Town Hall. A torch-light procession will form and march through the town.

PHILADELPHIA, Oct. 31.—The contested election suit, instituted by Mr. Mann, the Union candidate for District Attorney of this city, has brought to light numerous fraudulent votes, given at the recent election, under forged naturalization papers. Four men have been examined who voted. They confessed they had never declared their intentions. The forged papers were found in the coat pockets of the parties, and another asserted that his papers were thrown into his house. None knew where they had come from. John Cooney was arrested for supplying fraudulent papers.

BUFFALO, Oct. 31.—The propeller M. B. Spaulding, with a full cargo of merchandise for Detroit, was burnt at her dock this morning. The boat was not worth much. Cargo mostly insured in New York.

Milwaukie papers state that thirteen bodies from the propellor Toledo had been recovered,—but only that of the second mate recognized.

WASHINGTON, Oct. 30.—The Secretary of the Interior to-day reversed the ruling of Judge Minot, late Commissioner of Pensions, making a discrimination between the volunteer and the regular service. The Secretary decides that the soldiers in either kind of service are equally entitled to bounty land. This decision will remove the suspension from a great number of claims for bounty land, now pending in the office, under the act of 1855.

CHICAGO, Oct. 31.—The Steamer Lady Franklin, on the Upper Mississipi, snagged and sunk on the 23d inst., at Warren's landing, 200 miles below St. Paul's. Three hundred passengers were on board at the time. It is supposed that six were lost. The boat and cargo are a total loss.

NEWARK, Oct. 31—*American Board.*—Rev. Mr. Cooley offered resolutions expressing the confidence of the Board in its officers and missionaries, which were adopted.

The farewell exercises then took place. Eloquent addresses were made in behalf of the Board by the Hon. Theo. Frelinghuysen, Drs. Anderson and Thompson, to which Dr. Stearns replied, expressing the frendly feeling of the citizens of Newark. The Board then adjourned *sine die.*

ALLEGED ATTEMPT AT ROBBERY AND MURDER NEAR SPRINGFIELD.—The Spingfield Republican of Wednesday morning, gives on account of an extraordinary attempt to rob and murder Mr. Albert G. Hall, cattle dealer of Berlin, New York, on the road between Springfield and Belchertown, on Monday night last. The man charged with the murderous attempt is Washington D. Walker, son of Deacon Walker, a fore-handed farmer of Belchertown. It is stated that Walker went to Greenwich, New York, a week ago, and purchased 548 head of sheep, which were to cost $2055. He paid $200 dollars down, and telegraphed to one of the firm to come to Springfield and get the balance. Mr. Hall came on, and was induced by Walker to accompany him to Belchertown, to obtain from his father the balance of the money. The remainder of the story we give in the words of the Republican:

They rode on towards Indian Orchard, crossing the Chicopee at Putts-Bridge, and then took the old road near the river bank, which is not the direct route to Belchertown, although Walker pretended that it was. The conversation turned upon revolvers, first of Colt's and then of Allen's; Walker asked if the latter were good for near practice, and Hall said they were; Walker then pointed out the spot, near where Lyon was murdered, and related the circumstances; just then the evening express train passed along. While in this desolate and unfrequented spot, Walker dropped the reins, and discharged one of Allen's revolvers at Mr. Hall who sat at his left hand, and wounded the latter in the wrist; immediately he fired a second barrel, — the bullet tearing a button to pieces, and the powder scorching the cloth around it.

Mr. Hall exclaimed that he was killed, then grasped his antagonist, and held him before him, and Walker discharged the three remaining barrels over his (Walker's) shoulders, but without effect, the bullets glancing by Mr. Hall's head. Mr. Hall says that all this while the horse stood perfectly still, and the reins were left loose. When the pistol was fired Walker sprang from the carriage, and Hall followed him, supposing himself mortally wounded. He lay in the road a moment, then got over the fence and fell down; seeing a light at some distance, he proceeded a little further and again fell down; and after going a few rods he fell a third time. There he lay until he had gathered his thoughts and strength, when he ran towards the house, and bursting in the door alarmed the inmates with his story.

Walker disappeared with the team, and has not since been seen. His father had no knowledge of the purchase which his son made. Mr. Hall says that Walker supposed that he had a large amount of money on his person. He had however, deposited it all except about $50.

WASHINGTON, Oct. 31.—*Indian Contracts.* It has been ascertained from several of the gentlemen before named, that the contracts for supply of Indian goods were awarded to-day as follows:—To Messrs. Crowin, Ruxthral, and Sears of New York, for Mackinaw blankets, cloth, and dry goods; to Messrs. Beuff Brothers & Leaves of New York, for hardware and agricultural implements; to Henry E. Deman of Lancaster, Pennsylvania, for guns. The whole contract is one of the largest ever made by the Indian Department.

Land Warrants.—The number of Land Warrants issued under the act of March, 1855, in October, were 5942, covering more than 742,000 acres. The total number of applications add up 260,200, and the warrants issued, 178,513; to satisfy which 21,501,250 acres are necessary.

U. S. Treasury.—The net amount, subject to draft, in the Treasury, is upwards of $24,000,000, of which there is at New York $11,750,000; at Philadelphia over $3,000,000: at San Fracisco $2,750,000; at Boston $3,000; and at Charlotte, N. C., $1,750,000.

CHICAGO, Oct. 31.—*Murder Trial.*—Ruloff, charged with the murder of his wife and child, nearly twelve years ago, was yesterday found guilty.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT,
THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico. "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—BEWARE OF IMITATIONS. The Mustang is sold by all respectable dealers everywhere.

SPECULATIONS WITH A SMALL CAPITAL.—Thousands of men and women every day invest small amounts in business which they cannot carry on successfully, and thus lose much time, and much larger sums than they at first proposed to risk. In spite of the popular clamor against lotteries, they seem to offer as fair chances for small investments as mercantile transactions, which are said to prove failures in a majority of instances. It is to be questioned if gambling has not vastly increased in the Northern and Eastern States since the lottery system was abolished there, in consequence of the want of facility to gratify the natural disposition of individuals to accumulate money rapidly, and with but little labor. In the Southern States lotteries are still protected by the Government. This Lottery, the tickets of which are $20, halves and quarters in proportion, is to be drawn on the 22d of November, in the city of Baltimore, Md., on the Havana Plan. There are prizes from $40, to $100 000, in the Grand Consolidated Lottery of Maryland, R. France & Co., Managers. In this case over $382 000 will be distributed. We suppose that all who wish to invest in this lottery will address the Agents, T. H. Hubbard & Co., 39 Fayette Street, Baltimore, Md., who advertise to supply tickets, and all information. We have heard of some large prizes being drawn recently in this State, and this will encourage others to try what the turn of fortune's wheel may supply in the State of Maryland. ADV.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fleneroud enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Mwenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. SIR: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1856.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in district. To regulate the organs of digestion and purify the blood they are the very best medicine I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. —ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SIBLEY.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where, which have not among them some living trophy of its victory over the subtile and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, rots your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacture are often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

The New machine of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston,

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*), as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. A. CHAS MASON,
Commissioner of Patents.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee it is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Morning Chronicle.

TUESDAY, NOVEMBER 4, 1856.

"UNDER WHICH KING?"

"Choose ye this day whom ye will serve."

At last, election day is here. To-day is probably to be decided, who is to be President of this great and mighty Republic for the next four years. And we are glad of it—glad the scrimmage of political warfare, is in a great measure to cease for a time.

Although we have no share in the party strife of this exciting campaign, just closing, we trust; we have, as is our wont, freely expressed our opinion on all questions which have come up for the people's consideration. And that we have, in doing this, treated all parties fairly, we appeal to every candid, unbiased reader—and to the fact that the party papers on both sides have found fault with our course.

We have but to say, on this occasion, that we see no reason to blot out a word of what we have advanced. Let every voter do to-day as seemeth best to him. We would have all vote—and shall rest content with the result.

WEALTH.—The less you leave your children when you die, the more they will have twenty years afterward. Wealth inherited should be the incentive to exertion. Instead of that, "it is the title deed to sloth." The only money that does a man good is that which he earns himself.—A ready-made fortune, like ready-made clothes, seldom fits the man who comes into possession.

Strongly stated, and well written; but not wholly true. Inherited wealth is not *always* squandered; nor are the children of the wealthy *always* slothful. These things, and such things, do occur *sometimes*, yea often; but not so often as some suppose. The descent from wealth to poverty is *noticed;* but the fact is not heeded that hundreds of families live in virtue and comfort on the earnings or savings of prudent parents now deceased. It is so common that nobody thinks it remarkable.]

HON. THOMAS H. BENTON.—This distinguished statesman is engaged to deliver an oration before the Boston Mercantile Library Association. His topic will be "The Union," a subject upon which one who has been for thirty years a member of the United States Senate, and whose name is associated with the history of the country as is his, the Boston Courier thinks "has certainly a good claim to speak and to be heard; and that there will be an eager desire to hear him upon so noble a theme there can be no doubt." The following extract from a letter of Mr. Benton's to the Lyceum at Newburyport, where he is to repeat the address, Nov. 26th, foreshadows in some degree the purpose which the oration is intended to answer, and the spirit in which it will be treated. He says:

I believe there is danger of disunion, and that the first step towards averting that danger is to face and fathom it. After the depth and nature of the decease is known, the remedy can be considered, which, with me, must be conciliation, not coercion; an application to all the feelings of patriotism, national pride, and mutual interest, which certainly animates the great majority in both halves of the Union, and an attempt to unite them in a course of conduct which would have harmony and conciliation for its object.

The subject seems to us to indicate something like Union-*saving*—which will doubtless be current only at the usual great discount, after election.

LIFE IN CALIFORNIA.—The Alta Californian states that Chas. P. Goff, a contractor, made an engagement with four men in Sacramento, California, the other day, to go and work for him on a ditch he was constructing in Placer county. On reaching the place, however, they refused to work and left. Mr. Goff meeting them shortly after, they beset him with clubs and compelled him to give each of them his note for fifty dollars, to indemnify them, as they said, for their trouble in coming out to his place. After getting the notes, they extorted a promise from him that he would not prosecute them. Three of them afterwards went to San Francisco, and Mr. Goff finding them there, had them arrested. Two of the notes were found upon a couple of them. The third stated that he threw his away, knowing it was good for nothing. The fourth culprit has not been found.

☞ Lizzie Howard, a native of Roxbury, Mass., recently committed suicide in New York, on account of the desertion of one whom she had "loved not wisely but too well." At the grave, a sister in grief read Hood's touching poem, "The Bridge of Sighs," amid the tears and sobs of all present.

REV. MR. NUTE.—An eminent journal in Boston affects surprise that Rev. Mr. Nute should have any property left him by the forces of the administration ravaging Lawrence. This journal publishes a letter from him to the effect that notwithstanding the sufferings of the year past, he still owns three yoke of oxen,—with other stock,—including "a hundred hens;"—that he is about to plaster one room in his cabin, where has never been a plastered room, and to let the house he has been building in town; that he has raised an acre of potatoes and eight of corn; and has some wheat (to be harvested next summer) which looks well. He has also 25 tons of prime grass made into hay.

On these statements, and this pretended surprise, the Boston Advertiser remarks:

There is scarcely one New England farmer who will think this a remarkable result of eighteen months' life in the midst of hardships, and the investment which Mr. Nute has made of some thousands of dollars. We happen to have seen a letter of the same date, in which the same gentleman describes the distribution of about eighty dollars that forenoon in charities to persons whose sufferings would make the blood run cold. While Mr. Nute is doubtless grateful that the border men left him his potatoes and his "sod corn"—(corn planted in the notches made by an axe in ground not otherwise broken)—while he doubtless hopes that his wheat may come to maturity, and is glad that all the prairie grass in Kansas is not destroyed, he is doubtless grateful that he has not been left to feed the starving of Kansas with his hundred hens, his seven hogs, his acre of potatoes, or his eight acres of corn. Looking back on the money they have cost him, he probably does not think himself the most successful of farmers.

KANSAS.—A letter from Kansas, dated Oct. 25th, and published in the Traveller, mentions the death of Mr. Bowles, of Lawrence, one of Gov. Geary's prisoners at Lecompton:

"He died on Saturday the 18th, of cholera-morbus, undoubtedly caused by the privations and exposure he had endured during his confinement. He had been unwell for several days, yet the appeals of his comrades for medical assistance was in vain, the guard utterly ridiculing the idea of calling a doctor to a d—d Abolitionist. He lies alongside of Barber, Shombre, Buffum and others of the brave men who had fallen in defence of the rights of Kansas. The prisoners at Lecompton are still in custody of Col. Titus's horde, and the windows of the frame building in which they are confined, show unmistakable evidence of their ruffianism, every pane of glass having been smashed to pieces with the rocks flung at those of the prisoners who might have the temerity to look out."

☞ Hon. John M. Botts has written to Pennsylvania, most earnestly exhorting the friends of Fillmore to vote the Union ticket. Hon. Kenneth Rayner, of North Carolina, has also written to the same effect. Though professing a decided preference for Fillmore, Mr. Rayner says:

"In reply to your second inquiry, whether the Southern people seriously contemplate a dissolution of the Union, in case Fremont should be elected? I answer No! emphatically, No! It is a reproach and insult to the Southern people to say that they would destroy the Union for any such cause; and, as a Southern man, I hurl back the charge as a slander and a wrong upon the conservative masses of the South."

This, by the way, is hurling back Mr. Fillmore's own words as a slander.

☞ Thursday afternoon, Mr. Luke Brooks, of Weston, sixty-five years of age, (formerly of the firm of Moses Hunt & Co., leather dealers, Boston,) started to walk from the Waverly station of the Fitchburg Railroad to Waltham. When on the track of the railroad near the Waltham Depot, the four P. M. passenger train from Boston came in sight. As it approached, he appeared to be confused and suddenly stepped in front of the engine, was run over and mangled in a horrible manner, dying instantly. He leaves a wife and three children. A jury of inquest, after a full investigation of facts, exculpated the employees from blame in the matter.

FATAL ACCIDENT IN ACTON.—About 20 minutes past 11 o'clock on Saturday forenoon, a tremendous explosion took place in the powder mill owned by William Pratt, at Acton, Mass., which was instantly blown to atoms. Two men at work inside of the building were instantly killed. In Brighton street, at the West End of Boston, a man who was on a ladder, resting against a brick building, was thrown to the ground, so severe was the concussion, and the windows of the houses in the vicinity were broken.

We see that in many parts of the country prizes are awarded to ladies for feats in horsewomanship. Poor Pilgarlic says that he is sorry any extra inducements should be given in this direction, for his wife has "mounted the high horse" ever since he married her, and he is fearful that the award of prizes will have a bad tendency.—*Boston Gazette.*

HINTS TO CHORAL SOCIETIES.—Under this head, Dwight's Boston Journal of Music refers to the musical movements of our talented and indefatigable friend Lawrence, of Epping,—as follows:

We often wonder our various choral or even smaller singing societies, in their search for something at once classical, practicable and attractive for matter for practice, have not turned their attention more to the fine Masses of Mozart and Haydn. Portions of the best of these, and often the finest portions, are not too difficult for many of our societies in town or country; they have substantial worth as music, and tend to elevate the taste, and they are sure to interest and fascinate those who learn to sing them, after a little near acquaintance.

We are again reminded of this thought by seeing it stated that a class of singers in Exeter, N. H., and vicinity are preparing Mozart's "*Short* Requiem Mass," under the direction of Mr. W. F. Lawrence, of Epping. This is not the famous Requiem, but one of the shortest and easiest of all the Masses, and yet singularly impressive. It seems to us, therefore, a remarkably good choice for a beginning; and we hope other choirs will follow the example. It is to be given with an accompaniment of two pianos and eight or ten other instruments, which, we believe, is about all that the original instrumentation requires. But choirs may get much good out of it with a mere piano-forte or organ accompaniment.

The Boston Chronicle says:—"Gov. Geary has sent a large bucket of whitewash to Washington, to have his recent outrage on the emigrant train under Mr. Eldridge, put in trim for election day.—Either he lies, or the hundred and forty-one emigrants who sent a messenger back to Chicago signed a good many lies. The people who knew those emigrants and the men who led them, will know which to believe."

☞ The Ladies' Repository, for November, 1856, is just received from the publisher, Abel Tompkins, Boston. The character of the work is fully sustained,—we hear a lady say, it is improved. The contents of the present number are:—

The Lesser Lights; A Letter from the Falls: Mary Rew; The Governess; Discontent; A Summer Day's Tribute; Memories of Prairie Land; Letters from Abroad; Tis a Brave World we have; English Traits; The Heart; Niagara; The Editor's Table.

☞ John Bryant, Esq., who has for many years been a prominent citizen, and an active and highly capable business man in Claremont, N. H., died at Meriden on Friday last, of dysentery, aged about 72 years.

☞ Mr. Burlingame is reported to be quite sick, having overtasked both body and mind in his late labors.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Boston Times, June 23, 1848.

Dr. Wm. R. Hayden is doing an immense business with his "Improved Vegetable Purgative Pills." The sale in this city alone, for the last two months has exceeded five thousand boxes. They are not only the cheapest pill in the United States, but are the best. We understand the doctor is about to make a tour through the Eastern States, for the purpose of establishing agents, and we would advise all dealers in medicine to secure an agency.

WOOD'S HAIR RESTORATIVE.

THE GREATEST DISCOVERY OF THE AGE.—It seldom occurs, that we notice, under any circumstances, patent medicines, or anything of the kind, for we have a prejudice against most of them. But candor compels us to call attention to Prof. Wood's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye," but upon its application as directed, the effect is produced on the skin, which brings out the original, native colored hair, without stiffness, and gives it a glossy and natural appearance. We have seen persons who have used it, and they are much pleased with it.—[Missouri Republican.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized in a any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au26m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuT&hS 6m.

ELECTION NEWS.—Unless the run should be a very close one, we shall doubtless be able to inform our readers on Wednesday, who is to be the next President.

We have made arrangements for receiving the votes of all the towns in this vicinity, and all the returns from other States that may be received in Boston to-night.

☞ Some persons seem to take delight in crying out against Portsmouth, as always remaining stationary, notwithstanding we have a number of improvements going on in our midst. Three new houses are in process of erection on Islington road, five near Gravelly Ridge, and the frames of two more will be raised on Freeman's Point in a week or two. Numerous old buildings have also been renovated in different parts of the city within a short time; and several new ones, completed the past summer, are now receiving their occupants.

☞ One of the most novel, effective, simple and beautiful inventions of the age, may be seen for a day or two in operation, at the little building in front of the Rockingham House in this city. It is a machine for Cutting (not sawing) Down Trees—and will do more work, with only a boy to operate it, than a large gang of wood-choppers. It consists of an iron circle, clasped round a tree of any size; and a triangular gouge or knife, carried by a crank, cuts a groove round and round the tree,—being worked in and in to the centre, by worm-gear.

Its advantages are, the saving of time, and also preserving several feet of the butt of each tree cut down—as it will cut close to the ground, leaving no stump. It also leaves a square butt, ready for the mill.

It must be seen to be appreciated. Mr. Strauss, formerly of this city, has bought the patent right—and will exhibit it here for a day or two. It can't be beat.

BEER.—In our advertising columns will be found a notice of a new "lager bier" saloon,—the first experiment of the sort in this city, and the establishment of which would probably never have been thought of, but for the influx of Germans and other foreigners into the place within a few years. Not that we would state as our opinion, that Sour Krout & Co. drink *all* the beer—but they are the largest consumers, and set the example and introduce the custom wherever they go.

We are certainly no swigglers of lager beer, ale, or kindred decoctions; no admirer of the saloons where it is sold; but the young men who advertise the new beer shop, have fitted up their room in good style, and understand their business, and will without doubt receive liberal patronage from those whose tastes are more *bitter* than ours.

BREWERY.—Mr. John Swindell is about establishing a malt-house, on the south side of Islington street, at the Creek, in this city.

SUNDAY GAMBLING.—Few persons are aware of the extent to which this vice is carried in our city. Squads of young men may be seen on fine Sundays, in the outskirts of the city, under some old wall, or other secluded place, engaged in the beautiful amusement of "*cent ante*" and other games of like character. †

☞ Some man landed from a boat, last Saturday, on Fox Point, Newington, not far from the place of the old Piscataqua Bridge. He had with him a busybody of a dog, by whose actions a flock of sheep grazing there, were so frightened out of their propriety as to rush overboard, where eighteen fine merinos were drowned—and the bodies of sixteen of them washed ashore on the Kittery side of the Piscataqua.

It will be seen that the Chinese Artists are to give another of their wonderful entertainments at the Temple, on Wednesday afternoon and evening, at reduced prices. Go and see.

☞ Gen. J. G. Hadley of this city, has raised a lot of cabbages, several of which weigh over 20 lbs. each—and one weighs 26 pounds,—an immense vegetable of its kind.

☞ The Water Cure Almanac, for 1857, is published by Fowler & Wells, New York,—and contains many valuable hints on Hygiene—and suggests a new name for the system, viz. Hygeopathy, instead of Water Cure.

The greatest pleasure of life is love: the greatest treasure is contentment: the greatest possession is health: the greatest ease is sleep, and the greatest medicine is a true friend.

EXAMINATION AND COMMITMENT.—The thieves taken from Dr. Drew's den in Stratham, have been examined and disposed of as by the following report from the News Letter.

Before Ira B. Hoitt, Justice, on Monday, Oct. 27th, 1856, were arraigned and examined:

John Glover and Hannah J. Glover, for having stolen goods in their possession. Plea, not guilty.—Required to recognize in the sum of $300 each, with two sufficient sureties for appearance at the February term of the Supreme Judicial Court, and in default thereof were committed.

Benjamin F. Speed, Samuel Drew and Sam'l Lomis, for stealing from the New Market Depot, two boxes shoe stock, the property of Azariah B. Caswell.—Speed plead not guilty. Discharged.

Samuel Drew plead not guilty—ordered to recognize in the sum of $500. Committed.

Sam'l Lomis plead guilty—ordered to give bonds in the sum of $500. Committed.

State *v.* the same persons, for stealing goods from New Market depot, of Langmade. Speed discharged. Sam'l Drew plead not guilty. Sam'l C. Lomis plead guilty. Drew and Lomis required to recognize in the sum of $500 each. Committed.

State *v.* Samuel C. Lomis, for breaking and entering the shop of Oren Head in Exeter. Plead guilty—required to recognize in the sum of $500 for appearance at court. Committed.

Sam'l C. Lomis, Benj. F. Speed and Sam'l Drew, for stealing goods of Wm. Meader of New Market, from depot.

Speed, discharged. Drew, plead not guilty. Lomis guilty. Committed for want of bail in the sum of $500.

State *v.* Speed, Drew and Lomis, for breaking and entering the New Market depot in the night time, and stealing therefrom a quantity of shoe stock, the property of Geo. W. Caswell. Speed, discharged. Drew, plead not guilty and Lomis guilty. Ordered to recognize in the sum of $500; for the want thereof committed.

State *v.* Dr. Stephen Drew, for having stolen goods in his possession. Plead not guilty. But the court were of opinion that his kid gloves and rosy cheeks ought not to save him. Ordered to recognize for appearane at Court, in the sum of $400, and for want of the needful, was committed.

John Eaton, who was arrested, was taken by the city marshal of Newburyport, to that city for examination. The others of the gang who were arrested were discharged.

PHILADELPHIA, Nov. 2.—Hon. Kenneth Rayner, of North Carolina, addressed a large meeting of the friends of Fillmore at their head quarters last evening, and strongly advocated the support by the American party in Pennsylvania, of the Union Electoral ticket, in order to defeat Buchanan.—The meeting closed with hearty cheers for the Union ticket.

There is considerable excitement prevailing among the politicians this evening; eight of the Electors of the Fillmore ticket are reported to have withdrawn, viz.;—Andrew Stewart, Kuhn, W. M. Smith, Myers, Harrington, Wells, Youngman, and Duffield. Three others are said to have withdrawn, but their names have not been ascertained.

CINCINNATI, 31.—*Tom Corwin for Fremont.*—Hon Thos. Corwin, having been invited to address a Republican meeting in this city, writes an answer, in which he says: "I prefer the election of Colonel Fremont to that of Mr. Buchanan.

This has been my position from the beginning of the contest. I did and do still prefer Mr. Fillmore to either, believing, and, as I think, knowing his opinions and principles touching the rights and interests both of the North and South, to be such as are prescribed by the Constitution. I still believe his election would do more than any event now possible, to quiet the unnatural, and, perhaps, dangerous agitation of the puplic mind.

The late election in Ohio, however has shown that the Electoral ticket for Mr. Fillmore cannot be voted with any hope of success in this State, and I feel bound by every obligation to choose between the two remaining candidates. Although I cannot assent to all of the doctrines of the Republican party of Ohio, I feel certain that the great interests of this Republic may be more safely confided to the party who opposed the repeal of the Missouri Compromise, and who have been and are still anxious to put an end to all the unhappy consequences flowing from that ill-judged measure, than to such as advocated the adoption of that policy.

My vote will be governed by the same principles which I have always adhered to. Where two candidates have been presented, neither of whom were my first choice, I have deemed it my duty to select and vote for the least objectionable. Were I in Kentucky, where the contest is between Fillmore and Buchanan, I should vote for Mr. Fillmore; but, in Ohio, where the contest is limited between Mr. Buchanan and Col. Fremont, I shall vote for the latter."

OSWEGO, Nov. 1.—*Disasters by the Late Storm.*—Attempts were made yesterday afternoon to get off the crew of schr. John P. Hale, but owing to the heavy sea the lifeboat could not be launched. The crew are in the cabin. The vessel lies nearly a mile from shore.

Second Despatch.—The storm has abated, and the crew has been rescued. The vessel is badly damaged, and her cargo of wheat soaked. Fully insured.

The Canadian schooner Sultan went ashore last night below Fort Ontario.—Cargo wheat.

CHICAGO, Nov. 1.—*Kansas.*—The free state prisoners of Lecompton have published an address to the American people, in which they state they are confined in a small, loathsome prison, with two cannons in front of it, under guard of militia recently enlisted, and that they are unable to procure medical assistance or sufficient food and clothing. Mr. Bowles, a free state man from St. Charles, Missouri, has died since his arrest, and it is feared that several others can survive but a few days, unless relieved. The address is signed by eighty-one of the prisoners, formerly belonging to Rhode Island, Massachusetts, New York, Pennsylvania, Ohio, Illinois, Wisconsin and Iowa.

NEW YORK, Nov. 1.—*Novel Political Step.*—The German Abolitionists of this city, partizans of Gerritt Smith, at a special meeting on Thursday, resolved to support Buchanan for the Presidency, as a more reliable person to further their objects than Fremont.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and delicate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT,
THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—BEWARE OF IMITATIONS. The Mustang is sold by all respectable dealers everywhere.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle his patriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fleneroul enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Mwenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion.*

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the *liver* is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ELISHA ELY, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Imparity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of S. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawker, of the Methodist Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT STONEY.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness, and Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet in communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their ease.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire ADAPTABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they are lots less skillful hands than those sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine, of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I M SINGER & CO.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY.**
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	.90
5 lb. Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1¼ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

WEDNESDAY, NOVEMBER 5, 1856.

HON. SAMUEL HOAR.

The venerable and highly esteemed Samuel Hoar died at his residence in Concord, Mass., Sunday, Nov. 2.

Mr. Hoar has been widely known and universally honored for about half a century. Few public men have retained so large a share of public confidence and regard as the deceased. He was born in the town of Lincoln, near Concord, May 18th, 1778, and was graduated at Harvard College in 1802. He has served in Congress, and in both branches of the State Legislature. As a lawyer he had great influence with juries, and the court, and his professional practice was always very extensive. A story is told of him to this effect:—A jury had brought in a verdict quite contrary to the judge's charge, and to his ideas of the evidence. He ventured to suggest these things to the foreman, and ask why they had reversed his ruling. The answer was—We know these things, but Squire Hoar said so and so, and we *believe* him. It will be remembered that Mr. Hoar was driven from South Carolina some years ago, while he was the agent of Massachusetts, to bring a suit in the Federal Courts to test some of the municipal laws in regard to the illegal imprisonment of the free citizens of the Commonwealth of Massachusetts.

Mr. Hoar was a man of profound religious convictions, and has taken a prominent part in philanthropic, educational, and religious associations and organizations. The Unitarian Church at Concord, by his death, will lose one of its most efficient members. A vacancy has also been made in the Board of Overseers of Harvard University. The members of the Middlesex bar and the religious press will take suitable notice of the death of this high-toned Christian gentleman.

INCENDIARIES IN PORTLAND. — We are pleased to record the detection and imprisonment of a band of incendiaries, seven in number, at Portland, as we gather the facts from the Advertiser of Tuesday.

The Police have, for some time past, been on the track of some persons, who were supposed to have been connected with the incendiary attempts which have been made during the past six months, and have at length succeeded in capturing the whole gang, consisting of seven. Their names are as follows:—Thomas Douglas, Luke Makin, Isaac Pendergrass, Josiah B. Gould and Horace Worcester of Portland, and Samuel Burns and John Burns of St. Johns, N. B.

About a fortnight since, the horse and chaise of Doct. Robinson were stolen in Portland, and were traced to Scarboro.—On the same night a barn in Scarboro was set on fire. On Thursday night of last week, the horse and chaise of Dr. Dana was taken from before the door of his dwelling house in Portland and carried off.—Deputy Marshal Brady was put upon the track and he traced it to Scarboro, where, on the same night, a school house was set on fire. Mr. Brady, after dilligent efforts, succeeded in arresting Horace Worcester and John Burns as the thieves, the former of whom stole the horse and chaise of Dr. Robinson, while both were concerned in taking Dr. Dana's.

After their arrest, on being charged with setting fire to the buildings in Scarboro, one of them made a confession as to the origin of some of the numerous fires which occurred in Portland, and disclosed the names of his accomplices in the transactions. The police wisely kept the matter quiet until they had succeeded in arresting the whole gang, which was consummated on Monday,—the last one, Douglas, having been arrested at Calais Monday morning. Samuel Burns was arrested in Bangor. Makin was arrested by Brady in Portland, and Pendergrass and Gould were arrested by Deputy Marshal Mason, assisted by officer Willey, on Clapboard Island. The two latter attempted to escape, but Mason gave chase to them in a boat, and after a hard run of five or six miles, succeeded in capturing them.

From the disclosures made, it seems that this band of scoundrels had set eleven fires in Portland and vicinity.

One of them, Gould, it is said, was present when most of the fires were set.

The prisoners are all over 21 years of age, except Worcester and Makin. From the confessions made by two or three of them, it appears that they were all leagued together in their destructive purposes.

☞ The New York Mirror says the young lady who eloped a few months since with a "distinguished Major," has returned with a *minor* in her arms.

FATAL ACCIDENTS.—The Trenton, N. J., Reformer of Nov. 1, says: A singular and painful accident occurred on Saturday afternoon last, at the farm of J. Lalor, Esq., in Hamilton township. His men were threshing, the horses attached to the power being driven by a boy named Mooney, about 13 years old. The horse-power was of that construction which requires the driver to occupy a platform in the centre, and directly over the machinery of the power. The boy, it is said, got asleep on the platform, while the horses were moving and fell amongst the machinery, by which he was terribly mutilated, and died in three hours.

The same paper says, on Tuesday evening, a man whose name we have not yet learned, was killed on the Trenton and Crosswicks Turnpike. The calamity occurred in consequence of missing his foothold in attempting to get on his wagon, which caused him to fall between the swingle trees. This frightened the mules attached to the wagon, and the man was killed by their running away.

COWHIDING A BOY.—In Chelsea, Mass., Saturday morning, a boy named Tewksbury was severely cowhided in the public street by Dr. Willard, of that town. The boy was rescued from the hands of the doctor while he was applying the cowhide. The affair created considerable excitement, and the physician, in palliation of his conduct, stated that the boy had been endeavoring, for some time past, to induce his son to play truant from school, and go on thieving expeditions, threatening him with death if he did not comply. The doctor said he had laid these circumstances before the proper officers, and as they were not dispose to act in the matter, he had taken upon himself the authority to chastise the boy.

☞ The Charlestown Advertiser learns that on Wednesday, a Whig convention of Boston nominated a gentleman for an important office, and appointed a committee to inform him of the fact. On repairing to his residence and not finding him at home, they informed his wife of the object of their visit, who at once informed the committee that her husband would accept the nomination. The committee reported back again to the convention, and the report was considered satisfactory.

☞ The reception of Hon. Charles Sumner, on Monday, was a grand affair. He was received by the Committee of Arrangements at the residence of Amos A. Lawrence in Brookline. At the Roxbury line he was received by the cavalcade and introduced by Rev. Professor Huntington to the venerable Josiah Quincy, who welcomed him home. On the arrival of the procession at the State House in Boston, Mr. Sumner was welcomed home by Gov. Gardner, in the name of the Commonwealth. The principal commercial houses in Boston were closed in honor of the occasion.

The New York Tribune says the Rev. Dr. Hornbacher, while returning home on Sunday afternoon from the Temple, where he had been preaching, was taken in a fit at the corner of Second street and Second avenue, and before medical aid could be procured, life was extinct. He was an eminent man, and greatly beloved by his congregation and all who knew him. The deceased was 46 years of age.

The great market-place at New York for the sale of beef cattle, was overstocked on Wednesday, the number on sale being over 3700, which was about 700 or 800 in excess of the demand. The prices of first class beeves were equal to 10 cents a pound for the meat, while ordinary qualities were sold at 8 to 8 1-2 cents. The cattle market is very dull, and we see no probability of higher prices this fall. Nearly 5000 head of bullocks have been received at New York city within the last week.

Rev. G. B. Jewitt, a former professor in Amherst College, who with his family, suffered a terrible railroad accident at Nashua, N. H., last spring, is now residing at Salem, having resigned his pastoral charge in the former city. He has not yet fully recovered from his injuries, and contemplates prosecuting the corporation for the gross negligence that was manifested by its employees.

FOR THE OLD LADIES.—Mrs. Thomas Tracy, recently deceased in Newburyport, left in her will the sum of ten thousand dollars, the interest of which was to be given to an aged lady in Boston during her life time. At her decease, the funds are to be appropriated to the Society for the Relief of Aged Females in that city.

FROM EUROPE—FOUR DAYS LATER.

QUEBEC, Nov. 3.—The screw steamship Canadian, Capt. Ballantine, from Liverpool, Oct. 22, arrived at this port this morning.

A horrible accident occurred at London. The Rev. Mr. Sturgeon, a Baptist preacher, was speaking in Concert Hall, Surry Gardens, when some thieves raised the cry of fire, causing the audience to rush towards the doors, and several persons were trampled to death,

As regards English politics, the Ministers begin to arrive in London. There is nothing interesting except Palmerston is reported preparing a new Reform Bill to cut out Lord John Russell's threatened similar measure.

The Neapolitan affair progressed in the channel previously indicated. Diplomatic intercourse is suspended by France and England, but no act of hostility is to be taken.

The French commercial crisis presents a slightly more favorable aspect, but anxiety is still manifested.

Persia solicits the mediation of France in the difficulty with Great Britain.

LIVERPOOL, Wednesday noon, 22d.—Cotton—The market is firm and active; sales to-day estimated at from 15 to 20,000 bales. Breadstuffs quiet. Provisions quiet, and generally unchanged.

FIRE AT FALL RIVER.—A fire broke out Saturday afternoon in the storehouse of John B. Hathaway, which was totally destroyed. The flames then extended to the extensive stable of R. B. Kinsley which was entirely destroyed. The horses, carriages and harnesses were removed in safety. A large number of stage and pleasure sleighs were destroyed. Mr. Kinsley's loss is about $2000—no insurance. A valuable horse perished in Mr. Hathaway's building. The fire was set by two boys, one of whom was immediately arrested, the other is still at large. When this fire was nearly subdued, another was discovered in the barn of Stephen Shove, which was nearly destroyed. Loss about $200. This was also set on fire. This was hardly got under, when another alarm was sounded, caused by the discovery of fire in Buffinton's Thread Mill, at Fall River, R. I.—This was soon subdued. Damage trifling. During the whole time of the fire a wind was blowing a severe gale, and nothing but the strenuous efforts of the firemen prevented the destruction of the whole north end of the city.—*Taunton Gazette.*

At Exeter, N. H., on the morning of the 23d, Oliver Nichols was found dead and most horribly mutilated. An insane son was with him when last seen. It is not known whether he was killed by him or some other person.—*Boston Post.*

No such event has happened in Exeter, New Hampshire, as we learn by the News Letter. It happened at Exeter, Rhode Island.

Happiness is a perfume that one cannot shed over another without a few drops falling on oneself.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Boston Times, June 23, 1848.

Dr. Wm. R. Hayden is doing an immense business with his "Improved Vegetable Purgative Pills." The sale in this city alone, for the last two months has exceeded five thousand boxes. They are not only the cheapest pill in the United States, but are the best. We understand the doctor is about to make a tour through the Eastern States, for the purpose of establishing agents, and we would advise all dealers in medicine to secure an agency.

WOOD'S HAIR RESTORATIVE.

THE GREATEST DISCOVERY OF THE AGE.—It seldom occurs, that we notice, under any circumstances, patent medicines, or anything of the kind, for we have a prejudice against most of them. But candor compels us to call attention to Prof. Wood's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye," but upon its application as directed, the effect is produced on the skin, which brings out the original, native colored hair, without stiffness, and gives it a glossy and natural appearance. We have seen persons who have used it, and they are much pleased with it.—[Missouri Republican.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared, strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuT&h5 6m.

Eighty Instruments per Week.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

☞ A tall young man with a bronzed face was in sight of our office for an hour, between 2 and 3 P. M. on Tuesday, half drunk, shouting and singing at the top of his voice the praises of his candidate for the presidency, making eloquent speeches, &c. But at last he went off and we were glad to be rid of his noise.

Shortly after this some drunken recruits, said to be from the groggeries in Water Street, came upon the Square, and kept up a series of little fights for an hour or two —in the whole reminding us of the old fashioned drunken town meetings of 40 years ago.

MAN OVERBOARD.—A man, said to be a farmer living on Greenland road, was found in the river, clinging to a post at the head of Pier Wharf, on Tuesday evening about 10 o'clock. Some young men, passing down State street, heard his cries for help; and by means of a boat rescued him—though it was a difficult task to coax or force him to let go his hold. He could give no account of himself, and didn't know how he came in the water—thought he doubtless had walked overboard. Of course he was drunk. Marshal Beck furnished him lodgings. If he don't let rum alone, he may fare still worse yet.

☞ The Chinese Artists and Jugglers exhibit this afternoon and evening, at the Temple. This is the last opportunity to witness their feats, many of which are peculiar to their country—and will well repay for attendance, any one interested in such entertainments.

The children should be allowed to see the Chinamen this afternoon.

The Sabbath in England, as established in A. C. 950, commenced on Saturday at three o'clock and lasted till daybreak on Monday. In the reign of James I., 1606, a fine of one shilling was imposed by act of parliament, on every person absent from church on Sunday.

RESTORATION.—A Boston correspondent of the N. Y. Observer makes the following statement in regard to the spread of "restoration views" among those who habitually "listen to sound orthodox doctrine:"

I don't know how it may be in New York, but I am sure that the tendency of the public mind here and through New England generally, is strongly towards the doctrine of the final restoration of all men to happiness in the world to come. Not Universalism in its bald and naked form, such as Ballou and Balfour preached, but the doctrine of the final restoration, of the Winchester, or, perhaps, the Tholuck school, is the popular idea, or at least the delusive hope of many who attend orthodox churches and listen to sound orthodox doctrine.

To be assured of the correctness of this statement, one needs only to converse with our well-disposed but irreligious young men, and with some professors of religion. Time was when the ministry of New England were called upon specially to define the doctrines of the Trinity and the atonement, and these still demand attention; but the more laborious work now is, to impress upon the public mind the great idea of the future judgement and eternal retribution.

HUMOR IN RAGS.—The editor of the New York Journal of Commerce, one day last week observed an old man with a rag-bag in his hand, picking up a large number of small pieces of whalebone, which lay in the street. The deposit was of such a singular nature, that the newsman presumed to ask the quaint-looking rag-gatherer, how he supposed they came there. "Don't know," he replied, in a squeaking voice, "but I 'spect some unfortunate female was wrecked about here somewhere."

THE ELECTION.

We give below all the returns received by private hands, mail, express, and telegraph, up to 2 o'clock Wednesday morning.

The returns are by no means as full as those we received at the last Presidential election. They afford not much data on which to ground prophecy or speculation as to who is elected. They show, however, that the Republicans have carried all the New England States—which is vastly more than the Democrats reckoned on their doing.

MAINE.

The probability is that Maine has given the Republican nominess from 20,000 to 25,000 majority.—We give all the figures received.

84 towns give Fremont 27,579; Buchanan 15,171; Fillmore 1542—Majority for Fremont 10,942; net gain over Sept. 1708.

NEW HAMPSHIRE.

From appearances in this quarter, the majority of between 5,000 and 10,000 for Fremont & Dayton, counted on by the Republicans, was not an extravagant estimate. (We give the vote of Portsmouth in full, in our local column.)

Cheshire county, Fremont 3909, Buchanan 2192, Fillmore 777.

VERMONT.

Of course the old Green Mountain State gives the Republicans a heavy majority.—Estimated as high as 30,000.

Returns from 40 towns foot up as follows: Fremont 12,388, Buchanan 3,250, Fillmore 252. Republican majority is likely to reach 25,000 to 30,000.

MASSACHUSETTS.

In Massachusetts, the votes for State and County Officers, are so mixed up with the votes for President, as to cause some confusion of returns. There is no doubt, however, but that the State has gone for Fremont by a considerable majority—as no reasonable man doubted but it would.

Buchanan doubtless runs second in the State—Fillmore being third.

Burlingame is re-elected by from 30 to 50 plurality.

CONNECTICUT.

The vote of Hartford stands, Fremont 2224, Buchanan 1825, Fillmore 652.

18 towns in Hartford county give a plurality of over 1052 for Fremont. Fremont carries this State by a large majority.

All the towns in Hartford County are in except Burlington—Fremont has a plurality of 1377.

Returns from 176 towns (one-half of the State) will give Fremont a plurality of 4600. He will carry the State by about 8000 plurality.

NEW-YORK.

New-York City—11 Wards complete foot up, Buchanan 20,926; Fillmore 8668: Fremont 7565—showing a Democratic gain over last year of about 5500; American gain about 400; Republican gain about 5000.

13th ward, Buchanan gains 648, Fillmore 222, Fremont 285.

Rochester—Fremont 2811; Buchanan 2324; Fillmore 1267.

Deer, Park and Orange County, Republican gain 168; Democratic gain 96; Fillmore's loss 89.

PENNSYLVANIA.

Lancaster city gives 1195 for Buchanan, being a gain of 615 since the October election.

The Democrats have carried Philadelphia city and county over both Fremont and Fillmore by about 5000 majority.

MARYLAND.

Baltimore.—There was rioting in several wards. Pistols were freelr used, and several persons reported shot. One man reported killed.

VIRGINIA.

Alexandria city and county give a dem. gain of 157 over last year.

☞ The citizens of New Hampton, N. H., have subscribed $2,300 towards a fund of $10,000 which the Free Will Baptists are attempting to raise for the institution at that place, which is now under their control. A Mrs. Lewis of that town has subscribed $1000 towards a $10,000 fund for the female department of the same institution.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT,
THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—BEWARE OF IMITATIONS. The Mustang is sold by all respectable dealers everywhere.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE RECE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURGH, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of nineteen sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SOULELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet do communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, or neglect them until no human skill can master the inexorable canker that, fastened on the vitals, sets your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING, of a trail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I M. SINGER & CO.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procurement of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmeg, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	.90
5 lb. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one quarter the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

THURSDAY, NOVEMBER 6, 1856.

BUCHANAN ELECTED.

The reader will see by the despatches from New York, that three well-informed opposition papers, concede the election of Buchanan and Breckinridge to the presidency and vice-presidency—on returns and indications which are not yet given in detail. The principal of these is the election in Pennsylvania, where Mr. Greely estimates Mr. Buchanan's pluralitv at 25,000. This result seals the fate of Kansas,—dooming it to be a Slave State; endorses and sustains the plans and acts of Douglas, Atchison and their coadjutors in Kansas, Missouri and Washington; and prepares the way for slavery extension further west.

MASSACHUSETTS. — Gov. Gardner is re-elected, and the Republican members of Congress, eleven in number. The whole State Government is in the hands of the Republicans.

The Boston Courier says that "in Boston the Free Soilers, who give a large plurality for their Governor and State officers, sweep the county and city for county officers and members of the Legislature, and worse than all, re-elect their two members of Congress from the 4th and 5th districts.

The returns from other parts of the State, too, show a decided unanimity in the votes of Massachusetts with regard to the Presidential and State elections, and give the State to Mr. Fremont by a most decisive majority. "Kansas," "Brooks," and "No extension of slavery," have been a very profitable stock in trade for the Fremont party.

Young Africa exceeded Young America, Tuesday, in its demonstrations of joy, at the appearance of the contest in Boston, and a large procession from Belknap street and that vicinity paraded the streets of Wards 4 and 5, with two drums and a negro whistler, and, with banner inscribed "Fremont Club, Ward 6," cheered the proceedings at the polls in the most vociferous manner. About two hundred colored persons were at the 7th Ward polls at the opening, Tuesday morning.

There was an immense crowd in State street until a late hour of the night, with the usual noise which attends such assemblages. Newspaper extras figured up the election of Mr. Appleton by 149 plurality, and upon this cheering, but unreliable announciation, his friends raised music, proceeded to his house, called him out, and he made them a short speech. This was a great mistake on their part, but people are not ever sane upon election nights when politics run high."

PENNSYLVANIA.—John W. Forney writes from Philadelphia to R. J. Walker, at New York, that "stupendous frauds of the Fremont leaders have been detected. Money has been paid profusely by them for corrupt purposes, to purchase election officers, bribe Democrats, &c. The scheme has been discovered, and a portion of the money, nearly five hundred dollars, is in the hands of the public authorities. Parties directly implicated are known to be the intimate friends of Fremont. They boasted to their victims of similar arrangements throughout Pennsylvania, New York and Ohio. Warrants have been issued for their arrest.

We find the above in the Boston Courier, and give it as we find it.—The richest part of the item is, that Mr. John W. Forney should write a letter about frauds.

WISCONSIN. — The Legislature of this State has just concluded its session, and adjourned. Before it separated, the Judiciary Committee of the Senate, to whom had been entrusted an inquiry into the alleged Democratic frauds at the last election, reported that Bashford's (Republican) majority was rightfully about 6000, notwithstanding the attempts of Barstow to prevent him from obtaining the office, by seizing it himself, and using its power by usurpation and fraud.

DEATH OF THOMAS DOWSE, Esq,—Thomas Dowse, Esq., a highly respected citizen of Cambridge, Mass., died at his residence in that city on Tuesday morning, at the advanced age of 84. It will be recollected that some two or three months since, Mr. Dowse presented his large and valuable library to the Massachusetts Historical Society; a noble donation which will perpetuate his name to future generations.

☞ Mr. Amos Thompson, a well known and much respected citizen of Gardiner, Me., was severely injured on Friday morning last, at the Rail Road wharf in G., by the falling of a pile of boards. One of his logs was broken, and he was otherwise so externally, and it is feared internally injured, that there is but little probability of his recovery.

A LOST ART.—The art of making large loaves, with the bakers.

ROUGH TREATMENT.— Mr. F. A. Henly, blacksmith, in Portland, while shoeing a horse, on Tuesday, was kicked so violently in the breast by the animal as to be thrown several yards. He was taken up senseless, but no bones were broken, and it was hoped that he had experienced no serious injury.

HORSE THIEVES.—A Portland constable, on Tuesday morning brought from Boston, (on a requisition from Gov. Wells, of Me.) Wm. C. Merritt and George E. Burnham, and lodged them in jail; they having, on the 21st of October last, stolen a horse and wagon in Brunswick, from Samuel R. Jackson of that place, valued at $625.

RESULT OF CAMPHENE.—On Sunday night the dwelling house and store of Mr. Cobb, at Union place, New York, took fire, in consequence of the carelessness of a servant in upsetting a fluid lamp while burning. The insurance on the property ran out only a day or two before. The building was totally consumed.

ACCIDENT IN WALPOLE.—On the forenoon of the 1st inst., Thomas G. Wells, Esq., of Walpole, was thrown from his carriage in consequence of his horse becoming unmanageable, by which his arm was broken, and he was otherwise injured. Mr. Wells was very badly burned at the destruction of his banking house at the time of the great fire at San Francisco a few years ago.

☞ The Portland Argus of the 5th, says of the Incendiaries caught there:

It appears that the seven persons implicated constituted an organized gang, and that, when a fire was to be set, it was decided among them who should do the act. Whether they were impelled by love of mischief, or the chances of plunder, does not as yet appear.

DEAD HEADING.—A Watertown paper relates the following story of an adroit and successful performance in the sponging line. A man wishing to "dead head" his passage over the Watertown and Rome Railroad, passed through the cars to the platform of the last one, climbed upon the top, and dashed along to the forward car, where he very coolly took a seat. The conductor saw the man go to the rear platform, but did not particularly notice him. When he got through collecting fare, he looked out on the platform, but no man was there. Supposing he had fallen off, the conductor ordered the train to be stopped, and proceeded to look for him, but in vain. The train then went on its way, and the conductor passed through the cars. When he came to the forward car he saw a stranger, and supposing he had passed him by when collecting fare, he asked him for his ticket. The man very coolly replied, "I lost it while helping in the search for the man who fell off."

HORRIBLE DEATH ON A RAILROAD TRACK.—Between 7 and 8 o'clock Saturday evening, the body of an unknown man was found upon the track of the Newton Lower Falls Branch Railroad, near "Pine Grove" station. The head of the deceased had been crushed to pieces in a horrible manner, making identification impossible. The body was that of a man of rather large size, apparently a laborer. He had on a blue coat with brass buttons, and a pair of "sheep's gray pantaloons." In his pocket was found about $15 in money, two tickets of the Eastern Railroad from Portland to Portsmouth, and also a check on the same road for baggage. It is supposed that he must have laid down on the track, but the engineer of the Newton special train was not aware of the accident until the body was found. Coroner Adolphus Smith was called, and summoned a jury to hold an inquest.—*Traveller.*

THE NEXT CROP OF WHEAT.—The Lexington (Mo.) Express of the 25th ult., says:—We have never seen the wheat look so fine at this season of the year as now. The late rains have brought it up most beautifully, so that it now thoroughly mats the ground. In some localities South, however, it has been greatly injured by grasshoppers. A gentleman from Southwestern Missouri, says that they have been destructive in that region. We do not hear of them in Lafayette, but in Johnson county we understand they have made their appearance, and we have ourselves seen some fields in the last named county completely destroyed by them.

PASSING COUNTERFEIT MONEY.—John Crosby and Sylvester Whitney were arrested in this city (says the Portland Adv.) last week, by Marshal Ring and the police, on a charge of passing counterfeit money on board steamer Daniel Webster. They left the boat at Rockland, but a telegraphic despatch from Bangor caused their arrest on their return to this city. In the hat of one of them was found a large quantity of bills on broken banks, besides some counterfeits. The prisoners will be sent to Bangor for examination.

☞ The vote of Exeter for Fremont was 498, instead of 398 as appeared in our paper of Wednesday. So says a correspondent at E.

South Hampton, 13 Buchanan majority.

SUNKEN WAR VESSELS AT SEBASTOPOL TO BE RAISED BY AN AMERICAN.—John E. Gowen, Esq., of Boston, who is now in Russia, has just entered into a contract with the Russian government to raise the ships of war and other vessels, fifty-two in number, sunk in the harbor of Sebastopol at the time of the siege. It will be remembered that Mr. Gowen, under contract with our own government, succeeded, after repeated efforts of British engineers had failed, in raising the wreck of the United States steamer Missouri, sunk in the harbor of Gibraltar. Mr. Gowen will commence opperations in the harbor of Sebastopol next spring. That an American should be selected to undertake this great work, is a compliment to American enterprise and a matter of national pride.—*Boston Courier.*

A young man, named Harvey Lossee, and his sister Cynthia, a girl of 14 years, in Freeland, Ill., were returning through some timber where they had been gathering nuts, when they were menaced by a bull; and the young man, having taken his gun for the purpose of shooting squirrels, was in the act of raising it to shoot the animal, when one of the barrels was accidentally discharged, lodging the whole charge in the head of the unfortunate girl, killing her instantly.

The commerce of New Orleans, for the past year, has been larger than for any previous year. We also learn from the Crescent that a large number of buildings are in the course of erection in that city, involving an expenditure of more than two millions of dollars. Among them are two splendid churches, two orphan asylums, one Jewish and one Catholic, a Mechanics' Institute, one Medical School, and a Jewish Synagogue.

Among the arrivals of emigrants at New York on Wednesday, were several French political refugees. There were also thirty-six soldiers of the British Foreign Legion, who served in the Crimea. They came in uniform, and landed with their knapsacks on their backs. They are on their way to the bounty lands in Canada granted to them by the British government.

The Triennial Convention of the Freewill Baptist Church began its session, October 1, at Maineville, Warren County, Ohio.—The attendance from all parts of the states was large The Freewill Baptists have in the United States 1173 churches, 1107 ministers, and 49,809 church members. The first church was formed in New Hampshire in 1780.

☞ According to the minutes of the present year, the Baptists of Rhode Island number 7,290 members.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Boston Times, June 23, 1848.

Dr. Wm. R. Hayden is doing an immense business with his "Improved Vegetable Purgative Pills." The sale in this city alone, for the last two months has exceeded five thousand boxes. They are not only the cheapest pill in the United States, but are the best. We understand the doctor is about to make a tour through the Eastern States, for the purpose of establishing agents, and we would advise all dealers in medicine to secure an agency.

WOOD'S HAIR RESTORATIVE.

THE GREATEST DISCOVERY OF THE AGE.—It seldom occurs, that we notice, under any circumstances, patent medicines, or anything of the kind, for we have a prejudice against most of them. But candor compels us to call attention to Prof. Wood's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye," but upon its application as directed, the effect is produced on the skin, which brings out the original, native colored hair, without stiffness, and gives it a glossy and natural appearance. We have seen persons who have used it, and they are much pleased with it.—[Missouri Republican.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all hope and died before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuT&hS 6m.

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this now celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

The Committee, in arranging the programme for their third Course of Lectures, have determined to invite only lecturers of decided merit and, believing that in a course of popular lectures instruction should be blended with amusement, they have decided to introduce a NEW FEATURE, by connecting with the usual series upon miscellaneous topics, a short SCIENTIFIC COURSE; and have therefore secured the services of Messrs. Whittaker and Sprague, whose lectures are appropriately illustrated, and of the most entertaining character. It is believed that the course of lectures before this Association the coming season, will surpass in point of interest and variety, as it certainly will in regard to the expense incurred, any ever before given in this city.

LOCAL.

An Escape.—On Sunday morning last, a gentleman in this city, just entering a wagon to ride with his little daughter, about 14 years old,—by the starting of his horse, was thrown to the ground,—leaving the child alone in the carriage, and at the mercy of the startled animal.

The horse dashed off at a mad pace—striking a curb-stone with force sufficient to break in the tyres and fellocs of both the fore and hind wheels, of the side on which the girl was sitting. The shock threw her a foot or two into the air, and scattered the cushions, robes and other articles in the carriage, broadcast.

The child was not thrown out, however; and thought she would not jump out, as if she did the horse would stave the wagon all to pieces. So she gathered up the reins, which were laying round the dasher, and soon stopped the horse.

This was rather better than screaming for help, or jumping out—as, indeed it is always best to keep your wits about ye.

Another Fluid Accident.—We regret to learn that Mr. Walter B. Hill and his wife, of this city, were badly burned, on Sunday night last, by the breaking of a fluid lamp. Mrs. Hill let fall the lamp, which broke in pieces, and the blazing contents covered and severely burned her. In extinguishing the flames, Mr. H. had his hands badly scorched. He was afraid of the stuff, but his family preferred it to a less dangerous though more troublesome and dirty article.

Deaths in Portsmouth. — Mr. Bell's record of mortality, for the month of October, is as follows:

Males, seven—aged 5 months, 1 year 2 months, 24 years, 29, 37, 54, 73.

Females, three—aged 1 month, 11 years, 77.

Total deaths for the month, ten.

The New Post Office.—We learn that Mr. Young, of Washington, D. C., an architect in the employ of the U. S. Government, visited this city a few days since, to examine the sites offered, and decide upon the location for our new Post Office Building. If the place has been fixed upon, it has not "transpired" or been made public yet.

Correspondence of the Chronicle.

MUSIC IN EXETER.

Exeter, Nov. 3, 1856.

The first full rehearsal of the Mass, by the associated singers and players, took place last Sabbath evening, in the 2d Congregational Church in this place; and left a very favorable impression upon the audience, who remained gratified listeners to the close. To say that the "Mass" is good, does not convey the truth. It is elegant and truly classical: and is one of the great master's best compositions.

The rehearsal shew that it had been carefully studied by the Conductor, and by his hard-working energy, he has succeeded in getting it to a favorable rehearsal, which will doubtless insure success. The intention is, we learn, to bring it out to two pianos, and the orchestra; but allow me to suggest to Mr. Lawrence, my own idea, which is that it must thus necessarily lose much of its power and sublimity. It needs the majesty of the organ. The "Day of Wrath," in particular, requires the sub-bass of the organ; as also the tremulo, in the "Pie Jesu," and other variety of this beautiful and magnificent instrument—which was all brought out in a truly masterly manner on this occasion by quite a young lady of your city. The orchestral instrumentation is elegant; the solos were well sustained, and the chorus full and effective, by the best local talent of this place and vicinity.

The music, the effort to bring forward so intellectual and rare a treat, merits the highest commendation. Yours,

Swamscot.

Letter Missing—See Advertisement.

Rev. Mr. Danforth, Baptist Missionary at Assam, writes from Sibsagor, May 17th, "that he had completed the Pilgrim's Progress in Assamese; that it was out of press, and abroad on its mission of usefulness among the people." Thus the immortal tinker of Bedford, "though dead yet speaketh" to the different kindreds and tribes of earth.

Accounts from Turks Island report that Grand Turk and Salt Cay have doubled the quantity of salt produced last year, and Cockburn has nearly, if not entirely, quadrupled its returns.

David Hunt, Esq., of Jefferson county, Alabama, has presented to Oaklund College the munificent sum of fifty thousand dollars.

LATE ELECTION RETURNS.

New York, Nov. 5—9 1-2 A. M.

The Herald, Tribune, and Times frankly admit that Buchanan and Breckinridge are elected.

In Pennsylvania the defeat of the union electoral ticket is conceded by its friends in Harrisburg.

The complete returns from Philadelphia show that the opposition vote, which, if united, might have defeated Buchanan, has been thrown away, and with it all hope of carrying the State. The entire opposition is 39,426, Buchanan 38,126. The former is however thus split up:

Fusion	19,570
Fillmore	12,356
Fremont	7,500

Buchanan's plurality 18,556.

New Jersey—*Newark, Nov.* 5.—Returns still meagre, but no doubt the State has gone Democratic by 4000 to 5000.

Delaware—*Dover, Nov.* 5.—State certainly gone Democratic. Democratic Congressmen also elected.

New York, Nov. 5.—The vote in this city is nearly 79,000. Buchanan over Fremont nearly 23,000: over Fillmore nearly 21,000.

Incomplete returns from 39 counties give Fremont over Buchanan 18,000; Buchanan over Fillmore 41,000.

The whole Republican State ticket is probably elected.

Maryland.—*Baltimore, Nov.* 4th.—The American majority in this city is 8000.—Baltimore and Hartford counties show Fillmore gains. He will probably carry the state by 10 to 12,000.

The southern telegraph line is down beyond Fredericksburg.

Ohio.—The Fremonters in Ohio, instead of obtaining the 40,000 majority, which they claimed before the election, have nearly 7,000 less than any majority at all.—They have a plurality of votes in that state, but the majority was nearly 7,000 against them.—*Boston Cour.*

A letter from Naples says: "Slips of earth into the principal crater of Vesuvius have been taking place for some time past. It is feared that the entire summit of the mountain will disappear in the open chasm. Violent and continual reports have of late proceeded from the volcano."

Sale of Fonthill.—We are informed that Mr. Edwin Forrest has sold his magnificent house on the Hudson, below Yonkers, to Archbishop Hughes. Only a portion of the grounds were sold; the price was $50,000. The home of the tragedian is to become a nunnery.—*New York Mirror.*

The Memphis (Tenn.) papers say that cotton has accumulated in that city to an unprecedented amount, in consequence of the low stage of water preventing the large steamers from taking full loads. Two dollars a bale is freely paid to New Orleans in this emergency.

Major Ben Perley Poore was in Boston, Monday, and purchased a wheelbarrow with which to pay that bet. He is to wheel from Newbury to Boston the barrel of apples which he loses on the election in the State. "May we be there to see."—*Boston Journal.*

The Wesleyan Conference has renewed its prohibition of dancing and card-playing in the families of members of the body, on the ground that these practices "are not in harmony with religion."

A son of Eastman Stearns, of Bartonville, Vt., accidentally shot himself through the head, on Sunday, the 19th, while out coon hunting, and died in about an hour.

From the Boston Saturday Evening Gazette.

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT, THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—Beware of Imitations. The Mustang is sold by all respectable dealers everywhere.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PRIBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my hips and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, STATE HOUSE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SIBLEY.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they seem excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and efficient.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Any, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtile and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the fatal diseases and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, not neglect them until no human skill can master the incurable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work The truth is, family sewing machines ought to be stronger than any other, because they are skilful hands than when sold to manufacturers, and need for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No, 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R H Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R H Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,
Commissioner of Patents.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

Fremont's plurality in Cheshire County complete, 1654; net gain 716.

Morning Chronicle.

SATURDAY, NOVEMBER 8, 1856.

THE ELECTION.

The Boston Journal of Friday evening says: "The returns still come in most favorable for the Republican cause. We have but just missed electing Fremont. Buchanan will have a majority of only ten votes at the most, in the electoral college, and perhaps not but six, if California has gone for Fremont. No President since the time of Madison, in 1813, has received so small a majority of the electoral vote. He has only been saved by his own State.

The returns from Pennsylvania come in slowly, but there cannot be the shadow of a doubt that the State has gone for Buchanan by a very large *plurality*."

The same paper gives the following items as the latest Election Returns.

MICHIGAN.—*Detroit, Nov.* 7.—The Free Press says the Republican majority in the State will be ten to twelve thousand.

TENNESSEE.—*Memphis, Nov.* 6.—Thirty-two counties show a Democratic gain of 3000.

INDIANA.—Returns from Indiana are conflicting, and much doubt is felt whether Buchanan has carried that State.

RECAPITULATION.

From the various returns, estimates and guesses, on the Presidency, we make up the following table—to be corrected from day to day, if necessary.

Our table, as published on Friday morning, gave Buchanan one State at least, which belongs to Fremont—and we therefore transfer Illinois to the column comprising those which have made a record for freedom. California may go there yet—possibly Indiana; and Fillmore's pyramid may yet find something more than a *base*.

THE VOTE OF PHILADELPHIA.—The Philadelphia Inquirer gives in the following table the result of the Presidential vote in that city:

Democratic	38,120
Union	19,570
Fillmore	12,331
Total	70,021

The actual strength of the Republicans is but 7,000.

The Ledger says:—

The vote is tolerably full, but it is very evident from the result that a large number of the Fillmore men must have stepped out from the ranks of their own party, and, instead of voting the Fusion ticket, have gone over to Buchanan, whose plurality over the Fusion ticket reaches 18,556; and his majority over all is 5,203.—The aggregate vote is 70,124, or 1,582 more than was cast at the October election.

GOOD NATURE.—All parties appear pleasant since the election, (says the Newburyport Herald,) and greet each other as though no party lines had divided them. The Democrats are pleased with the Election of Buchanan; and the Republicans glory over Massachusetts. We ought all to be glad at the result, for Heaven only knows how we should have defended Washington from Brooks, Keitt and Wise, if it had gone the other way. The Union, from which the splinters would have been flying before this, if Fremont had been chosen, is now saved for four years. It will have other boils upon its head at the end of that time, that the party physicians will have to poultice.

☞ The N. H. Patriot brings out the old rooster, and says, that "Black Republican Disunion is dead!"—nevertheless the editorials seem less like the crowing of a rooster than like the growls of a bear.

Here is one of them.

We believe the Democrats, on Tuesday last, cast a majority of the legal votes cast in this State; we have not a shadow of doubt of it. We believe we have been defrauded out of this election, as we were defrauded out of the election last March.

☞ The New Haven Palladium and Hartford Free Press each hoist the name of Col. Fremont as candidate for President in 1860.

The Springfield Republican concedes the election of Buchanan and Breckinridge, and nominates Fremont and Dayton for the Presidential course of 1856.

☞ Rev. Randolph Campbell and Rev. Herman R. Timlow of Newburyport, were were received into the Londonderry Presbytery, at a recent sitting of that board at Litchfield. Mr. Timlow has accepted the invitation of the Second Presbyterian church in N. to become their pastor, and the installation will take place soon after the improvements going on in the meeting house are completed.

☞ The Rev. Thomas Boutelle has recently been dismissed from his pastoral charge of the Congregational Church in Bath, N. H.

Rev. E. H. Richardson was dismissed from his pastoral charge of the Congregational church in Goffstown, on the 30th ult. He has accepted a call to become the pastor of the 1st Congregational church in Dover.

The Rev. J. M. Steele has been installed over the 3d Presbyterian church in Columbus, O. He was installed by a Council, and the church will hereafter be in name and in fact a Congregational church.

☞ Rev. Daniel P. Pike, of Newburyport, has been elected one of the Council of the State of Massachusetts.

☞ The Claremont Eagle states that Gov. Metcalf has removed from Newport to Claremont, and correspondents are requested to direct communications to him there.

☞ Peterson's Magazine for December, contains a beautiful engraving of the Young Harvesters, and many other attractions.

Great improvements will be made in this capital Magazine for 1857. The reading matter will be increased to *nine hundred pages* a year. Each number will contain a steel engraving; a colored fashion plate, and about forty wood engravings. The fashions are always as pretty and late in "Peterson" as in any other magazine. Mrs. Ann S. Stephens and Mrs. E. D. E. N. Southworth write permanently for it, assisted by all the best female authors:—and morality and virtue are always inculcated. The terms are $2 a year. To clubs the terms are cheaper yet, three copies for $5, five copies for $7.40, and eight copies for $10, with a splendid premium to the person getting up the club. Address, post-paid, Charles J. Peterson, No. 102 Chesnut Street, Philadelphia. Specimens sent on being written for.

WOOD'S HAIR RESTORATIVE.

☞ We advise those of our friends in a state of single blessedness, who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—[Ohio Statesman.

☞ Horace Jones, about twenty years old, was drowned on Tuesday night, about ten o'clock, while attempting to cross Connecticut River, at Claremont, N. H., with the ferryman. When about mid way of the river, the boat was capsized by a sudden squall, and all three were thrown into the river; but the ferryman and the companion of Jones were almost miraculously saved from a watery grave. Jones and his companion are said by the Eagle to have been somewhat in liquor; and to this, in part, is attributed this calamity.

☞ A dividend of 5 per cent., from the earnings of the last six months, has been declared by the Globe Mill of Newburyport.

Robert Evans, of Piermont, N. H., fell dead on Monday last, while leading his horse to the barn. He was well known and highly respected.

☞ The Boston Post of Friday, says:

There is nothing very interesting in the remnants of the Massachusetts election.

COMPLIMENTS. — Some of our German friends in the city, think the mention we made of them in our notice of the new lager beer saloon, a few days ago, was rather a "slur." We are always sorry to be misunderstood — and especially regret our meaning should have been so misconceived by so worthy and highly respectable a portion of our population as the Germans who have located in Portsmouth, have ever been and are. We certainly had no intention of casting slurs on anybody.—But we still think our statement was correct—that "but for the influx of Germans *and other foreigners*" here, the establishment of such a saloon would not have been thought of. Now as there are fifty English and Irish here to one German—the Germans certainly need'nt take *all* this to themselves. And if drinking beer be no disgrace, to German or Yankee, (and we did't say it was,) then we can't see that it is any harm to tell of it,—and if it is disgraceful, why the sooner it is left off, the better.

The advice of our German complainant, that we had better leave off printing, and go to drinking lager beer,—did not go far towards convincing us our statement was incorrect; nor did the remark of his companion, (made to prove the few Germans here do not by their patronage warrant the establishment of a lager-beer house,) that he buys his by the keg, for home use!

As we said before—we don't swig beer; but those who do, will without doubt be politely served to the best, at the new saloon.

THE PRINTING CELEBRATION.—On Thursday evening, the Committee of Arrangements for the late Celebration, applied in the Board of Aldermen for $250, of the sum appropriated for their use. $500 was the sum asked for by the petitioners, on condition that a like amount should be subscribed by our citizens—and that amount was appropriated. But owing to the liberality of the response made to the committee appointed to raise subscriptions—and the economy practised by the committee of arrangements—it was found necessary to draw only half the $500.

As a well wisher to old Portsmouth, and so to all celebrations which tend to her advantage—as a member of the committee of arrangements, and particularly of the sub-committee to receive subscriptions—and more especially, as a representative of the "printing profession," the art of arts, which honored Franklin and which he never dishonored; to duly notice which art this Celebration was planned and carried through: we wish to acknowledge the generous favor with which the propositions of the craft in this city, respecting the celebration, were received by our citizens generally. Almost every man applied to—we remember scarcely half-a-dozen exceptions—contributed something toward the general good; and one public-spirited lady, unsolicited, sent in a liberal sum for the fund. Especially, is credit due to Messrs. R. Jenness, I. Goodwin, Wm. P. Jones & Son, Rev. Dr. Burroughs, and Dr. D. H. Pierce, for their very liberal subscriptions—which were commendable and worthy of note, on account of their amount; while very many others, with less means, were equally liberal and in no wise less public-spirited, in their contributions of smaller sums.

SHOP-BREAKING.—The shoe store of Mr. J. Buzzell, in Daniel street, was robbed of boots, shoes, &c., to the amount of $20 or more, on Thursday night—probably after 2 o'clock. The thief cut out a pane of glass, and took what was within his reach.

☞ Rev. Mr. Fanton is to preach at Hanover Street Chapel to-morrow, at the usual hours. Seats free.

MAN OVERBOARD.—On Monday night a man named Pepper, belonging in Somerville, was knocked overboard by the cars on the Eastern Railroad Bridge, at Prison Point, Charlestown, Mass., as he thinks. He managed to get out of the water after being thoroughly soaked, and taken to the watch-house, from whence he was afterwards sent home. He received a cut upon his head, from which he bled freely. From appearances he had been taking too much of the ardent, and so thought the cars hit him. Perhaps they did, but more likely he was hit only by the brick in his hat.

☞ We learn that since the election two gentlemen, one of whom was for Fremont, and the other for Fillmore, have entered into partnership under the firm of "Grinn & Barrett." Q.

MALDEN, Nov. 6, 10 P. M.—*Larceny Extraordinary.*—Major Poore's apples were stolen from the wheelbarrow this evening, while the Major was resting in the Eagle Hotel.

THE VOTE FOR PRESIDENT.

ILLINOIS.—*Chicago, Nov.* 6.—In Jefferson, Union, Pulaski, Alexander, Massac, Pike, Washington, Perry, and Montgomery, (Southern counties) Buchanan's majority is about 8300,—a gain of 4000.

Macon county—Buchanan 321 majority—a gain of 400.

In Iroquis, Lee, Rock Island, LaSalle, and Stephenson counties, Fremont's majority is about 3800.

Washburne, Republican, for Congress in the first district, is elected by 11,500 majority. Farnsworth, Republican, for Congress in the second district, has 12,300 majority. Lovejoy, Republican, in the third district, has from 7000 to 9000 majority. Kellog, Republican, in the fourth district, is elected. Nothing definite from the fifth district. Archer and Brownell, Republicans, are probably elected in the sixth district. Morrison and Smith, Democrats, elected in the seventh district.

The Republican state ticket, North of Springfield, has over 5000 majority, and in the whole state it will probably be 10,000.

NEW YORK, Nov. 6—A dispatch from John Wentworth, Chicago, to the Evening Post, says Fremont is gaining everywhere in Illinois, and the entire Republican ticket is certainly elected.

MARYLAND.—*Baltimore, Nov.* 6.—The whole of Maryland has been heard from, with the exception of the counties of Somerset and Worcester. Fillmore's majority is 8100. The two counties to be heard from gave 100 American majority last year.

KENTUCKY.—*Cincinnati, Nov.* 6.—Fifty-one counties in Kentucky show a Democratic gain of 7000. The state will probably go for Buchanan by from 8000 to 10,000 majority.

LOUISIANA—*New Orleans, Nov.* 6.—The Democrats have carried this state by 1500 to 2000 majority.

WASHINGTON, Nov. 6.—*Political.*—Arrangements are already in progress for the reorganization of the editorial force of the Union newspaper. It is in contemplation to have one editor from the North and another from the South, in view of Buchanan's administration. Mr Nicholson will retire on the 4th of March.

The Commissioners in the California war debt, report $840,000 liquidated, nearly he entire sum appropriated by Congress for that purpose.

ELECTION RIOTS.—*New York, 7th.*—The Baltimore papers give a list of the killed and wounded in the election riots of Tuesday. There were four killed, 14 fatally wounded, and 69 wounded, some dangerously. Among the wounded are 3 women and 4 boys.

BUFFALO, Nov. 6.—*The Storm.*—Our papers this afternoon are filled with accounts of disasters to lake craft, in the late gale. Some 20 schooners and barks are reported ashore or badly damaged. The brig Cumberland is reported to have been lost, with all on board; and Capt. Champney, of the schooner Vermont, arrived this afternoon, says on the afternoon of the 4th he saw a large steamer or propeller lying in the trough of the sea, wholly unmanagable. Her smoke pipes were overboard, and a crowd of people were standing upon the hurricane deck. He thinks she must have swamped before the storm was over. Owing to the severity of the storm, he was unable to render assistance or ascertain her name.

CHICAGO, Nov. 5.—A tornado passed over Schuyler county, in this state, on the 24th ult., completely destroying the village of Littleton. The village contained a hundred buildings, exclusive of barns and two churches, all of which were left in ruins.—Several persons were injured, but none killed.

The same storm passed over the vicinity of Quincy, Ill., doing great damage, demolishing houses, barns, &c.

☞ On the 20th of Oct., Mr. John Morgan of Lunenburg, Vt., aged 75, started early in the morning for Northumberland, and in passing down a hill, his horse became frightened and commenced running. Mr. Morgan was thrown from the wagon and so severely injured, that he died before persons could arrive at the spot.

SONG.

Deprome quadrimum Sabina merum diota.
—*Horace.*

To the brim! to the brim! let the nectar o'erflow—
As we merrily fill up our glasses;
We care not for sorrow, we care not for woe,
And we laugh at old Time as he passes.
While each heart beats responsive to Pleasure's glad call,
And each eye sparkles bright as this sherry,
No thought of the morrow our spirits can pall:
So fill up, my boys, and be merry.

We drink not to Beauty, we drink not to Love,
For we own not their magical power;
Though their charms be as potent as spells from above,
We will laugh them to scorn in an hour.
For Beauty is fleeting, and Love will depart
As the dew-drop which shines on the roses;
To the fair goddess, Pleasure, then offer each heart,
And thus enjoy life till it closes.

Portsmouth, Nov. 7. VATHEK.

KANSAS.

Extract from a letter received in Boston, from Lawrence, K. T., Oct. 21, 1856.

The greatest sorrow here is, that more than one hundred of our young men are now in prison at Lecompton, and suffering untold sorrow, insult and neglect. One of the truest of them died of fever, day before yesterday. Mr. Bowles came here last spring from a slave State, an educated gentleman, who warmly espoused the free State cause, and united with its brave defenders. His long marches, exposure and fatigue brought on a fever soon after he was taken prisoner. The drunken physician at Lecompton was called for, but he was playing cards and would not come. In less than forty-eight hours, death, the despairing prisoner's friend, released him, and gave him freedom in a country where the weary are at rest.

Yesterday we buried him, a little out of Lawrence, where, about two years ago, I opened the prarie for Moses Pomeroy, one of our earliest settlers. I saw now that there were eighty-four graves there, including many who have been cruelly murdered. Oh! what a record it would be to write out a history of the martyrs of the nineteenth century, in this Christian America! I wish there could be one panoramic exhibition of such a painting.

There are men here, unknown to fame, whose sufferings entitle them to historic remembrance, and who, I fully believe, will have a record on high. Scores of men are sleeping uncoffined in their bloody shrouds, without a monument to mark the place of their resting. But if no more can be said of them, I suppose the prairie winds through these half-burned shrubs, will sigh a requiem to their memories. But there is a record against this administration, that would sink a navy.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT,
THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—BEWARE OF IMITATIONS. The Mustang is sold by all respectable dealers everywhere.

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed Instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative;andpoint toits exhibition of genius and skill, with those feelings of fenerous enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in sickness. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of obstinate sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGUIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 7, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs, and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent Agent in Baltimore, Dr. Buckmaster, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec. 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and efficient.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country in the habitable world without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, not suffer them until no human skill can reach the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a trail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are singer's. The speed of our machines has been doubled, and no other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

HUNTINGTON ON SUMNER. — At Charles Sumner's late reception, at Roxbury line, Prof. Huntington introduced him to Hon. Josiah Quincy, saying — "He comes, a cheerful and victorious sufferer, out of great conflicts, of humanity with oppression, of ideas with ignorance, of scholarship and refinement with barbarian vulgarity, of intellectual power with desperate and brutal violence, of conscience with sellish expediency, of right with wrong.—Boston does well in coming out to greet him. For that ample and lofty manhood, trained under her education, and consolidated in her climate, has added new dignity to her old renown.

The Boston Atlas says—"The personal appearance of Mr. Sumner, so haggard and careworn; the eye, once so beaming, now langnid; the healthful cheek, now pale and thin, and the dark lines around the brow, chilled the hearts of all who beheld him. The rising cheers died away, and enthusiasm gave place to silence. Strong, athletic men, unaccustomed to emotion, drew stifled breaths, and were not ashamed to let it be known that they, too, suffered with Mr. Sumner."

The Newburyport Herald says:

We were not favorable to the election of Charles Sumner in 1851, and have seen no time when we would have advocated his return to the Senate—although we always regarded him as one of the greatest and best men that America has produced—till Preston S. Brooks—foul spawn of infamy—laid blows upon his person. If now we were a member of the legislature, we would be unwilling to enter upon any business after the organization, till Charles Sumner was re-elected to the seat where he was assaulted; we should not care what his political opinions were; if we disagreed with them ten thousand times more than we ever did, still we would give him our earnest and hearty support.

REV. DR. SHELDON.—A correspondent writes to the Christian Era as follows:

"Let Dr. Sheldon alone. You can hardly have read his book or watched the course of the man, without feeling that he is not worthy of the notice now being bestowed upon him by the Baptist press. He has long been a Unitarian, and some curious facts will be brought out now, showing the inconsistency of a man who could hold to sentiments widely different from those of his denominational friends, and at the same time give to the world that he had not changed. How many things a man will do for his bread and butter!"

From this we should conclude the writer does not intend to let the Doctor alone, though he has advised the editor to do so.

On Tuesday last the venerable Stephen Frothingham of Newburyport, was at the polls and voted for Fremont. He has voted for every President that has been elected from the first choice of Washington. He now appears to be with the defeated party for the first time.

So says the Newburyport Herald;—but so many changes, and *such* changes, in one man, are almost incredible.

Mormonism appears to be in bad order in Jamaica. We learn from the Kingston Journal that about three years ago, a Mormon mission was sent to the Island from the United States, but met with so inhospitable a reception that the missionaries were hissed and hooted from the place. They left in six days after their arrival.

RAILROAD CASES.—A Board of Referees, consisting of Judge Gilchrist of the United States Court of Claims, Hon. A. S. Woods, late Chief Justice, and Hon. Ira A. Eastman, one of the Judges of the Supreme Court of New Hampshire, decided two cases at Concord on Thursday, wherein the Boston and Maine Railroad sought to recover of the Concord road and the Boston, Concord and Montreal Railroad, either or both, about $7000 damages, cost and interest, caused by an injury to one Erni Crockett, a boy five years of age, who came from Sanbornton, N. H., on a ticket to Lawrence and then passed on the Maine road as a passenger for Bradford, Mass., on which route he received the injury. The defence of the Concord road was that they sold no ticket in the case. That of the Boston, Concord and Montreal—1st there existed no contract of indemnity between the corporations; 2d, had there been a contract, the adult in the party had tickets to Lawrence only, and on passing that point became plaintiff's passenger; 3d, that the boy injured passed over the road without payment of fare—as a *dead head*—and each road was therefore responsible on its own iron. The referees decided in favor of defendants in both cases.—*Boston Journal.*

That is to say, the Boston & Maine Railroad will pay the bill.

A COLD BLOODED MURDER.—It will be recollected that a short time since the dead body of a young man by the name of Chace was found in Swanzey, under circumstances which led to the belief that he was murdered by a man who was last seen in his company by the name of Vanderhoof, living in Somerset. A day or two ago Vanderhoof was arrested, and when informed of what he was accused, he fainted. Subsequently he confessed the foul deed and implicated an accomplice by the name of Dexter, who has also made a confession. Both of them have been committed to Taunton jail. They say that the young man had thirty dollars in money, and they agreed to divide it by allowing the one who struck the fatal blow two dollars the most.—*New Bedford Standard.*

MONDAY, NOVEMBER 10, 1856.

BEN. AND THE APPLES.

Major Ben. Perley Poore, and his wheelbarrow load of apples, have been lionized in Boston, almost as much as the election itself. Mr. Poore trundled the barrow, with a barrel of apples thereon, all the way from his place in W. Newbury, Indian Hill, over the turnpike, to Boston, 36 1-4 miles. A feat of some consequence, as the Major weighed 197 pounds avoirdupoies, when he started, and 185 when he got through.

He was met in Charlestown by a large company of fellow Fillmore men, who marched forth in procesion to greet him.

Then came refreshments from his friends at the Fillmore Head Quarters, after which the crowd called for a speech, and the Major responded promptly, saying that his grandfather had travelled from Newbury to Bunker Hill in one day; and it would be singular that he himself should fail to wheel his barrow in fulfilment of an honorable wager, the same distance in three days.

At 2 o'clock the Boston Fusileers, Capt. Snow, accompanied by the Boston Cornet Band, and escorting a procession of several hundred persons, of all political parties, under the marshalship of J. E. Farwell, reached the square.

Under this escort, he trundled his barrow into Boston, where an immense crowd had gathered in State, Court and Tremont Sts., all impatiently waiting the man of pluck. He came at last, playing "Hail Columbia," and the Fusileers forcing their way through the vast throng. Hurrahs, shouts and cheers greeted him. Hats were swung, handkerchiefs waved, and loud and deafening applause rent the air. Ladies on the balconies smiled upon him. "All went merry as a marriage bell." The passage to the Tremont House, where the apples were to be delivered, was one of great difficulty; but it was accomplished at last, and there beneath its piazza, amid the shouts of the crowd, the barrow and its burthen were placed, wheeled every inch of thirty-six and a quarter miles by the gallant Major.

After a brief rest the barrel was placed in an upright position, and Major Poore mounted it to address Col. Burbank the winner. Burbank replied with wit and good humor, equal to Poore's.

At the conclusion of his remarks, Col. B. called for nine cheers for Major B. which were given with a will.

The Major being loudly called for, he again mounted the barrel and said:

Gentlemen—I am going to ask you for three cheers, the request for which may seem singular, but it comes right straight from my heart. When Anson Burlingame made his memorable speech in the House of Representatives at Washington, it was my fortune to offer him my arm and say to him, that if there was any fighting to be done between that hall and the hotel, I wanted to do it for him. [Cheers.] Gentlemen, I want three cheers for the Hon. Anson Burlingame. [The cheers were given in a rousing manner.] Now three cheers for Hon. R. I. Burbank, Senator from Suffolk County.

To this call the crowd promptly responded, and both gentlemen retired amid the deafening cheers of the multitude.

☞ Mr. Buchanan's Home Circle is thus described by a correspondent of the New York Herald. "Mr. Buchanan's family circle consists, for the present, of Mr. and Miss Lane (his nephew and niece,) Mrs. George Pitt, of Philadelphia, and Mr. Appleton, his late Secretary of Legation in London. Col. Ramsey is also on a visit to with him. Miss Lane, a beautiful and highly accomplished young lady, does the honors of the mansion, with the same grace and affability which gained her so much popularity at the head of her uncle's establishment in London."

BOLD BURGLARY AT MERRIMACK—TRUNK AND $500 STOLEN.—The Manchester Mirror states that on the night of the 5th inst. a burglar or burglars cut out two panes of glass, of the house of Adam Wallace, Merrimack, Mass., in the parlor, pushed in the spring, raised the window and got in; they took a trunk from the closet containing $500 in money, and some valuable papers and left. The trunk was carried off into the woods, about a quarter of a mile, the money taken and the papers left.

A FEMALE HORSE STEALER.—A woman named Ann Harris was last week charged before the Lanely (Eng.) magistrates with stealing a mare from a field where she was grazing. She was fully committed for trial.

DEATH OF AN EDITOR.—*New York*, Nov. 7.—Alexander Beebe, L. L. D., for thirty years editor of the Baptist Register, died at Utica last evening.

THE STATE OF NEW HAMPSHIRE.

A Proclamation by the Governor.

The season of the year has returned, crowned with its abundant glories, when it has been customary for the Executive of the State to appoint some day to be set apart from the ordinary and industrial concerns of life, to be seriously observed in rendering thanks to the SUPREME RULER OF THE UNIVERSE, for the renewed manifestations of his kindness to us all, and his superintending care and protection.

Therefore, in the discharge of a pleasing and customary duty, in full accordance with the general sentiment and wishes of the people, and for the purpose of all uniting in ascribing in a suitable manner suitable praise to our CREATOR AND BENEFACTOR, for the innumerable favors and blessings he has so bountifully bestowed upon and continued to his dependent creatures, I do hereby appoint THURSDAY THE TWENTY-SEVENTH DAY OF NOVEMBER NEXT, to be, with humble and grateful hearts, in our places of public worship and by our domestic fire-sides, sincerely devoted by the people of this State, to Praise and Thanksgiving to God.

Given under my hand this 31st day of October, 1856, and the Independence of the United States the eighty-first.

RALPH METCALF.

By His Excellency the Governor with advice of the Council.

LEWEL N. PATTEE,
Secretary of State.

MEXICAN NEWS.—The N.Y. Herald's correspondent at Monterey, Mexico, Oct. 5th, gives interesting particulars relative to the progress of the revolutionary movement which is being carried on by Gen. Vidaurri against President Comonfort. The struggle is fierce in its operation, and will be desolating in its effects on the country.

In order to reduce the army of Tamaulipas, Vidaurri was operating along the line of the Rio Bravo with 2000 men, whilst Col. Layna, his second in command, pressed on Victoria with a large force. The people had voluntarily supplied his commissariat depots on the mountain range. The citizens of Sierra Gorda had revolted against the executive. In the meantime President Comonfort had made preparations to suppress the rebellion by a strong military demonstration, and there was no doubt but either Vidaurri or himself would be driven from power before peace was restored.

An account was recently published of the Mexican war steamer Democrat being run away with by her crew, from Vera Cruz, not long since, and the departure of another war steamer in pursuit of the mutineers. It appears that the Democrat, after committing at least one piratical act, and while attempting another, was overhauled off Campeachy by the vessel sent in search of her, and at last accounts the vessels were engaged in deadly conflict. It is reported that the piratical craft, while at Coatzacolos, fired at and sunk the Mexican war steamer, formerly called the Ben Franklin.

AN AGED PAIR GONE.— Died, in St. Johnsbury, Vt., Oct. 20, Sally, wife of Rev. James Johnson, 77; 31st, Rev. Jas. Johnson, 77. He was a native of Lynnfield, Mass., where he was born July 12th, 1779. He graduated at Harvard University in 1808, at the age of 29, his whole early life having been a constant but ultimately successful struggle with adverse circumstances. He studied Theology at Cambridge, Mass., under the tuition of Rev. Dr. Ware, and in 1810 was licensed to preach.

"THE HOMEWARD PATH,"—by the author of the "Beginning and Growth of the Christian Life, or the Sunday School Teacher."

This little work, just published, is one which we wish could be placed in the hands of *every* young person of our acquaintance. It could not be read without profit, and we are sure that it will aid many who are seeking the Path of Life, in reaching the "Home of the Believer." The style is simple and chaste, and the subject guides the seeker from the far country to the Father's House. There is no cant, and no exclusiveness, but the whole is pervaded by an earnest, cheerful, Christian spirit. We trust it will meet with a wide circulation. Let every Sunday-school Teacher, at least, obtain a copy, and recommend it to his older pupils.

The work, clearly printed and neatly bound, is to be found at the book-stores of Messrs. J. H. Foster and J. F. Shores.

APPLES AND THE DEMAND.—The Maine Farmer reports that the apple crop of that State, in common with that of most other States, is very light, and good apples fetch a very high price. The market price in Maine is from $1 50 to $3 a barrel, as to the quality, and the prospect is that they will command a still higher price.

The New York Journal of Commerce says:—Western apples are selling higher than was ever before known at this season of the year. Sales were made yesterday at $4 per barrel. Long Island pippins continue to be put up in large quantities for exportation, at from $6 to $8 when rolled in papers and packed.

The orange and lemon crop in Florida, it is said, will be very good this season.

NEWS FROM THE ELECTION.

IOWA.—*Washington*, Nov. 7.—The Evening Star has a despatch from Senator Jones, dated Dubuque, 6th, saying that Iowa has gone for Buchanan. Politicians here doubt it.

INDIANA.—This State has undoubtedly gone for Buchanan, the returns showing a steady Democratic gain over the October vote.

LOUISIANA.—The result in this State still remains in doubt. Both the Americans and Democrats claim it, on the strength of large gains over their votes at the last election. We have no figures by which to compare these gains.

CINCINNATI, NOV 7.—The Indianapolis Journal, (Republican,) of yesterday, concedes Indiana to Buchanan, but gives no figures.

MICHIGAN.—*Detroit*, Nov. 7.—Thirty-three counties in this State give the Republicans 18,589 majority. Full returns will make it 20,000.

☞ A New York despatch of the 7th, gives the following items of election news:

LOUISIANA.—Partial returns from New Orleans show Democratic gains.

ILLINOIS.—The Democrats at Chicago on the morning of the 7th claimed the State for Buchanan, on the strength of their large majorities in the southern counties, but subsequent returns received since those reduce them 6000, giving the State to Fremont. The Republican State ticket is elected by about 12000 majority.

IOWA.—Returns from eight counties show a Republican gain since the August election. The State has gone for Fremont by probably 8000 or 9000 majority.

WISCONSIN.—This State will probably give Fremont 8000 or 9000 majority.

☞ The Boston Times of Saturday morning has a special dispatch from Philadelphia, Nov. 7, 10 o'clock, P. M., which says:

Illinois for Fremont, Indiana and Pennsylvania for James Buchanan, the President elect.

[The above despatch comes to us from a source entitled to the fullest credit. It may be implicitly relied upon.]

The Times estimates his majority in Pennsylvania at 30,000

MASSACHUSETTS.—The full report of the Presidential vote, is: Fremont 107,313, Buchanan 38,530, Fillmore 19,734.

Fremont's plurality, 68,843.

☞ The Presidential vote of Kittery, Maine, was, for Fillmore 2, Fremont 241, Buchanan 287.

NEW ENGLAND.—The Lowell Courier mentions that for the first time since the election of John Q. Adams to the Presidency, New England has thrown the entire electoral votes of her States for a single candidate for the Presidency.

REJOICINGS.—*Bangor*, Nov. 7.—The Democrats of this city fired two hundred guns to-day, in honor of the election of James Buchanan.

In the evening a congratulatory meeting was held at Norombega Hall, where addresses were made by B. A. G. Fuller, Esq., of Augusta; Hon. Albert G. DeWitt, Hon. Wyman B. S. Moore, and others.

GREAT FALLS, NOV. 7.—The citizens of this place are out to receive J. A. Burleigh, Esq., who has returned by the Canada.

The Committee, in arranging the programme for their third Course of Lectures, have determined to invite only lecturers of decided merit; and, believing that in a course of popular lectures instruction should be blended with amusement, they have decided to introduce a NEW FEATURE, by connecting with the usual series upon miscellaneous topics a short SCIENTIFIC COURSE; and have therefore secured the services of Messrs. Whittaker and Sprague, whose lectures are appropriately illustrated, and of the most entertaining character. It is believed that the course of lectures before this Association the coming season, will surpass in point of interest and variety, as it certainly will in regard to the expense incurred, any ever before given in this city.

MERCANTILE LECTURES.

The third course of lectures before the Portsmouth Mercantile Library Association, will commence on Thursday evening next, Nov. 13. The committee advertise sixteen lectures, besides the Poem of Mr. Shillaber—making in all, seventeen speakers, who will appear during the course.—Last season only ten lectures were given before the Society; this being the usual number in Boston and throughout the country. The Boston Mercantile, we observe, have announced this year, a course of ten lectures, and nearly all the lecturers are also to appear before our M. L. A. In Boston, the price of tickets is fixed at $2: with us, $1 pays for a ticket which entitles the bearer to admission to the course of sixteen.

The prospects are, that this Association will furnish an excellent course of lectures the coming season. In the first place, we have on the opening night, Hon. George Lunt, of Boston, an accomplished scholar and eloquent orator, who could not deliver other than an excellent lecture, were he to make the attempt. Then follows our friend Benj. P. Shillaber, in his new Poem—"The Street"—which, the Boston Transcript says, surpasses every previous effort of the genial poet. So much for the excellent entertainment, promised for the opening night.

Then we have announced, two illustrated lectures upon scientific subjects, by Prof. Whitaker of Philadelphia; and any one who has once listened to the lectures of this gentleman, will not, we imagine, be easily prevented from attending this portion of the Mercantile course. Prof. Whittaker is an educated English gentleman, possessing an intimate knowledge of the subjects upon which he speaks, and a graceful power of oratory and ready flow of language, rarely, if ever, surpassed in our public speakers. He is a most eloquent and effective orator, and sways his auditory as very few men have the power to do.

A. W. Sprague, Esq., is a Western gentleman, who delivers popular lectures upon Geology, Electricity, Chemistry, and of whose ability report speaks in high terms. The illustrated lecture upon "The Marvels of Electricity," must prove valuable and entertaining.

Passing from the gentlemen above mentioned, we have, as lecturers upon miscellaneous subjects, Rev. Dr. E. S. Gannett of Boston, an excellent thinker and writer, and whose lecture before the Association two years ago, was universally admired; Bishop Clark of Providence, R. I., a gentleman of very high reputation for ability and attainments; Edward G. Parker, Esq., of Boston, an eloquent speaker and popular lecturer; Wm. Gilmore Simms, the popular novelist: John Neal, Esq., of Portland, the scholar and the poet; Rev. Dr. Orville Dewey, who stands scarcely second to any person in this country as essayist and lecturer; Dr. R. Solger, of Boston, whose lectures in this city for the past two years, have proved highly popular; Rev. Dr. Francis Vinton of New York, a ripe scholar and popular lecturer, and who will introduce the lecture so highly commended by the press, on the subject of "The Gentleman"; Josiah Quincy, jr., of Boston, always popular in Portsmouth;—Isaac F. Sheppard, Esq., of Boston, who delivered the admirable discourse at the Masonic Festival in this city, some two years ago; Rev. J. C. Bodwell of Framingham, whose lectures upon English life, have proved so entertaining and agreeable; and finally, Rev. Horatio Stebbins of Portland, one of the most popular lecturers at present in the field.

The Committee are also in correspondence with Hon. Thomas H. Benton, who is to lecture in Boston and Newburyport this season, with a view to secure his services; and are encouraged to believe that he will appear in Portsmouth, while on his visit to this section. Lieut. Maury of Washington, D. C., has also been invited to repeat before our Association the lecture which he has engaged to deliver in Boston the present season.

With this array of talent, and this blending of scientific and miscellaneous lectures, practical information and amusement, utility and beauty—the Temple will doubtless be filled with season ticket holders; and it will be well for those who design attending this course to secure their tickets at once. S.

☞ Rev. Dr. Burroughs's Address at the Dedication of the new High School House, is just issued from Mr. Fuller's press, and for sale by Mr. J. F. Shores, jr. This admirable address should find numerous purchasers,—and be preserved in many families.

POLICE COURT.

PORTSMOUTH, Nov 7.

Before Justice Bennett — James Davis, *alias* James Davison, for assault on Mary Farin, was fined $5, and costs 6.64. Respondent appealed, and gave bonds.

The said James, for assault on Elisha Parks, was fined $2, and costs 6.64. Appealed and gave bonds.

James Lever was charged with selling two glasses of spirituous liquor:—waived examination, and was bound over to the S. J. Court.

The two former cases were drunken assaults—growing out of the sale of liquor by Lever—and the principal facts in Lever's case, came out in trying the cases of assault.

PORTSMOUTH BRASS BAND.

We understand that a number of our enterprising young men had a meeting last week, to take into consideration the feasibility of forming a first class Brass Band in this city; and it was agreed to do so, provided a sufficient sum can be obtained from our citizens, to purchase a set of Instruments. The plan proposed is, to employ the best maker in the Country to make a complete set of Instruments, which are always to remain the property of the *Band*; and not, as has formerly been the case, each member own his own piece. This arrangement gives the organization a sure footing, and permanency which will ensure success. It is their intention, if the plan succeeds, to apply to the Legislature for a Charter; and thus make it a responsible and permanent organization. The citizens of Dover have lately contributed $800, to purchase a set of new instruments for their Band; and we think our citizens can be depended on for like liberality. And from what we know of the character and musical ability of the gentlemen who have started in this matter, we have no doubt but that we shall have one of the best Bands in New England. We trust our citizens will show a commendable liberality in this matter, if they are called on. The members of the Band must have at starting a great many expenses to meet—such as employing competent teachers, hiring a hall, buying music; to say nothing of their being obliged to devote the greater part of their evenings to practice—and they need all the assistance and encouragement an appreciative and generous community can bestow. C.

LAUNCH.—The splendid ship Annie Sise, of about 1050 tons, will be launched from the yard of George Raynes & Son, on Wednesday next, at 10 1-2 o'clock, A. M. She is built entirely of white oak, heavily copper and iron-fastened; 180 feet long on deck, 36.10 beam, 23.6 deep. She is intended for the general freighting business; is owned by Isaac Bell, Jr., Lemoyne & Bell, and John D. Simes, New-York; E. F. Sise, John Davis and John Chase, Portsmouth; and will be commanded by Capt. Charles F. Sise.

Messrs. Raynes & Son have now on the stocks another ship of the same size and dimensions of the above, which last is for sale.

GIVE THANKS.—It will be seen, by Gov. Metcalf's proclamation, which we publish in another column this morning, that at last—after various false announcements, we know we are to have a Thanksgiving Day in New Hampshire, on the 27th of November.—Besides the other numerous blessings we enjoy, to be thankful for—some people have reason to rejoice over the result of the late election—and some have not, they think.

FATAL ACCIDENT.—Deacon Bouton, an old and respected resident of Norwalk, was killed while engaged in plastering the wall of the South Norwalk Congregational Church on Friday, the 31st ult. The scaffolding gave way, and he fell to the ground and broke his neck.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT, THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—BEWARE OF IMITATIONS. The Mustang is sold by all respectable dealers everywhere.

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINE'EEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doett, Hodges, Wm. We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality The styles and prices are—

BALLOONS.

Strange times we live in! a progressive age
In every side our notice doth engage!
Late we saw along the summer sky,
The huge balloon go sailing slowly by;
A novel sight; but now so common grown,
The novelty is lost, as all must own.
Fashion has brought down patterns from the skies
And every lady copies Mr. Wise;
One scarce can walk, but he'll be sure to meet
Some huge balloon come sailing down the street.
—[Courier.

A fellow went to Burnham's Hotel, Montague, Mass., last week, and after running up a bill of several dollars threatened to prosecute the landlord for selling liquor if he exacted payment. Mons. Garçon therefore footed the bill himself, and the last that was seen of the vagabond brought him into near relation with the Vermont State line.

There is no doubt the numbers of drowned men found floating in the river at St. Louis a short time ago, were drugged, robbed, and thrown overboard by a Spaniard who kept a boarding house on the levee for boatmen. The bodies found were generally those of deck hands on steamers. One night this hound was seen to carry out a man in a state of stupor, and throw him into the river, but the attempt to arrest him failed, and he has not been seen since; nor have drowned bodies been brought up for inquest. The grand inquest on that Spaniard, with twenty to fifty murdered deckhands as witnesses—who dare paint it?—*Boston Post.*

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a trifling and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The strength in family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I M Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis. I M SINGER & CO.

THE DEVIL—HIS NON-UBIQUITY.

The Christian Era, a Baptist paper published in Boston & Lowell, contains a communication headed as above, "The Devil—his non-ubiquity. The writer, who is himself a Baptist, says:

"I lately heard an excellent essay, as a whole worthy a place in the Christian Review, upon the "Sources of Temptation."

Allow me a word upon one point in the aforesaid essay. Speaking of the restrictions to which the Devil is subject, the essayist said, 'he is not omnipresent.' Every mind would very readily assent to this iew; but when it was immediately added, 'he is not able to be in two places at one time,' and soon after, 'he can not operate upon two different minds at the same moment,' I was led to ask, Is this really so? It may be; I make no denial; I only say that I never before heard the matter so stated.

A few days after listening to the essay in question, I fell in company with a clergyman of another denomination—a man of extensive learning, and generally of very scriptural views. To him I put the question, without introduction, 'is the Devil omnipresent?' He said, 'No.' 'Well, then,' said I, 'can he affect two minds at the same time?' 'O, yes,' he replied, 'a great number of minds.' 'But how?' I continued. 'By his agencies,' was the answer.

Now, perhaps the views of these two theologists were clear enough to themselves, and perfectly harmonious with each other. At any rate, it will be apparent to all that the statements of the latter seem as if intended to relieve the statements of the former from difficulty.

To my mind this matter does not stand in an intelligible light. If Satan cannot operate upon two minds at the same moment, it would take him some thirty-seven years, at the rate of one visit per second, to visit each inhabitant of our globe; whilst, if by 'agencies' he can visit more than one at a time, he may, for aught I can see, be, to all practical purposes, *omnipresent;* if, indeed, it does not involve an absurdity to talk of his being present by agency or proxy. How is this?"

EARTHQUAKE AT MALTA.—The visitation took place on the 4th of October. The shock lasted about three minutes. It was like the rattle of a carriage over a drawbridge. The shocks could be heard approaching and passing like a rush of water or gas under the island; it was sufficient to ring bells and to gingle glasses on a table. The inhabitants rushed out of their houses into the streets and open spaces. It was a calm, bright, moonlight night, pleasantly warm. The bells of the Roman Catholic churches rang loudly, calling to prayers, and the sacred buildings rapidly became crowded. The damage done is trifling; the people were more frightened than hurt. A signal tower at Gozo was damaged, and the cross on the steeple of the Queen Dowager's Protestant church is shaken. A small stone from the top of Ponsonby's Pillar fell, and many churches and old houses were so shaken as to cause cracks in their sides. The vessels in port also felt the shocks. The earthquake was felt at Syra.

Compare the speech of Charles Sumner at his reception in Boston, with that made by Preston S. Brooks to his constituents.—Mark in the one the accomplished scholar, the liberal, high-minded statesman, the generous patriot, the Christian gentleman. Mark the coarse brutality of the other, the egotism, the insolence, the contempt of authority, of law and order, and the open demand for the dissolution of the Union.—*Providence Journal.*

A GENTLEMAN SCALDED TO DEATH BY SLAVES.—It was mentioned a few days ago that Lewis B. Norwood, Esq., an influcnential and widely known merchant of Granville Co., N. C., had come to his death on the night of Tuesday, 21st ult., in a sudden and mysterious manner. The Petersburgh Express has the following additional particulars:

"About his usual hour of retiring, 9 o'clock, his overseer left him in his chamber. He was then in his usual health and condition both of mind and body. Some two hours after his negroes reported to the neighbors that he had fallen into the fire and been burned to death. The neighbors immediately assembled and found him a corpse. Burns upon different parts of his person were discovered, but his hair was not singed even, and his clothing was without a scorch. Under these circumstances it was supposed that the burns must have been scalds from hot water. His two little girls were asleep at the time in the chamber, but of course could tell nothing of the sudden and mysterious manner in which they had been deprived of their protector.

An examination being instituted, suspicion rested upon his negroes, and it is now ascertained that he was foully murdered by two of his slaves. From such facts as friends have been enabled to gather, it seems that a negro belonging to him had for some time absented himself. Mr. Norwood suspected that two of his negroes were harboring the runaway, and to prevent a continuance of the practice had for several nights previous to his murder locked up the two suspected, in an outhouse on his premises. On the fatal night, however, he was stunned by a blow, and a large pot of boiling water, which had been prepared for the purpose, was poured through a tunnel down his throat, until life became extinct. He was then conveyed to his chamber, and the neighbors apprized of his death, as we have stated above. We understand that two of his negroes have been arrested and are now in jail."

THE ELECTIONS.

There is some impatience to learn the returns from all the states immediately, but readers must wait a reasonable time. Election returns from such states as Illinois Tennessee and Louisiana are not received in a week, and in many of their counties a much longer time is required to get at the "back towns," and if the contest is in any wise close the official count may be required to define the state of the case.

TENNESSEE.—A despatch from Richmond of Saturday says: "Returns received this morning at Wytheville state that the Eastern counties of Tennessee show large American majorities, indicating a doubt as to the result of that state. Another despatch says that they indicate the success of the Fillmore ticket."

A despatch from Washington of Sunday says:

Nothing of a decisive nature has yet been received from Tennessee. A message last night gave the result in two counties, showing a Democratic gain of 400. The best judges here affirm that the State has gone for Buchanan.

PENNSYLVANIA.—*Philadelphia, Nov. 8.*—Buchanan's plurality thus far, as near as can be ascertained, is 31,000. His majority will be 6000 or 8000.

GEORGIA, ALABAMA AND FLORIDA. — A despatch from Augusta, Ga., says—"The Democratic majority in Georgia will reach seventeen thousand, in Alabama twenty thousand, and in Florida one thousand."

CABINET MAKING—EXTRA.—A Washington correspondent of the New York Times writes that the high places in the new Cabinet are probably destined for John Slidell, Mr. Toucey of Connecticut, Rusk of Texas, and Cobb of Georgia.

The New York Herald's correspondent gives the following:

Secretary of State — Isaac Toucey, of Connecticut.

Secretary of the Navy—John Slidell, of Louisiana.

Secretary of War—H. A. Wise, of Virginia, or H. Ward, of South Carolina.

Secretary of the Interior — Jesse D. Bright, of Indiana, or Charles Stewart, of Michigan.

Attorney General—James C. Vandyke, of Pennsylvania.

Postmaster General—John R. Thompson of New Jersey.

Very likely some of these men may be in the Cabinet: but we never knew any Cabinet yet, to be correctly described before hand by the newspapers of the opposition parties, or indeed in any papers.

There can be no doubt the Cabinet will be so arranged as to personate the strengthening and extension of the slave power:—but beyond that, one man's guess is just as good as another, outside the circle of Mr. Buchanan's confidential friends and advisers. These Cabinet guesses are not worth a straw.

FREE SPEECH.—The editor of the (independent) Manchester Mirror — who we think evidently sides with the Democratic party—says, in a complimentary notice of the "Life of Charles Sumner," that "the caning of Charles Sumner by Preston S. Brooks, was the greatest outrage on free speech ever committed in this country; and has done more to swell the vote for Fremont than any other thing." All which is true, no doubt—and more. Every man, south and north, who voted for Buchanan, so far endorsed the murderous assault of Brooks; many of them and of their papers justify the outrage, if questioned upon the subject, and many more apologize for it. Well: there is much allowance to be made for difference in opinion; but any man who will attempt to palliate Brooks's cowardly and murderous assault, strikes a harder blow at the Union than Garrison can ever wield—and proves himself void of any appreciation of the rights of a freeman.

☞ As Mrs. R. H. Vose and her son were riding near Augusta, Me., their horse took fright near a steamboat wharf in Farmingdale, and ran off. The shafts were at once broken, and nothing but one trace remained to connect the horse with the buggy. After the horse had run some distance, Mr. Vose was thrown from the buggy and very considerably injured, one wheel passing over his head, and bruising him very badly. Mrs. Vose, to prevent probably a worse calamity, jumped from the buggy after her son had been thrown out, the horse still being at full speed.—She was very much injured, one wrist being broken, besides receiving numerous bruises and cuts, caused by the wheels passing over her.

☞ At Gloucester Farms, Mass., last week, a man engaged in killing a hog, had his leg fractured by the falling of the porker in his death struggles.

MR. GEORGE PEABODY.—Among the libels circulated during the campaign, was one originating in a Lawrence, Mass., paper, stating in substance that Mr. Peabody did not consider a man whom he had bailed out of the Fleet prison to be a fit man to be President of the United States. The reference was to the well known fact that Col. Fremont was arrested in London for debts contracted in California, in behalf of the United States government, for supplies furnished to the troops—debts which were afterwards paid by congress. It will be seen by the following extract from a private letter from Mr. Peabody to his sister, received Monday evening, that the remark attributed to him was a base fabrication:

"I have to-day seen a piece in a paper here, extracted from a Lawrence paper, which made me speak disrespectfully of Colonel Fremont. That part is entirely unfounded. His whole course towards me has been honorable and correct, and I never said a word to the contrary, or anything reflecting on his conduct. You can show this to his friends in Georgetown and Danvers."

FROM THE BAY OF FUNDY.—From a letter received in Gloucester last week, dated Oct. 28th, the Telegraph gathers some further particulars in regard to the gale and damage recently reported at the Bay. The gale took place on the 25th and 26th of October, and was very severe. There were about forty sail of vessels lying at Margaree Island when the gale commenced, and most of them parted or slipped their cables and run for Port Hood. The Evangeline was one of the number, and after lying at Port Hood an hour struck adrift and went ashore on the S. W. bar, where her rudder was knocked off, and the sea made a complete breach over her. Her masts were then cut away, and she laid more easy till the morning of the 27th, when the cable was cut and she drifted on the rocks. Here a rope was lowered by the people on shore, over the cliff of rocks, 100 feet in height, and the crew were pulled up and all saved. The Evangeline is a total wreck.

There are six vessels ashore on the bar at Port Hood, which are hurt very badly.

SUDDEN DEATH.—George W. Briggs, a well known Bookseller, died suddenly at his place of business, Saturday evening, No. 365 Washington street, Boston, of internal hemorrhage, producing suffocation. He had been an invalid for sometime and was incapacitated from active labor. He was 42 years old, and leaves a wife and three children. He was an exemplary man, says the Bee, in all the business and social relations of life, and by his integrity won the respect of all who had intercourse with him, as by his kindness he won the love of all who knew him. He was a true friend, and his family will receive the sympathy of those who felt his worth.

Letters at the South addressed to John C. Fremont within the last four months have been repeatedly intercepted and broken open. One postmaster in Virginia even went so far as to refuse *point blank* to mail a letter addressed by a Virginian lady to Mrs. Fremont, who was her relative—the postmaster declaring that no letter with that address upon it should be mailed at his office. And he kept his word—*N. Y. Journal and Enquirer.*

PETER PARLEY.—The original and veritable Peter Parley has prepared for publication, a work entitled "Recollections of a Lifetime; or Men and Things I have seen in Europe and America." Peter Parley is the author and editor of 170 volumes, of which over *seven millions* have been sold! He has crossed the Atlantic sixteen times, and made, perhaps, the acquaintance of more persons of prominence, and become familiar with more important facts and incidents, both at home and abroad, than any other American. These recollections will contain a full autobiography of the author, his early days, education and literary career; and accounts of the important public events which have happened within the last half century; besides an amount of curious and personal anecdote and description, seldom, if ever, met with in a single work. It will be published by Miller, Orton & Mulligan, Auburn, N. Y., in two volumes of over 1100 pages, appropriately illustrated. See advertisement.

ON DIT.—That our bachelor President elect is about to lead to the altar Mrs. James K. Polk, of Tennessee. A more sensible thing wasn't said of him during the whole canvass.

Senator Douglas it is reported, will this month lead to the altar the beautiful Miss Cutts, the reigning belle of Washington.

☞ It is reported that Hon. John Appleton of the Portland Argus, is to be editor of the official organ at Washington under Mr. Buchanan's administration. There is no place more lucrative under the government, than Public Printer.

TWO MEN DROWNED.—On Monday evening, last week, about 7 o'clock, George Jacobs of Charlestown, H. Moran of Chelsea, and two other men named John McGee and Mr. Short, went out from Chelsea Beach, for an evening's sport at hake fishing; and the boat upsetting, Short and Moran were drowned. The party started in a small boat, and after rowing out about two miles, Jacobs attempted to put up the sail, but losing his balance, together with the sail he fell overboard. The accident gave the boat a sudden movement by the others changing position, and the boat capsized at the same moment.

Jacobs and McGee alone were swimmers, and they immediately put the other two men in a position to hold on to the boat. In a short time the sea turned the boat over again, and threw them all off, but with the assistance of the swimmers they all got hold again. At this time a consultation was held, and McGee being confident of being able, it was agreed that he should strike out for the shore for relief, leaving the others to remain by the boat. Before starting, McGee tried to get off his coat and boots, but failing to succeed, he struck off with all his clothes on, shouting as he swam. Finally his voice died away, fainter and fainter, till those on the boat supposed he had become exhausted and sunk. Twice after this the boat turned over, and Jacobs alone assisted his companions, who were fast becoming exhausted, to a new hold upon the boat, and at the same time endeavored to cheer them with the hopes of aid from the shore. Again the boat turned, and this time Moran and Short were exhausted, and as they were thrown off, they sunk and left Jacobs alone.

It was now fairly dark, and all objects were lost to view, but Jacobs having been an hour in the water, he had become so cold and cramped that he had lost the entire use of his lower limbs, and felt himself fast failing. When the boat first overturned the anchor went to the bottom, and kept the boat in the same position. Hoping that she would drift to land, Jacobs now cut off the painter, and with the removing portion made himself fast to the boat, preparing for the worst. At this junction he heard voices shouting, but was almost unable to answer them. Shortly after the boat appeared nearer, and he was enabled to make himself heard, when he was at once rescued from his perilous position. The boat that rescued him came off from a house, the inmates of which had witnessed the accident. McGee succeeded in reaching the shore in an exhausted state, having done the great feat of swimming more than two miles in cold water, with all his usual heavy clothing on.

☞ Col. Benton will spend Thanksgiving in Massachusetts. He delivers his lecture in Newburyport the evening before the anniversary.

☞ The Worcester Spy places the names of Fremont and Dayton at the head of its columns, as candidates for the next Presidential canvass.

WOOD'S HAIR RESTORATIVE.

☞ We advise those of our friends in a state of single blessedness, who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—[Ohio Statesman.

THE GREAT DISCOVERY. Just or Many years ago, Doctor Burleigh Smart Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "Doctor Burleigh Smart's Cough Medicine," and is for sale by all apothecaries. au27 TuT&hS 6m.

The Committee, in arranging the programme for their third Course of Lectures, have determined to invite only lecturers of decided merit; and, believing that in a course of popular lectures instruction should be blended with amusement, they have decided to introduce a NEW FEATURE, by connecting with the usual series upon miscellaneous topics, a short SCIENTIFIC COURSE; and have therefore secured the services of Messrs. It is believed that the course of lectures before this Association the coming season, will surpass in point of interest and variety as it certainly will in regard to the expense incurred, any ever before given in this city.

ARCHITECTURE.

Messrs Editors.—In the renowned and veracious history of Martin Chuzzlewit, there is introduced a character eminent for Architectural designs and embelishments, Pecksniff by name; and when anything peculiar in design or unusually elaborate in finish, is apparent in the productions of modern art, it has become more or less customary to denominate such exhibitions of skill as Pecksniffian. As you, Messrs Editors, are supposed to be well informed on all subjects, I am induced to enquire of you whether some styles of ornamental work which has been latterly introduced on some of the modern buildings about this good city, are the productions of any pupil of the Pecksniffian school, or emanate from the prolific brain of our own artizans?

This enquiry is the more pertinent at this time, when, if the Government building about to be erected in this place, should take the place of our Market, (which by the way is *not* Pecksniffian in any sense of the term) it might become necessary, as has been intimated from several quarters, that we should erect a new City Hall, of ample dimensions, where our ambitious orators may display their powers, and affording somewhat more palatial accommodations for our city fathers and servants, than the present city rooms, which are only remarkable for their convenience, central position and economy!

In case of the erection of such a building by our city authorities, we should need all the skill we can command, whether foreign or domestic, and therefore the question I have asked, is to me at least, very interesting.

A LOVER OF MECHANIC ART.

FROM EUROPE—4 DAYS LATER.

NEW YORK, Nov. 10th.—The Collins steamship Baltic, from Liverpool morning of 29th ult., arrived at this port this morning.

The feature of the news which has attracted most attention, is an official paragraph in the Moniteur, complaining that the English press publishes calumnies against the French government, and holding out a menace that a continuance of such conduct will break up the Anglo-French alliance.

[Uncle Toby suggests that the Emperor Napoleon should send over some bully Brooks or Mr. Rust, to knock the editor of the London Times on the head—and then, if anybody grumbles, dissolve the Union, *alias* alliance.]

No news from Spain, except a contemplated increase of the army.

Letters from France are unsatisfactory.—The demand for money continues unabated.

DISASTROUS FIRE IN NEW YORK.—*New York, Nov. 10th.*—A disastrous fire occurred early Sunday morning in Warren street, destroying totally four large warehouses, together with their extensive stock of merchandise.

NEW YORK, Nov. 8.—T. A. Thomas, Assistant Secretary of State, has written a letter to the Clerk of the Supreme Court of this city, in reply to an application for foreign passports for a troupe of negro minstrels who are about to start on a foreign professional tour, After reciting several judicial decisions bearing on the matter, says: "Such being the Constitution in regard to free persons of color, it is conceived that they cannot be guarded when beyond the jurisdiction of this government, as entitled to the full rights of citizens; but the Secretary directs me to say that, though the Department could not certify that such persons are citizens of the United States, yet if satisfied of the truth of the facts, it would give a certificate that they were born in the United States and free, and that the government, therefore, would regard it to be its duty to protect them if wronged by a foreign government while within its jurisdiction, for a legal and proper purpose."

FATAL ACCIDENT IN EAST BOSTON.—On Thursday, as a wagon belonging to Critchet & Meader was being loaded with furniture at a house in Monmouth street, East Boston, the horse started while the men were in the house, and while running struck another wagon driven by a boy named Samuel E. Cann, 12 years of age. Cann was thrown from his seat, run over, and so injured that he died about 10 o'clock, P. M.

VINEGAR FACTORY BURNT.—The vinegar factory of L. Brown, in Twenty-fifth St., New York, was entirely destroyed by fire on Friday. The fire was caused by the explosion of a steam boiler, which also seriously scalded Mr. Gilchrist, the engineer. Loss $30,000—insured $12,000.

THE FIREMAN DEAD.—LeRoy Barry, the fireman so badly scalded and hurt by the explosion of the locomotive 'Gov. Weare,' at Lawrence, a few days ago, died Friday morning from the effects of his injuries.—His remains were carried to Manchester that evening, where he resided.

Mr. Judkins, the engineer, is somewhat better.

SYRACUSE, N. Y., Nov. 8.—*Terrible Conflagration. One Million Dollars' worth of Property Destroyed. Twelve Acres Burnt Over.*—At 3 o'clock this morning, the largest fire that has ever visited our city broke out in the 1st ward, and in the short space of three hours over twelve acres were burnt over, and about one hundred buildings consumed.

The fire originated in the back of a hotel which had not been occupied for two or three years. It immediately communicated with Grant's Hotel, occupied by Barney Grant, which was consumed, and the store of Mr. McGuire, the splendid buildings of Messrs. Shatterly & Ford, occupied by the Lynch Bros., who had just got in a new stock, and the Avery block, were entirely destroyed with but partial insurance. The Bank of Salina, the post office and the telegraph office were destroyed, but all the valuable papers in each were saved.

The water in the Reservoir was turned off, and the hydrants were consequently useless. A strong west wind was blowing at the time, and the citizens were compelled to stand and see their property consumed. The entire loss cannot fall short of a million of dollars. Over one hundred families have been rendered homeless. It was the work of an incendiary.

OSWEGO, N. Y., Nov. 8.—*Gale at Oswego.*—The wind which has been blowing fiercely most of the day in the South, has now changed to the North-west, and a perfect gale is now blowing.

It is reported that forty-three men, mostly farmers, were on board the schooner J. G. Deshler, ashore nine miles above the city, taking off wheat, when the gale came on, and they cannot now get off, as the sea is making a clean break over the vessel. It is feared they will all be lost. A steam tug has been sent down for a life boat.

PRAYING.—The Washington Union, speaking of a prayer-meeting held in Brooklyn on the morning of election day, says that the result is a good illustration of the scriptural truth that *the prayers of the wicked avail nothing*. It takes the prayers of such men as Senator Douglas, Forney and Capt. Rynders to *tell* on election day.—*N. Y. Times.*

WASHINGTON, Nov. 8.—*Lieut. Spence Safe.* Letters have been received at Annapolis from Lieut. Spence, commanding the troops supposed to have been slaughtered by the Indians while on the march to Fort Pierre. They had arrived safely.

BINGHAMPTON, N. Y., Nov. 8.—*Dreadful Calamity.*—The dwelling of Mr. Perkins, near Kirkwood, was burned last night. Mr. Perkins, his wife and father, and seven children perished in the flames.

DEAR APPLES.—It is said that *that* barrel of apples will cost Col. Burbank nearly $1000. Probably the Colonel has determined by this time that they are *Golden Pippins.*—*Boston Bee.*

UNSAFE.—Huntington Hall, Lowell, has been pronounced unsafe by a Committee of the Board of Aldermen, and measures are to be taken to strengthen it.

FATAL CASUALTIES.—We learn from the Worcester Transcript that Mrs. Lorenzo Cheney, of South Gardner, met with a horrible death from burns, on Tuesday evening last, in consequence of the explosion of a camphene lamp, which set fire to her clothes. She lived but six hours after the accident.

Elizabeth Echlert, a girl of five years of age, met her death in Clinton on Thursday, in a similar manner, in consequence of setting fire to her clothing the evening previous, while playing with some matches, and getting severely burned.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT,
THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—BEWARE OF IMITATIONS. The Mustang is sold by all respectable dealers everywhere.

Prince & Co.'s
Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resily. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60

The Costa Ricans talk as if they would prosecute the war against fillibuster Walker with great energy, but these Central Americans are "all talk and no cider." The bishop of San Jose offered all his property to the Costa Rican government for the prosecution of the war. Many deserters from Walker's army were daily arriving in Costa Rica. Walker is a great bugbear to Mexico. An intimation in a Mexican paper recently that after he had subdued Nicaragua he might begin upon Mexico produced great sensation and no little terror at the capital of that shaky republic.

A LONG BODIED HORSE.—A son of Erin applied at a livery stable for a horse to ride in a Buchanan procession. The owner told him that he had a horse, but no saddle, the saddles having all been engaged.—"And it is no matter for a saddle intirely," was the answer, "but give me a *long bodied horse*, for sure two of my friends want to ride behind me."—*Lowell Courier.*

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEERLE, *Clerk of Steamer Clarion.*

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. F. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hinshaw, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your accredited agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills of Rheumatic Gout,—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steales upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, or neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and we say they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufactures often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis.

"WHAT I LIKE."

"What do I like?"—O, I like to roam
Through the beautiful haunts of my wildwood home—
To chase the butterfly over the lea,
And follow the track of the wandering bee—
To lie on the dewy and flower gemmed turf,
And hear the dull roar of the distant surf,
And the voice of the winds as they swiftly pass,
Bending the blossoms, and rustling the grass.
I love to clamber the rough, stern hills,
To bathe my brow in the laughing rills—
To seek out Summer's fairest bowers,
And choose from her treasures the sweetest flowers;—
To sing with the wild birds—to roam with the deer
Where proud forest-trees their green coronals rear—
With the turf for my shrine—my altar a stone—
To worship the Author of Nature—alone.

"What do I like?"—O, I like at night,
When the stars gleam out in their living light,
And silence descends on the haunts of men,
And the bird-notes are hushed in the mountain-glen,—
Then I love to gaze with dreamy eyes,
Up to the blue and shadowy skies,
And, singling out one shining star
From among the many which gleam afar,—
To fondly think it the dwelling blest
Of the happy one who has "gone to her rest."
I love to think that her spirit there
Looks down with love on this world of care,
And blesses the lonely, sorrowful one
Who cannot YET follow where SHE has gone.
Thus I sit and dream till the moon appears,
And silvers my fast-flowing tears.

Then while the stars grow brighter yet,
And the flowers droop with the night dews wet,
I love to bid "good night" to the world
O'er which the dark wings of night are unfurled;
And, breathing forth on the solemn air
My evening praises—my evening prayer,—
To "lay me down" in peace, and sleep,
While hovering angels their vigils keep,
Bringing me dreams of their beautiful land,
Where they dwell in bliss—a glorified band—
Brought safe to the radiant "upper shore,"
They are free from sorrow forevermore!

There's a nook in the graveyard, fair and lone,
Where a willow droops o'er a marble stone—
Where nought is heard save the birds' sweet song,
And the wail of the breeze as it sweeps along,—
Where flowers spring up in their radiant bloom,
Smiling, like stars, in the shade of the tomb—
While the waves of a brook, in accents clear,
Murmur a soft, sad miserere.—
Oh! I love to kneel on that grave, in prayer
To the pitying God that's watching there—
For He who hears when the ravens cry,
Will listen with love to the orphan's sigh,
And he blesses the weeping, motherless child,
Kneeling alone in the graveyard wild—
And a softened peace steals over my breast,
And my passionate sorrows are hushed to rest.

O! I like to love! 'Tis a blessed thing,
That deep in the heart there's a living spring
Of holy affections that gently flow,
Forth to all beings here below,
And cheer the dark road through this valley of grief,
And bring to the wounded and weary—relief.

O! I like when the Sabbath in glory breaks,
And Nature to praises and prayer awakes,
When a hallowed calm o'er all things broods—
Over busy cities and ringing woods—
When the flowers and leaves are so still in the dells,
That they stir at the peal of the distant bells—
Then I love to come, in the spirit of prayer,
To God's earthly temple, and worship there—
To feel all sorrows and shadows flee,
While my Saviour, in love, draweth near unto me,
To lose all thought of worldly things,
Borne upward to heaven, on faith's pure wings,
And looking beyond earth's sin and strife,
Thank God for the gift of eternal life.

There's much to like on this beautiful earth,
Though scenes of anguish must blend with its mirth,—
Though friend from friend must in sorrow part—
Though the gentle and loved from among us depart—
Though the flowers we guard with anxious eyes,
Are the first transplanted to Paradise.
The beauty around us hath been given
To raise our thoughts from earth to heaven,
The flowers that blossom and smile, but to die,
Are taken to lead our affections on high,
Then let this thought our murmurs quell—
Let us trust in Him who "doth all things well."

Portsmouth. QUATUOR-DECIM.

The Greenfield (S. C.) Patriot bewails the defeat of one Col. Brokman, a candidate for the State senate in South Carolina. WEDNESDAY, NOVEMBER 12, 1856.

GEN. JACKSON vs. MARCY.

The reader has seen a letter or certificate of Mr. Secretary Marcy, that certain Colored Minstrels are free, and that the United States will protect them abroad,—but yet that they are not citizens. Now Mr. Marcy is not only Secretary of State, but also (L. L. D.) a Doctor of Laws: so that his decision has a ponderosity of authority about it, albeit it is somewhat repugnant to common law and common sense.

It is time, however, that Doctors disagree sometimes,—and we shall proceed to show that they do so in this case.

Some of our older readers may remember one Andrew Jackson, whilom a General of Division, and a President of the U. S. The youngsters may perhaps have heard of him, or seen his name in a book. He was also a Doctor of Laws, having received the degree of L. L. D. at Cambridge—and was besides an eminent Doctor of the Cannon Law, taking his degree at New Orleans in the commencement of 1815.

While he was at New Orleans, he had occasion to call for volunteers to defend the city. Among others he called out a good battalion or regiment of free negroes and mulattoes, whom he addresses as sons of freedom, adopted children, and *fellow citizens*. Read his proclamation, which we copy in full from Niles's Register. He differs from Mr. Marcy, *toto cælo*. Which is the best Doctor of Laws, Jackson or Marcy?

PROCLAMATION.

To the free colored inhabitants of Louisiana.

Through a *mistaken policy* you have heretofore been deprived of a participation in the glorious struggle for national rights in which *our country is engaged*. This *no longer* shall exist.

As sons of freedom you are now called upon to defend *our* most inestimable blessing. As *Americans your country* looks with confidence to her *adopted children*, for a valorous support, as a faithful return for the advantages enjoyed under her mild and equitable government. As fathers, husbands and brothers, you are summoned to rally round the standard of the Eagle, to defend all which is dear in existence.

Your country, although calling for your exertions, does not wish you to engage in her cause, without amply remunerating you for the services rendered. Your *intelligent minds* are not to be led away by false representations.—Your *love of honor* would cause you to despise the man who should attempt to deceive you. In the sincerity of a soldier, and the language of truth I address you.

To every *noble hearted, generous, freeman of color* volunteering to serve during the present contest with Great Britain, and no longer, there will be paid the *same bounty* in money and lands, now received by the *white soldiers* of the United States, viz. $124 in money, and 160 acres of land. The non-commissioned officers and privates will also be entitled to the same monthly pay and daily rations, and clothes furnished to *any American soldier*.

On enrolling yourselves in companies, the major-general commanding will select officers for your government, from your white fellow citizens. Your non-commissioned officers will be appointed from among yourselves.

Due regard will be paid to the feelings of freemen and soldiers. You will not, by being associated with white men in the same corps, be exposed to improper comparisons or unjust sarcasm. As a distinct, independent battalion or regiment, pursuing the path of glory, you will, undivided, receive the applause and gratitude of your *countrymen*.

To assure you of the sincerity of my intentions and my anxiety to engage your invaluable services to *our country*, I have communicated my wishes to the governor of Louisiana, who is fully informed as to the manner of enrolment, and will give you every necessary information on the subject of this address.

Head Quarters, 7th military district,
Mobile, Sept. 21st 1814.

ANDREW JACKSON,
Maj. gen. commanding.

On Sunday the 18th of December Gen. Jackson reviewed the troops, and in his general order of the day addresses a high compliment "to the Men of color," saying he had invited them to "divide the glory of your white fellow countrymen"—"I expected much—but you surpass my hopes."

On the 24st of Jan. 1815, as he was about to break up his camp, Gen. Jackson issued another General Order, noticing and thanking the several corps for their services in the great battles they had fought and won. He speaks thus of his colored fellow citizens and soldiers.

The two corps of colored volunteers have not disappointed the hopes that were formed of their courage and perseverance in the performance of their duty.

So says General Jackson.—Is he not as good a Doctor as Dr. Marcy?

POLITICAL RIOT.—*Baltimore Nov. 10.*—Another riot occurred here last night, between two political clubs in the upper part of the city, growing out of an attempt to cut down an American flag pole. Guns, pistols and a small cannon were used. Several persons were dangerously wounded.

PRESIDENTIAL ELECTION.

The doubts about the election are apparently resolving themselves into the election of Mr. Buchanan, by a small majority of the electors,—and by a very small minority of the whole people.

The following is a brief view of several states, as presented by Tuesday morning's mail.

ILLINOIS—PROBABLY FOR BUCHANAN.—Returns from 71 counties give Fremont 7500 majority. The remaining 24 counties will probably give Buchanan 10,000.

There is nothing reliable from the 7th Congressional District. The Republican State ticket is thus far about 12,000 ahead.

The editor of the Chicago Times (Douglas's paper) telegraphs to Washington that "Buchanan has carried Illinois certain."

Despatches to the Washington Union say Fremont and Fillmore men fused on the State ticket, which accounts for the success of that ticket, but the Buchanan Electoral ticket is certainly elected.

IOWA.—Both parties gain and lose about equally with August election. The result will not vary 1000 either way from that election.

LOUISIANA AND MISSISSIPI—Despatches not very reliable, received at Philadelphia, say the results in these States are doubtful.

INDIANA.—Buchanan's majority thus far is nearly 12,000. Returns to come in will probably reduce it to 10,000.

TENNESSEE. — Despatches received at Richmond report Tennessee as having gone for Buchanan by 3000 majority.

This statement is based on full returns from Eastern counties.

The majority of Fremont over Buchanan in New York exceeds 70,000.

The popular majority against Buchanan in the free States will fall little below half a million.

ILLINOIS.—*New York, 11th.*—Returns from all but eight counties give a Buchanan majority of 4000.

MR. FORNEY AND MR. BUCHANAN.—The Newburyport Herald says:

The election is settled beyond a doubt, and James Buchanan, God willing, is to be President of the United States for four years, commencing on the 4th of March, '57. It is to be no new dynasty, but a continuation of the Democratic policy, with such changes only as new events may require, and with the same officers under him, except such as he may remove who may not be few in number, or obscure in character. To his friends his election is a matter of rejoicing; to his opponents for resignation, and that is the whole of it and the end of it. The country has been prosperous and happy thus far, and we have no doubt it will be under Mr. Buchanan, and would have been if Col. Fremont had been successful.

This election has been carried by the vote of Pennsylvania; and that shows the sagacity of the Democrats in the nomination. Nobody else was sure of it, but Mr. Buchanan; and there is every reason to believe that any other candididate would have been defeated. But, if Buchanan is carried by Pennsylvania, it is equally true that Pennsylvania has been carried by John W. Forney, the editor of the Pennsylvanian, the Democratic organizer in the Key Stone State, and the political worker by whom a Democratic majority has been raised there.

We candidly believe that Mr. Buchanan has been elected by Mr. Forney, and if he had been out of Pennsylvania, they would have lost the State in October, and been defeated in November.

SOUTH CAROLINA AND THE UNION.—*New York, Nov. 10.*—The Charleston Mercury, of the 7th, contains a long letter, addressed to Gov. Adams, of S. C., by R. Barnwell Rhett, urging on immediate dissolution of the Union, and establishment of a Southern confederacy. He urges, that next to abolitionism, the chief cause of grievance to the South is the tariff, and he proposes, that in the approaching modification of that measure, South Carolina should demand that it shall be reduced, at least to the standard and principles of 1843, and, if such a tariff is not conceded, "why," he asks, "should South Carolina, or any other southern State any longer keep representatives in Congress. In another part of his letter, Mr. Rhett says:

"In my humble judgment all true statesmanship in the South consists in forming combinations and shaping events, so as to bring about, as speedily as possible, a dissolution of the present Union, and the erection of a Southern confederacy.

In the views I have thus laid before you, your Excellency will recognize that policy which I have advocated for twenty-eight years, and have endeavored to have enforced by South Carolina. Three times have I counselled her to resist the usurpations of the general government, to a practical enforcement and acknowledgement of her rights, and three times have I fallen beneath her condemnation."

SUDDEN DEATH.—Mr. R. T. Tremlett, cashier for J. C. Ayer & Co., of Lowell, died very suddenly, Sunday morning. He had been suffering for a long time from what was supposed to be a disease of the heart. About seven o'clock, he suddenly fell from his bed as he sat up in it, and breathed his last on being lifted to it again from the floor. A post-mortem examination discovered that the disease was aneurism of the aorta or great artery.

DELAWARE:—In this State, the Republicans polled about 700 votes.

☞ Robert Kilborn, aged 94, voted at Great Barrington, on Tuesday last, for Fremont and Dayton. The crowd gave way, and stood in silence while the old man went up to deposit his ballot.

"FAITHFUL TO THE CONSTITUTION."—A large transparency, carried in Portland, the other night, had on it "South Carolina—faithful to the Constitution." When everybody knows that South Carolina was the hotbed of Nullification—the idea of her faithfulness to the Constitution is a most transparent joke.

She is just as faithful to the Constitution as she is to abolitionism and universal suffrage—and no more so.

☞ One of the banners, in the Buchanan Victory Procession in Portland, as we see by the Argus, bore this motto, "*Free Suffrage.*"

In the Boston Journal we see the following item:

Prof. Hedrick, lately removed from the Professorship of Chemistry in the University of North Carolina, for the crime of avowing himself in favor of Free Kansas and Fremont, was in New York on Saturday, and was to leave the same day for Cambridge, Mass. It is said that he will take up his residence in one of the Free States.

We take this to be an illustration of free suffrage and free speech in North Carolina, which State is claimed as democratic, which gives Mr. Buchanan a large majority, and which is said by the Argus to be "faithful to the Constitution."

☞ On Saturday morning, in Boston, Catherine Murphy, wife of Martin Murphy, No. 348 North street, was found dead in her bed about 3 o'clock. She was thirty-nine years old and has left three children. Her death was caused by excessive use of intoxicating drink. She has been married nine years, seven of which she has been a drunkard.

WOOD'S HAIR RESTORATIVE.

☞ We advise those of our friends in a state of single blessedness, who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—[Ohio Statesman.

NOTICES FROM THE PRESS.

From the Boston Journal of the Times.

The many testimonials, which we see in our exchanges, in favor of Dr. Wm. R. Hayden's Improved Vegetable Purgative Pills, speak well for their success. We would recommend them to our friends as a superior medicine.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8 6m

THE GREAT DISCOVERY, art, of Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple air, *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original receipe. *There is no cough that it will not cure, unless the patient is past all human aid, before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 1uT&hS 6m.

LOCAL.

☞ A special train of cars on the Eastern Railroad, on Tuesday morning, came through from Boston to this city, in one hour and twelve minutes, including six stops. From Hampton to this city, ten miles, the train came in ten minutes. This was an excursion train bound to Montreal, for a grand road-opening;—and some trials of speed were set up between different roads. Hence this furious and dangerous driving.

C. C. P.—NOVEMBER TERM, 1856.

PORTSMOUTH, Tuesday, Nov. 11.

The Court came in at 10 o'clock. Chief Justice Kittredge presided.—Prayer by Rev. Mr. Patterson. The first Jury was empanelled as follows:

Abra. Q. Wendell, Portsmouth, Foreman.
Hiram Fellows, Sandown.
Benj. F. Amazeen, New Castle.
Benj. Hill, Chester.
Thomas W. Poor, Deerfield.
Jos. H. Allen, Danville.
Eliphalet Dearborn, Epping.
Daniel T. Shipley, Londonderry.
Thomas Chesley, Newmarket.
Daniel Taylor, Salem.
Jacob Durr, Seabrook.

The forenoon was occupied in calling the docket.

☞ The Rev. Dr. Burroughs will commence this, Wednesday, night at half past seven o'clock, his course of lectures at St. John's Chapel.

COTTON FACTORY BURNED.—The mill of the Casco Manufacturing Co., at Great Falls, Gorham, Me., was burned down Monday morning, about 2 o'clock. It was the work of an incendiary. The building and machinery cost about $70,000, and were owned by parties in Portland. There was a partial insurance on the premises.

CONTRADICTED.—The New York Times says that "Mr. Beecher has neither asked nor received pay for a single speech he has made during the present canvass. He entered into the election solely because he felt a profound interest in the issues which it presented;—whether he did right or wrong in doing as he did, no man in this country has acted a more disinterested part, or been more exclusively governed by a sense of duty."

What then becomes of that "lie wi' a circumstance," which was told with so much gusto in some quarters, of a certain editor who offered Mr. Beecher $250 for a lecture, but did not get it for want of $400? And what will become of the liars who manufactured the story?

ROCHESTER, Nov. 8.—We learn that when the cars passed through Geneva this morning at half past 4 o'clock, a fire was raging in that village, which had already destroyed a large amount of property. The store and warehouse of Mr. Price were burned, with 3000 bushels of barley and 3000 bushels of rye. The canal stables were also destroyed, and in them were burned 40 canal horses.

BUFFALO, Nov. 10.—The severe gale Saturday morning caused considerable damage to the city.

The propeller Wisconsin, from Ogdensburg to Chicago, with a full load of merchandise and 60 passengers, burst her steam-chimney off yesterday, off Grand River, Canada, scalding a deck hand fatally. She was towed back to Port Colburn, from whence the passengers were forwarded by propeller Tonawanda.

OSWEGO, Nov. 10.—It is feared that the propeller J. W. Brooks, from Lake Erie for Ogdensburg, was lost on Lake Ontario in the late gale, with all on board. Parts of a hurricane deck, supposed to belong to her, came ashore at Henderson on Friday, and quantities of flour and lard were seen yesterday, floating about between Sackett's harbor and Kingston. The Brooks had a full cargo of produce, and a crew of twenty men. She probably had some passengers also.

The men who were in so perilous a situation on Saturday, aboard the schooner J. G. Deshler, have been rescued.

AN OLD MAN.—The Rochester Democrat records the death of a centennarian negro, who died in Irondequoit on the 25th ult. His name was Richard Murphy, and he had been a tenant of Hon. John Greig, of Canandaigua, for more than thirty years. His wife was a slave of Mr. Greig's father, and the husband accounted himself 80 years old when he went upon the farm, where he has since resided; consequently he must have been 110 years old at his death. He was long a ferryman at Charlotte, below Rochester, on the Genesee River. His wife some seven years ago was burned to death.

MUSICAL.—We learn that the "Requiem Mass" will probably be given in Concert in Exeter, next Monday evening. We hope at the next Rockingham Musical Convention it may be in rehearsal.

LAUNCH.—The ship Annie Sise will be launched from the yard of Geo. Raynes & Son, this forenoon, at 10 1-2 o'clock.

☞ The time for two per cent. discount on city taxes, expires this day.

RECEPTION AT GREAT FALLS, N. H.—A correspondent of the Boston Journal sends an account of the public reception, by the citizens of Great Falls, N H., on Friday evening last, of Capt. John A. Burleigh, agent of the Great Falls Manufacturing Company, who has just returned from Europe, whither he had been to obtain relief from cataracts in both eyes, but was unsuccessful. He is almost totally blind. The reception was given as a token of respect for a man who has done much for the best interests of the town, and as a mark of sympathy for his affliction. The largest procession ever seen in Great Falls escorted Mr. Burleigh from the cars to his home, where he was welcomed in the name of the citizens by Col. Mark Noble. The whole of Elm street, many public buildings and private residences, were illuminated, and a beautiful arch, bearing appropriate mottoes, was erected at the entrance to the Park, near the residence of Mr. Burleigh.

A FIRST RATE NOTICE.—The Richmond Whig mourns tearfully over the fact that John W. Forney, "an infamous character," will be Buchanan's prime minister.

☞ It is estimated that not less than 14,000 negroes have been landed on the island of Cuba during the last eight months, as slaves. A strong argument in favor of annexation?

INCENDIARY FIRE.—Between eight and nine o'clock on Saturday evening, fire was set to some reams of paper in the entry of the printing office of Messrs. Bazin & Chandler, 37 Cornhill, Boston. Fortunately the fire was soon discovered and extinguished. Had it got under headway, lives would probably have been lost, as about a dozen persons, including several females, were at work in the building. As it was, a few pails of water were sufficient.

DEATH OF HON. JOHN M. CLAYTON.—A telegraphic despatch announces the death on Monday evening of the Hon. John M. Clayton, U. S. Senator from Delaware.

The Providence Journal, speaking of Perley Poore's exhibition of himself, says:

It is difficult to say whether the newspaper accounts of this affair are sober earnest or burlesque, so difficult is it to understand why a gentleman of fortune, and education, and position, should consent to make such an uncommon exhibition of himself, and to win notoriety at so much risk of personal dignity.

We take it for a harmless, goodnatured piece of fun. We dont believe Ben Perley Poore lost one grain of personal dignity, by the operation. Why should not he wheel a barrow load of apples to Boston, as well as Uncle Toby wheel home a barrow load of cornstalks for his cow? A fig for all the dignity that is afraid of a wheelbarrow.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

FREMONT,
THE MUSTANG CANDIDATE.

If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send him on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses.—BEWARE OF IMITATIONS. The Mustang is sold by all respectable dealers everywhere.

Prince & Co.'s
Improved Melodeons.
THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doet. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resply. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

THE PROGRESS OF OUR COUNTRY.—It is stated that the population of the eleven infant colonies in 1704 was 565,000 souls. Georgia and Delaware added to the number about 1739, and the census reports give us 1,046,000. In the year 1776 the colonies contained 2,308,000 whites and 500,000 slaves. After the adoption of the present Constitution, in 1790, there were thirteen States, with 3,172,606 whites, 50,456 free colored, 697,807 slaves. In 1850 the States had increased to thirty-one, and the population to 19,550,000 whites, 434,000 free colored, and 2,204,000 slaves. The total population is approaching thirty millions.

POLITICAL WAGERS.—A bet was made a few years since in Philadelphia by a gentlemen, who upon the event of a political result pledged himself to saw a cord of wood in front of a friend's house in open day. He lost the wager and sawed the wood to the admiration of some ten thousand bystanders. Another gentleman in New York once made a vow if a certain ward went Whig, to promenade through every street of it in his linen. He lost, but was let off upon the payment of a supper. *Boston Bee.*

STOVES! STOVES!

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite store with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire mechanism of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a trail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Affairs in Kansas.

The following story of lawlessness and outrage is from the Chicago Democrat, edited by Hon. John Wentworth, formerly of New Hampshire, for ten years a Representative in Congress, and who did as much as any other man to secure the election of Franklin Pierce. The case of the young man, Moody, is by no means one of unusual hardship. Few fare so well. It may, however, possess a personal interest for some New Hampshire supporters of a policy that has closed our territories and the great highways of our nation against the freemen of the North, and placed them in the hands of an armed banditti of slaveholding pirates. Mr. Moody, mentioned below, bears in his veins some of the best Revolutionary blood in New Hampshire. He is a lineal descendant of the late Col. Amos Cogswell, of Dover; a nephew of Joseph B. Upham of Portsmouth, who is a brother of Judge Upham; a cousin of Col. Joseph Wentworth, of Sandwich, and a nephew of John Corrier, of Dover.

Citizens of the United States Arrested and Examined as to their Political Opinions.

We have noticed that the New England papers supporting Mr. Buchanan deny the existence of most of the reported outrages perpetrated upon the Missouri river. If forced to admit them, in any single instance, they generally charge that the outrages were provoked. To us here, in Illinois, no evidence is wanting in this matter. There are but few of us that have not lost friends or relatives at the hands of the border ruffians in Missouri. We know of many wives that have been made widows, many children that have been made fatherless, and many peaceable citizens with a competence that have been reduced to beggary by these outrages.

We now have a case in point, that must strike home to some of the Buchanan leaders in New England, for they know and many of them are connected with the young man referred to.

George L. Moody, a young man who had but just graduated from the School of Civil Engineering at Troy, New York, and whose father, (Joseph G. Moody) resides in Boston, left home to settle in Omaha City, Nebraska Territory. He arrived at Lexington, Missouri, on the steamboat. At that point a company of men came on board and went to searching the boat for, as they called them, abolitionists. One of them, seeing upon Mr. Moody's trunk that he was from Boston, took the trunk and desired the owner to come forward. When he came forward they arrested him, and when the boat landed at a point where passengers for Independence generally got off, they marched the prisoners up to Independence, Missouri. They there searched their persons and their baggage, and finding no incendiary documents, in the shape of Fremont papers or anything of that kind, they allowed Mr. Moody to go. Some of the others were discharged and some retained on the suspicion of being Free Soilers. As Mr. Moody left them, he asked them what guarantee he should have that he would not be liable to similar arrests on his way to Omaha City. They said they would give him a pass if he requested it. So a pass was given to the following effect:

INDEPENDENCE, Mo., Sept. 10th.

This is to certify that George L. Moody, of Boston, Mass., has been arrested by Captain Percival's Company, on board the packet J. M. Convers, while en route for Omaha City, N. T., taken to Independence, and that no cause has been found against him to justify his arrest or further detention, and that he now be permitted to proceed.

Capt. J. S. PERCIVAL.

This pass was countersigned Henry Carlyle, Waverly, Mo., which, we presume, was a sort of sacred mark to prevent these passes from being counterfeited.

The ancestors of Mr. Moody, on both sides, were among the most ardent supporters of the American Revolution, and of Thomas Jefferson afterwards. Scarce has the grass become green over the grave of one who fought under Gen. Washington through the whole war of the Revolution, to establish the freedom of thought and freedom of speech, before his descendant is captured on a free river of this Union and carried to Independence, Missouri, and there tried by an unprincipled mob, under the sanction of the State authorities, upon the charge of believing in the doctrines of the Declaration of Independence.

Have we a Constitution? Have we laws? If so, have we any one to see that they are faithfully executed? What is Gen. Pierce about? Why he is hourly believing the blood that he inherited from his father, the gallant Gen. Pierce of the American Revolution, by allowing the descendants of the men who fought side by side with his father to be thus arrested on the free rivers of this Union?

The Fitchburg Reveille publishes a letter from one of the free state prisoners at Lecompton, in which the writer says that Col. Titus, who has charge of the prisoners, *"has offered any one his liberty and a free passage, to join Gen. Walker in Nicaragua."* He adds:

"Last Monday was election day; the Missouri ruffians came over and voted as usual; the militia who guard us voted twice each, and they own it, and own that they are Missourians and do not intend to settle here, yet they are fed and clothed by the United States. *They say* they came to *wipe out Lawrence.* They are very ignorant and a poor looking set; they are expecting Congress to grant 160 acres of land to them at the next session, for their services."

KANSAS.—Recent letters from Lawrence state that Marshal Fain had attempted to arrest Capt. Walker, but he declined to be taken into charge, telling the Marshal that when he would bring authority from Gov. Geary to that effect he would cheerfully surrender himself. Capt. Walker, it will be remembered was one of the bravest and most efficient officers in the free State forces, and is now in command of a company of men who have enlisted under Gov. Geary as the militia of the territory. He was the commander of the company which destroyed Titus's fort, and has been indicted by the Grand Jury for that act. Gov. Geary was absent in the south part of the territory at the time the Marshal attempted to make the arrest, and Walker very naturally feared to trust himself to the tender mercies of the ruffians at Lecompton without the presence of the Governor.

☞ The vote at the Five Points was as follows: Buchanan, 576, Fillmore, 13, Fremont 17. If it had not been for the missionaries in that region, Fremont's vote would probably have fallen below Fillmore's.

HON. ANSON BURLINGAME.—This gentleman, it is stated, is rapidly recovering his health; and with rest and care will soon be about.

☞ Hunt's Merchants' Magazine for November contains, as its first article, a very interesting paper on the National Institute: an Association for the promotion of Science, founded at Washington in 1840. It also contains three other articles of great value, viz:

The Cotton Trade: past present and future.

Commercial and Industrial Cities of the United States. Detroit, Michigan.

Marine Memoranda of Lightning.

☞ Leavitt's Old Farmer's Almanac for 1857, comes to us from Shepard, Clark & Co., Boston, publishers, looking as natural as life.

Spirit Rappings.

MRS. W. B. COAN, the celebrated Rapping Medium from New York, will hold a meeting at Rechabite Hall, on Saturday evening, Nov. 15th, on which occasion spirits of the departed will give unmistakable evidence of their ability to rap loud and distinct, and also to identify themselves to the audience. Skeptics and scoffers who vainly and boastingly stigmatize Spiritualism as a humbug, are requested to detect the fraud and expose it, now they have an opportunity, and those good Christians who attribute the manifestations to the Devil, are invited to come to the rescue, and cast out the demons which are bewitching their fellow men. Manifestations commence at 7 2-1 o'clock. Admission 15 cents.

MR. JOHN F. COLES will lecture at the same place, on Sunday, at the usual hours.

WOOD'S HAIR RESTORATIVE.

☞ We advise those of our friends in a state of single blessedness, who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—[Ohio Statesman.

NOTICES FROM THE PRESS.

From the Boston Journal of the Times.

The many testimonials, which we see in our exchanges, in favor of Dr. Wm. R. Hayden's Improved Vegetable Purgative Pills, speak well for their success. We would recommend them to our friends as a superior medicine.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Jurleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all human aid before commencing its use!* It is called "Doctor Jurleigh Smart's Cough Medicine," and is for sale by all apothecaries. au27 1m(ads 6m.

LOCAL.

POLICE COURT.

PORTSMOUTH, Nov. 12.

Before Justice Odell—John Howard was arraigned for an assault with intent to kill Capt. Heman Eldridge. The assault was made with a hatchet, Nov. 11: Plea not guilty. But the Court held him to answer and ordered him to give bonds in $1000 with good sureties, to appear at the Supreme Judicial Court, at Exeter, on the Fourth Tuesday of Febuary 1857,—for want of which he went to jail.

The same John was arraigned for stealing one barrel of flour from the same Capt. Heman Eldredge, value $8. Plea guilty. Sentenced to pay the owner of the flour $16, besides restoring the flour; and to be imprisoned 60 days in the common jail. Costs taxed at $5,74.

From the testimony, the two cases were closely connected together.

Howard stole the flour; was detected and apprehended without a warrant, wished to clear himself, and so aimed to cut down the owner of the property with a hatchet. He denies the intent to kill, and pleads that he was drunk at the time. He must lie in jail however till next February, and then come before the Court to answer. Evidently a dangerous man, especially when in drink. The State would derive more benefit from his service in the State's prison, than elsewhere.

C. C. P.—NOVEMBER TERM, 1856.

No. 55.—John Smith v. Eastern Railroad was commenced Tuesday afternoon, and was on trial Wednesday. The action is trespass on the case, and was brought to recover damages of the Railroad for running over a horse, the property of the plff. at Seabrook in 1853.

The case was argued by Hackett for the defts., and Wells for the plf., and committed to the jury last evening.

☞ The Democrats of Kittery and Eliot are to have a Torch-light Procession tonight, forming near Navy Yard Village.

☞ The Mercantile Lyceum opens tonight, with a choice programme. Besides the Address by Hon. Geo. Lunt of Boston, B. P. Shillaber (Mrs. Partington) will read his Poem, "The Street," said to be his most successful effort.

We have received and accidently omitted a communication on these lectures, which will appear to-morrow.

☞ A report was in circulation on Wednesday, that the proposed Custom House and Post Office building, has been located on a certain square. But we learn from good authority, that no decision has yet been promulgated from Washington.

☞ We sincerely regret to learn that the continued illness of John G. Saxe, the poet, is such a nature that his recovery is looked upon as doubtful by the most sanguine of his friends.

PERSONAL.—The Newburyport Herald says, Hon. "James Pike, M. C. from the First District of New Hampshire, was in Newburyport this week, looking remarkably well, after the labors of the campaign. Mr. Pike is a new man in politics, but, by close attention to his business, has acquired an influence that will be likely to carry him through another Congress with but very little opposition. He visited all parts of his district before the election, delivering twenty-one addresses in twenty-five days; and in looking over the vote of that district, we see that his party had a plurality of 1600. Apart from his politics, Mr. Pike is deservedly popular for his excellence of character and manly qualities."

IMPORTANT DECISION. — The Supreme Court of Connecticut have decided that the Prohibitory Act known as the "Maine Law," is constitutional. We understand there were two cases carried up for its decision.

NO FOOL, NO FUN!—In a tavern, in a small town, sat a farmer, who was plagued and bantered by over a dozen guests who were present. "Well," said the farmer at last, "I've got the best of all of you," "How so?" asked all. "In me you've only got one fool, while in you I've got over a dozen."

THE LOST PROPELLER—*Oswego, Nov.* 11.—It has been ascertained that the propeller which foundered on Lake Ontario, during the late gale, is the J. W. Brooks, belonging to the Northern Transportation Company. Every soul on board was lost. The propeller was insured for $10,000, of which $2500 is in the Corn Exchange Co., New York.

ST. LOUIS, Nov. 11.—*Missouri Election*—Almost complete returns from 32 counties, show the following result;—Buchanan 18,352; Fillmore 17,836.

The same counties in August gave Polk 29,210; Ewing 21,280. These counties constitute Fillmore's principal strength.

FROM CAILFORNIA.

NEW ORLEANS, Nov. 11.

The steamship Tennessee, with San Juan dates to the 5th inst., has arrived here.

The previous accounts of the battles of Granada and Massaya are fully confirmed.

Gen. Walker's position was still more favorable, and the health and spirits of the army excellent.

The Transit Route was in fine condition.

CALIFORNIA.—The Tennessee also brings San Francisco dates of the 12th ult.

Trade was active, and the miners' prospects good.

Senator Weller had been prostrated by a severe fit of sickness.

The news is generally unimportant.

The clipper ship Onward, from New York, had arrived at San Francisco.

OREGON.—The Indian troubles in Oregon threatened to become more serious. Gov. Stevens, who had advanced to the Walla-Walla country, to negotiate a peace, had been obliged to return.

The entire country north and east of Day's River was in possession of the Indians.

BALTIMORE, Nov. 11.—*More Political Irregularities.*—This evening a large crowd, armed with guns and clubs, proceeded to Monument square with the effigy of Hon. Reverdy Johnson, and burnt it on the railing of the Battle Monument, in front of Senator Johnson's house. The motive, it is said, was to manifest indignation at the recent speech delivered by Mr. Johnson in New York. The crowd gave cheers for Fillmore and groans for Johnson. The authorities did not interfere.

ROCKFORD, ILL., Nov. 11.—*Murder of an Officer.*—John G. Taylor, Sheriff of Winnebago Co., in endeavoring to arrest Alfred Fountryman, charged with stealing, this morning, was shot dead by the prisoner. The murderer fled to the woods. A large number of citizens pursued and captured him, and lodged him in jail. Great excitement existed, and a strong disposition was manifested to lynch him, but this was finally overcome.

CHICAGO, Nov. 8.—[Special dispatch to the N. Y. Evening Post.]—Fillmore assisted by Lower Egypt, where Buchanceers continue to vote during the whole of the first fortnight in November has given the State to Buchanan. The Southern lines are down so that we cannot ascertain the majority, but think there is no doubt of the fact.

THE BANNER COUNTY.—The first Congressional District, Illinois, now ably represented by Hon. E. Washburn, is undoubtedly the banner district in the United States.—Mr. Washburn's majority cannot fall below ten thousand five hundred votes.

If the polls are closed in Egypt, or if they will be closed before Chicago and the North are heard from, the State is safe. But, if the pledge given at the Springfield Pro-Slavery Convention "Tell us how many votes you require from Egypt, and you shall have them," is to be redeemed, it is possible that before the week is out, we shall be beaten.—*Chicago Tribune, Nov.* 6.

BORDER RUFFIANISM IN ILLINOIS.—In the counties in Ninth District in which there are few or no Fremont men, it would appear from the returns at hand, that gross frauds have been perpetrated upon the ballot boxes. In counties which, in 1854, gave each an entire vote of not more than 400, we now have Buchanan majorities of double that number. For instance:

Alexander county gave for Treasurer 361 votes in '54; for President in '52, 481 votes. The county now gives Buchanan 800 majority.

Pulaski county, which gave 249 votes for Treasurer, and 357 votes for President, now turns out 800 majority for Buchanan.

Union county which never gave 1000 votes, now rolls up 1400 majority for Buchanan.

Johnson county, which gave in '54 less than a thousand, now sends us 1200 majority for Buchanan.

Monroe has cast almost as many votes, if report is correct, as she has males within her borders.

When we remember that three counties are wholly under the control of the Border Ruffian party, and that in many of them hardly a Fremonter was to be found—that their population has increased but slowly, and that the reported majorities are greater than the entire voting force of men of all parties, we may be assured that fraud has been practiced.—*Chicago Tribune.*

Vote of Chicago—Fremont 6350, Buchanan 4910, Fillmore 332. Fremont's majority over Buchanan 1440. Last spring for Mayor, Dyer (Buch.,) had 4712, Sherman (Repub.,) 4123.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

Prince & Co.'s

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Dodworth, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very res'lly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

From the Ballot.

THE "DEMOCRACY" CHEATED.—"John H. George, chairman of the Democratic State Committee," issued a circular just before election, dated at Concord Oct. 31, from which the following is an extract:—

"I have just been shown a circular signed 'Fremont State Central Committee of New Hampshire,' infamously false in its statements and circulated only for the purpose of deception. It purports to give the figures of a canvass of this State, showing a majority for Fremont of 4,958, in a vote of 70,126—being 3000 more than were ever cast in this State, and 10,000 more than the average vote of the State. NO SUCH CANVASS HAS BEEN MADE. NO SUCH FIGURES HAVE BEEN RETURNED. The circular is a lying statement, which the author did not dare to make over his own signature. It is circulated to keep up the flagging spirits of the Fremont party in New Hampshire. The canvass of the Democratic Committee, made with the greatest care, shows a DEMOCRATIC MAJORITY OVER THE COMBINED VOTE OF THE OPPOSITION, and if the FULL Democratic strength is at the polls the result will verify the correctness of this canvass."

This circular was scattered broadcast all over the State, and on the strength of its assurances the hunkers bet their money freely, and have lost thousands of dollars on the vote of New Hampshire. The result of the election proves at the same time the falsehood of George's statements and the accuracy of the Republican canvass. The number of votes polled in the state is more than 71,000, and Fremont's plurality nearly 6,000.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a small and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes, must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Morning Chronicle

From the Ballot.

Letter from a former Editor of the Gazette.

In our review, a fortnight ago, of the electioneering pamphlet got up by the "Granite State Club" of office holders at Washington for circulation in New Hampshire, we attributed its authorship to Abner Greenleaf Jr., formerly of this city, who is not an office holder at Washington, instead of Albert Greenleaf, who is and has been for twenty years or more. We saw our error immediately after our paper was issued, and should have corrected it last week, but in our haste neglected it. We are not surprised that our friend should feel pained at the charge made against him, but while we would not willingly accuse any one unjustly, we can hardly regret the error which has called forth the following letter, which will be read with interest by the people of Portsmouth.

BROOKLYN, N. Y., Nov. 3, 1856.

To the Editor of the American Ballot:—

Sir—A friend in Portsmouth has sent me a copy of your paper of the 28th ult. and drawn my attention to an article in which you refer to me by name as the reputed author or compiler of a certain pamphlet got up at Washington for circulation in your State; in which pamphlet, as I gather from your comments, the *Southern* view of the Kansas question is taken, and the free state settlers are denounced as a band of "conspirators" for daring to establish and defend in their new homes the great free principles and institutions of the land of their birth. I regret extremely to see my name thus associated in a cause so repugnant to my feelings and so contrary to fact, and as some of your readers may remember me as the proprietor of the Gazette in former years when it was our pride to be considered a true exponent of Jeffersonian principles, I must beg to assure them that I am none the less guided by his precepts in my duties as a citizen, though long since retired from the business of a propagandist. With the sale of the Gazette in 1841 I laid down my political armor for aggressive purposes. I did, indeed, write a few papers subsequently on the annexation of Texas, which attracted some virulent remarks at the time from men and papers now upholding the slaveholding cause in Kansas, though the question of slavery was not then in issue, but this only shows the time-serving character of "*the party*" in New Hampshire, of which, however, I had then a very fervid conviction. But as I have intimated, I have long since ceased to take an active part in politics, and until the occasion of the great meeting at the Tabernacle last winter to rebuke those profligate ruffians who are turning the land into a pandemonium, I have seen no high animating principle in either party worthy a public demonstration. This crisis brought me out, and I intend to follow it up tomorrow by voting for John C. Fremont. He may not be elected, but the ultimate success of his cause I consider essential to the salvation and purity of the free institutions of our country. You will thus perceive that my sentiments are not dissimilar to your own, and that I would not be likely to be tolerated as an "office-holder" under the present administration, of which, by the way, I never asked a favor.

Not having been in Washington since 1844, I am not, of course, a member of any "office-holders' club" there; and as a consequence have not been employed to "concoct schemes and get up documents" to subserve the cause of the present administration or the platform which hides James Buchanan. You will, therefore, please declare your allusion to me a decided mistake.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ anh ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

"DRAWING IT MILD."

The result seals the doom of Kansas,—dooming it to be a Slave State; endorses and sustains the plans and acts of Douglas, Atchison and their coadjutors in Kansas, Missouri and Washington; and prepares the way for slavery extension further west. —*Portsmouth Chronicle.*

That is "drawing it very mild," old fellow. Before the election, all the black organs insisted that Mr. Buchanan's success would cause not only the above, but also the extension of slavery to New England, the enslavement of white laborers, the revival of the African slave trade, and numerous other like probable events. It is not fair to curtail the programme so much at once. You have promised the people all these horrors, and we shall insist upon either a strict and literal fulfillment of your promise, or else a frank confession that you *lied*, deliberately and entirely, when the statements referred to were made. —*N. H. Patriot, Nov. 12.*

Why should not an "old fellow" like Uncle Toby be mild in language and cautious in statement? He very much prefers a mild tone, even in the strongest and most important statements. He will not follow the courteous example of the Patriot, saying "*You lied.*"—But he will say, that on the Patriot's own showing in the above item, the Chronicle is not a black organ — for it has never "insisted" nor "promised" any such things:—and the editor of the Patriot is hereby called upon, either to produce a quotation from our editorials to this effect, or else to retract his *not* "very mild" assertion that we "lie deliberately and entirely."

What we have said, repeatedly and plainly, is that the great question at issue in the election, was slavery extension or slavery restriction—Will you set bounds to it? or will you vote to break over and break down the bounds, and so make slavery national?

And what we have done, is this, viz. we have published extracts from some of the principal papers and speakers which have urged Mr. Buchanan's election, and which have also urged the reopening of the African slave trade, and have advocated the idea that all laborers ought to be slaves without distinction of color. These things are *their* programme, not *ours*. We have neither insisted upon them, nor promised them: but we have opposed and denounced them.

And now let us look back again upon our "very mild" paragraph about Kansas. We say the election of Mr. B. dooms Kansas to be a slave state; and that it endorses and sustains the plans and acts of Douglas, Atchison and their coadjutors in Kansas, Missouri and Washington; and prepares the way for slavery extension further west.

The Patriot does not pretend that this is *not true*, for it knows it *is true*, in spite of its own repeated assertions that Kansas will be a free state. It even calls it *mild*. Well: we had rather speak within the truth than go beyond it. But what were the plans and acts of Douglas and Atchison? Douglas, for himself and introduced the Nebraska bill, with the *false assertion* that it was not the *intention* to legislate slavery in nor out—but with the *real intention* to open that territory to slavery, whence it was previously by law shut out.

The House of Representatives paused,—the north was alarmed,—the clergy protested,—the Patriot itself did not *dare* to urge the measure! What then? President Pierce urged his executive influence in its favor, and thus forced through the bill. The reaction threw him into a minority in New Hampshire, even though his papers begged the democracy not to believe this was the last question.

The action made him a coadjutor of Douglas in Washington. The way thus cleared, Atchison and Stringfellow began their action in Kansas, whither they poured in their border ruffians from Missouri, held bogus elections and made bogus laws.

In Congress, the friends of Freedom exposed the frauds, outrages and murders of these slavery propagandists. Senator Butler, as a champion of the slavery propaganda, raved and foamed: Sumner criticised and cut up his speech. Bully Brooks struck Sumner down; and Brooks's party sustained him, making his act their own.

This whole string of doings made it impossible to re-elect President Pierce. So Mr. Buchanan is brought out and placed on the platform of "*principles*" embraced in the Kansas Nebraska bill—and is declared to be *satisfactory* to Douglas, Brooks and others.

He is elected,—and his election is claimed, and we suppose truly by these Kansas and Washington conspirators, as *their* victory. For their purposes, slavery extension in Kansas is enough for *to-day*.

when, to-morrow or next year, they ask for more, in some other direction, on what *principle*, or for what *reason* can those say *nay*, who now say *yes*.

Then as Mr Buchanan's election sanctions the principle, or idea of slavery extension, it opens the door for any amount of it which the slave power may demand.

How much of the evil may be actually *done*, depends on circumstances, over which he may have little control.

TOO MANY VOTES.

The N. H. Patriot of the 12th, gives a summary of the vote of New Hampshire, wanting only six little places—and then says:

If they should have cast the same vote now, the whole vote of the State will stand thus:—Buchanan, 32,784; Fremont, 38,228; Fillmore, 418.

This gives an aggregate vote of 71,430, which will be increased to full 71,500 probably by the towns to hear from. This is five thousand larger than the vote of last March, which was 2000 larger than ever before cast. The Democratic vote has increased 860, and the black republican vote has increased 6,214!

It thus appears that New Hampshire has cast 71,500 votes. We suppose there are at least 2000 more in the State entitled to vote, who were prevented by various causes from exercising that right, including those who lost it by a change of residence. This would give us 73,500 voters. * * *

Does any intelligent man believe that this has been done legally? Impossible; it is not so. It is preposterous to contend that *one fourth* of the population of New Hampshire are voters; for let any one look about him and he will see that it is not so—that there is not a voter in every four persons in his neighborhood.

To this the Dover Enquirer makes answer:

Barnstead, with a population of 1848, has cast 479 votes, or one for *less* than every four inhabitants; Lee, with a population of 862, has cast 211 votes, or one for about every 4 inhabitants. These are strong *democratic* towns. On the *other* side, Conway, with a population of 1762, has cast 371 votes, or only one for nearly every *five* inhabitants; Tamworth, with a population of 1766, has cast 362 votes,—not quite equal to the proportion of Conway. These are all farming towns, where the proportion of voters to the number of inhabitants is about equal—and yet we see that the democrats muster a larger vote than their opponents—showing conclusively that if the ballot box has been stuffed, they are the ones that have done it. * * *

In many of those towns where there are the largest gains for Fremont, the check list and ballot box were in the hands of Democratic Selectmen, and if any stuffing was done they did it. Who stuffed the ballot box in Strafford, Durham, Farmington, New Durham, &c., &c.?

We only add, that a comparison of the three wards of Portsmouth, will show a larger vote *pro rata*, in the 1st and 3d wards, than can be shown in the 2d.

THE CURTAIN LIFTED.

A correspondent of the New Orleans Delta, thus foreshadows the slavery extension plan for the future:

"We have just passed or soon will through a crisis. There was danger say what you may. The South now wants security for the future, and she must have it. There is now no excuse—we are in power. Extension of slavery is the testing crucible. The South demands an *equality* in the Federal Senate; hence the first is to admit Kansas a *Slave State*, an offset to *California*—this equilibrium never hereafter, to be disturbed; for every *free State*, one *slave State*; the Nebraska Kansas bill, so far as they touch slavery, never to be repealed."

New Hampshire democrats: are you ready for this? Do you like it? The census of 1860 will show that the population of the Free States immensely outnumbers and outgrows the population of the Slave States. This can be seen even now, by looking at the *last* census.

Now on the plan above named by the New Orleans Delta, though the voters in the free states should be five times as many as in the slave states, yet, in the Senate, in the appointing power, the *one sixth* should have as much power as the other *five* sixths. And this is *state Equality*, we presume.

INSULTING CLERGYMEN.—A correspondent of the Boston Journal informs, that on the morning after the late election, several young Democratic politicians of Dover, N. H., called up the Rev. E. Hutchins from his bed, and attempted to insult him by giving three cheers for Buchanan, and by shouting "freedom shrickers," "political priests," &c. They afterwards called at the residence of Rev. J. M. Durgin, and gave "three cheers for old Durgin."

We happen to be somewhat acquainted with Rev. Mr. Hutchins, and know him to be a man so amiable and affable, as to give no real cause of offence to any one.—We have a right to presume, therefore, that the attempted insult to him, was as gratuitous and as puppyish, as some insults lately offered to the respected and truly respectable Methodist minister of Portsmouth. "The man recovered from the bite: the dog it was that died."

NEW YORK ACADEMY OF MUSIC.—The opera at this establishment commenced under the reign of the Baron de Stankovitch on Monday, "Trovatore" being performed. It will be remembered, says the Boston Atlas, that M. Maretzek was to be superseded by M. Kreutzer, as conductor, because the former chief would not apologize for his insult to the direction. M. Kreutzer attempted to take the place of the popular *chef*, but the audience would have Max, and howled for a sight of the old familiar baton. A mob was imminent, when Maretzek, who was suspiciously near, jumped into his old place, took command of the cat-gut forces, and carried through "Trovatore" triumphantly. What the unfortunate directors will do, after this *coup d'etat*, remains to be seen.

☞ The York and Cumberland Railroad Company have settled their difficulties by a compromise. The Portland Advertiser says, this closes the adjustment of all the difficulties that have retarded the progress of the road, and no doubt can now be entertained as to a speedy resumption of the work beyond Saco River. It is designed to run the cars to Alfred early next fall.

Daniel Stearns, of Fremont, Ohio, was supposed to be dead, and being placed in his coffin, his friends assembled for the funeral. Some one touched the body and found it warm. Restoratives were administered and the dead man is now alive and well.

☞ The American Organ, of Washington city, announces its purpose to discontinue its daily issue, in consequence of the result of the Presidential election, and hereafter to publish only a weekly paper. It says that "It is impossible for a daily paper to be sustained in Washington without government patronage." It adds, "The American Organ establishment has sunk thousands of dollars by its daily issue."

Spirit Rappings.

MRS. W. B. COAN, the celebrated Rapping Medium from New York, will hold a meeting at Rechabite Hall, on Saturday evening, Nov. 15th, on which occasion spirits of the departed will give unmistakable evidence of their ability to rap loud and distinct, and also to identify themselves to the audience. Skeptics and scoffers who vainly and boastingly stigmatize Spiritualism as a humbug, are requested to detect the fraud and expose it, now they have an opportunity, and those good Chlistians who attribute the manifestations to the Devil, are invited to come to the rescue, and cast out the demons which are bewitching their fellow men. Manifestations commence at 7 2-1 o'clock. Admission 15 cents.

MR. JOHN F. COLES will lecture at the same place, on Sunday, at the usual hours.

WOOD'S HAIR RESTORATIVE.

☞ We advise those of our friends in a state of single blessedness, who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—[Ohio States man.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *They is no cough but it will scatter, unless the patient is past all human aid before commencing its use!* It is call'd "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all druggists. nov7 TuThdS 6m.

MERCANTILE LIBRARY LECTURES.

The Mercantile Library Association made a successful opening of their course on Thursday evening, at the Temple, when a large audience listened to an Address by Hon. Geo. Lunt of Boston, and Mr. B. P. Shillaber (Mrs. Partington) read his Poem, "The Street," one of his most successful efforts.

A correspondent sent us (a day or two since) the following communication on this course of lectures—most of which is still valuable.

We beg leave to call the attention of your readers to the course of lectures, advertised by the Mercantile Library Association. Now that the heat and conflict of a closely contested election are over, men's minds will seek in other sources that excitement, so lately furnished by political strife alone. The Lyceum claims and should receive the patronage of the public, not merely as furnishing rational amusement and instruction, but as a means of restoring a more healthy tone of thought and feeling. We have been surfeited with discussions of the various political questions of the day, and the public mind will turn with relief to a course of lectures which promise to steer clear of them all, and to discuss subjects on which all can agree without a compromise of principle. In the lecture room, Republican and Democrat can meet, as on a common ground, and, in a moderate and healthy mental excitement, forget their past differences.

The course advertised by the Mercantile Association, is peculiarly deserving of patronage. The pitiful sum of one dollar secures admission to sixteen lectures, which, we are warranted in believing, both from the reputation of the lecturers and the expense incurred, will prove second to no course ever given in this city. The introduction of lectures on scientific subjects, with experiments and illustrations, will prove a feature as attractive as it is new.—Moreover, we understand that efforts are being made to secure the engagements of Hon. Thomas H. Benton and Lieut. Maury, who are advertised to lecture before the Newburyport Lyceum; their lectures alone will be well worth the price of the whole course.

But it is on account of the Association itself, that we consider the course particularly deserving of success. We question whether any institution in our midst exercises a more salutary influence on the young men of our city than this; in restraining them from bad associations, in cultivating a pure literary taste, in the various benefits to be derived from a debating club and access to a well selected library. Nor is it exclusive in its character;—it invites to a share in its advantages all young men of the city, over sixteen years of age, of good moral character. Such an institution has a strong claim on our support, for its benefits to our city can hardly be estimated by dollars and cents. Every man of means, every literary and business man owes it as a duty to sustain it by his patronage.

But the Association asks no favor; it offers far more than an equivalent for the price of a ticket. It simply requests to be sustained in its endeavors to furnish to the people of Portsmouth, at considerable risk and expense, a superior course of popular lectures. Let this reasonable wish be granted, and a full house exhibit the appreciation in which the enterprise of this young association is held by our citizens.

No. 92, Wilson *v.* Neal—assumpsit on a promissory note note. Verdict for pltf. by order of Court. Towle for pltf., Hatch for deft.

The Court will probably adjourn on Friday or Saturday, to meet on the 4th Tuesday of December—as few or no cases were found to be ready for trial.

☞ Rev. A. J. Patterson will preach in South Hampton, N. H., next Sunday;—and a talented young preacher from Tuft's College will supply Mr. Patterson's pulpit in this city.

GEN. ATCHISON UPON KANSAS.—The Edgefield (S. C.) Advertiser, Nov. 5, says:

The following brief letter has come within our reach, and we claim the privilege of publishing it, not only to show the energy and true Southern feeling of our esteemed fellow-citizen, Mr. Fuller, but that our people may be encouraged to do something more yet for the Kansas cause. The General, you will see, feels, that one more broadside from the South will carry the debated land. Mark the tone of his concise but emphatic note, and let us be aroused to one more exertion.

PLATTE CITY, Thursday, Oct. 9, 1856.

DEAR SIR:—Your letter, together with the draft for $138 40, has been recieved, and your instructions shall be followed.—I will inquire diligently for the Edgefield boys. We have carried the elections in Kansas. The new Governor gives satisfaction. But, my dear Sir, it is no time for Southern men to relax their exertions. Now is the very moment to redouble our exertions. *We must do it.* If we do our duty, Kansas will be a Slave State in twelve months—*a State either in or out of the Union.*

Yours truly, D. R. ATCHISON.
R. M. FULLER, Esq.

JUST FROM KANSAS.—We received a call yesterday from William Hoon, Jr., who has just returned from Kansas, where he had been arrested with other Free State boys, and had just escaped from the soldiers, having by good luck a friend on guard, by whom he was permitted to slip, after which, by crawling a mile through the grass, he found the coast clear. Mr. Hoon's father is a well known citizen and good Democrat. It is to be hoped he will listen to the story of "bleeding Kansas," from the lips of his son, who is astonished at the audacity of those who presume to attempt to discredit the stories of the atrocities of the Ruffians, for which the Pierce Administration is responsible.—Mr. H., says that the half has not been told of the horrors of the persecutions suffered by the Free State squatters, who are however, resolved to cleave unto the soil where they have claimed homes, and work and fight to the bitter end.—*Cincinnati Commercial, Oct. 30th.*

FROM CALIFORNIA.

NEW YORK, Nov. 13.—Steamer George Law, from Aspinwall 3d, arrived here this morning. She brings San Francisco dates to the 20th ult., and $1,600,000 in treasure.

The Geo. Law connected with the Golden Age, which brought down nearly $2,000,000.

The news from California is meagre.

The markets during the fortnight had been very dull, and prices nominal.

The primary elections in San Francisco had resulted in favor of the Boderick faction. The Republicans had withdrawn their county ticket, and adopted the People's nominees.

FOUR DAYS LATER FROM EUROPE.

ARRIVAL OF THE STEAMER EUROPA.

SANDY HOOK, Nov. 13.—The steamer Europa from Liverpool Nov. 1, passed here this morning. Her news was got on shore and telegraphed to New York.

The Liverpool American Chamber of Commerce publish an address to the Southern Chambers, complaining of the false packing of cotton.

A despatch states, although perhaps on no authority, that to the French request to evacuate the Principalities, the Austrians have returned a flat refusal.

The liabilities of Fox & Henderson, the contractors, are £350,000, half unsecured.

The Government of Naples has addressed a circular of moderate tone to its diplomatic agents, and that the King has sent M. Dapiont, a Frenchman in his confidence, to Paris, on a secret mission.

The London Money Market has undergone no change.

Consols for money closed at 92 1-2 a 92 3-4; for securities 92 5-8 a 92 3-4.

American Securities dull and quiet; slightly lower.

A REMEDY THAT CURES.—When laboring under any disease of the throat or lungs, rest assured that speedy relief can be obtained by using Dr. Wistar's Balsam of Wild Cherry. Its success in such cases is unparalleled.

☞ A Quarterly Conference of the Rockingham Association of Universalists will be held in South Hampton, N. H., on Wednesday and Thursday, 3d and 4th of December. Public services will commence at 2 o'clock, Wednesday afternoon.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

Prince & Co.'s
Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

If is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Dect. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very res'lly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four and a half octave, " C to F.....60

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PRERLE,

Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR,

WASHINGTON, D. C., 7 Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease to obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,

Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1854.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick, and pining away for months. Went off to Rochester at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad and my wife cured him with two doses of your Pills, which others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as Yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best medicine I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Recording Merchant of S. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores on her head and face that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA HORGETTOR.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church.

PLANTS HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I obeyed the ungrateful for the relief your skill has brought me if I did not report my case to you. A confirmed invalid in my limbs and brought on excruciating neuralgic pains, which only ceased in extended rheumatism. Notwithstanding I had tried the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 6 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SUIRETT.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Costipation, and as a Dinner Pill, they are agreeable and efficacious.

Fits, Suppression, Paralysis, Inflammation, and when **Deafness,** and **Partial Blindness,** have been caused by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent who have some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant reason to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, or neglect them until no human skill can master the incurable canker that, fastened on the vitals, sets your life at stake. All know the dreadful fatality of lung disorders, and all they know too the virtues of this remedy, we need not do more than to assure the world it is still made the best it can be. We spare no cost nor care, no skill to produce it the most perfect possible, and then afford those who rely on it the best agent which our skill can furnish for their relief.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a trifling and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to be form substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

TEMPERANCE IN MAINE.

The Portland Advocate and Journal, of Nov. 8, gives the following view of temperance and intemperance in Maine.

The authors of the present free rum law must—with their coadjutors—feel a peculiar satisfaction in the great increase of rum selling, rum drinking and rowdyism, which is now manifest everywhere in our State. What they most desired it seems to us is come to pass, and our State is flooded with rum. It is really alarming, and reflecting men of all parties are startled and are anxiously inquiring, cannot something be done to check this mighty evil?

We had supposed at least that there would be some show of effort on the part of the friends of this law towards its execution; but not one of them in office or out, lifts his hand to stay the unlicensed sale of liquors. The ——— ——— press throughout the State was loud in its denunciations of the Maine Law while it was on the statute book. These partizan journals cried out lustily for its repeal; declared that that law did not promote temperance; and demanded in the name of temperance, a law that would do the work; and when the present law was enacted pronounced it the very thing. Now how is it? Not a dog of them from the ——— down to the ——— ——— moves his tongue in favor of this law or asks for its enforcement. Not one.

Even our Mayor McCobb, who, has made some pretensions in his day to temperance, is calm as a summer evening over the gigantic increase of drunkenness, crime and rowdyism which flows from the unlicensed traffic—which the law makes it his duty to suppress.—How is this? Many citizens who voted for this man would like to know the wherefore of this indifference to law on the part of our city fathers. Nobody expects anything from the police force from the Marshal down. That is wholly out of the question. But of His Honor and those associated with him we have a right to expect some show of consistency in the enforcement of law—of all laws. While therefore they suffer the city to be inundated with rum and all of its mischievous consequences, and that too, by the unlicensed traffic, the inquiry naturally arises, is the law good for anything or is the fault with the authorities? How is it?

Our opinion is that the law is a sham. That it was not intended to restrain the traffic, but on the contrary to promote it. Still the party in power in this city profess to believe in its excellency as a temperance instrumentality. Let them give us a test of its virtue. Let them show the world that it is a better temperance instrumentality than prohibition, or let them abandon it as honest men should and confess the cheat. We hold that the authorities are bound to enforce all laws and to see to it that all violators of law, are brought to justice. The man or men who occupy the place of magistrates and will not enforce the laws, are false to their oaths. There is but one of two things that they can honestly do, either enforce the the laws as their oath requires, or resign. Any other course is reprehensible and mean.

We call upon the authorities to show us what this law can do; or at least to show that they have some regard for their oaths, by their endeavors to enforce it.

FREMONT NEWSPAPER MOBBED.—The office of the Mountain County Herald, published at West Winstead, Conn., on Saturday night was assailed by a band of miscreants with brickbats, stones, bottles and other missiles, and before the neighbors rallied to the rescue, the building was considerably injured and badly defaced.

LADY BYRON.—The widow of Lord Byron has addressed a letter to Mrs. Stowe, enclosing £65 for relief of the Kansas sufferers.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with U.S. Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has shape arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in a suring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,
Commissioner of Patents.

LECTURE AND POEM.

Hon. George Lunt's Lecture before the Mercantile Association on Thursday evening, was a prosy, dull essay on the Daily Press; quite out of place as a lecture here.

Mr. Shillaber's Poem was one of his best. The Journal truly says of it:

Our friend Shillaber, who is always welcome to a Portsmouth audience, never appeared to better advantage. His poem, "The Street," was a moving panorama of nearly an hour in length, such as meets the eye in the thoroughfares of great cities. In it, as he recognized and introduced to the audience the various passers by, he would occasionally raise a pebble stone and adroitly strike home to some head or heart a very impressive lesson. Before us pass the rich and the poor, the newsboy and the schoolboy—the playful hope of future years and the thoughtless school girl—the merchant and the huckster—the fast man and the laborer—the military and the match dealer—the virtuous and the vicious—the miser and the noble hearted. At length the scene darkens by the evening shades. Darkness covers all. Again the procession passes in review strip of its pageantry, and coursing down to the dark and "narow way," where the rich and the poor meet together on a common level. The poem has much merit and will be well received wherever it may be delivered.

A PORTSMOUTH CORNET BAND.—A number of young men, we understand, are endeavoring to form a permanent Brass Band, with new Cornet instruments of the first class, in Portsmouth—a truly desirable acquisition for the city. In order to render it a permanent one, it is proposed so to arrange the ownership of the instruments, that, should the Band dissolve, the stock in the concern will revert either to the city, or to individual stockholders, whose shares in the concern will be entitled to receive each their share in the proceeds of the sale of the instruments.

Those who are engaged in the formation of the Band, as far as we have learned, are such as may be depended upon for substantial character and creditable demeanor. They will depend upon the aid and patronage of our citizens, to whom we take pleasure in commending their enterprise.

We learn the subscription goes well; and will succeed.

LADIES' GENERAL CHARITABLE SOCIETY.

TO THE LADIES OF PORTSMOUTH.

For some months past the attention of several ladies of this city has been drawn towards the subject of forming a *General Charitable Society*, similar to some which have been successfully tried in neighboring cities. Their plan has so far been carried into effect that committees from the different religious societies have consented to unite in it, a constitution has been adopted, and the city has been divided into fourteen districts, to each of which a committee has been appointed who are now ready to enter upon their duties.

To open the way for a favorable reception of the visitors they would respectfully invite the attention of every lady in our city to the following considerations:

We, in common with other cities, have in our midst a great amount of poverty, ignorance and vice, for the removal of which we are individually and sacredly bound to use all proper means.

A large amount of the poverty in every place is the result of intemperate, wasteful, indolent, thriftless or vicious habits, which, while they continue, must still engender poverty, suffering and crime.

The children of such parents are in general the greatest sufferers; being either made to labor for the maintenance of the family at an age when they ought to be in school; sent out, often with a falsehood in their mouths, to beg from door to door; or turned into the streets to be educated in the worst of all schools.

There are in all cities many who from misfortune have been reduced to want, but whose delicacy of feeling forbids their making known their circumstances unless the truth be drawn from them by some kind and sympathizing friend.

Few in the community have leisure to examine particularly into every case of real or pretended suffering which presents itself for relief, much less to tax themselves with the labor of elevating the moral and intellectual condition of those whose aspirations is no higher than the supply of present wants.

It is not enough that we are taxed for the support of city paupers. The best regulated city government can hardly be expected to do more than see that all are provided with the necessaries of life; nor can any benevolent society accomplish all that is desirable, without the combined and systematic co-operation of the whole community.

We rejoice in all the good which has been accomplished by existing organizations; and are particularly gratified that we have a City Missionary who will, we trust, endeavor not only to carry the instructions and consolations of our holy religion to the homes of those who have no such sanctuary, but also, so far as lies in his power, to administer to the temporal as well as spiritual wants of his numerous charge. But it must be evident, on a moment's reflection, that with the whole city as his field, it is impossible for him, by the utmost diligence, to gain that exact knowledge of the character and wants of all the families claiming counsel and aid which is necessary; much less could it be expected that he should minister to the wants of all.

The object of the Society is not to interfere or supercede, but to co-operate with all these influences, and, by a systematic division of labor, to render possible that which must otherwise be left undone.

Ladies, you will all receive a call from some one of our committees. We cordially invite you each to become a member of our association; to aid us by imparting to our committee whatever information you possess relative to the situation or deserts of the poor in your immediate neighborhood; by placing at their disposal such articles of clothing, &c. as you may have to bestow; or by communicating to them any word of counsel or encouragement which your past experience may have qualified you to give.

To the poor and suffering we would say, our committees come to you as sisters, ready to sympathize with you in your trials, and to aid you in raising yourselves and families from a life of poverty and its attendant ills, to one of comfort, respectability and virtue.

ONE OF THE SOCIETY.

The officers of the Society are a President, Vice President, Secretary and Treasurer, and forty-two visitors. The city is divided into fourteen districts, and three visitors are assigned to each district.—They will commence operations next week.

BRAZIL.

The Rev. J. C. Fletcher, recently read an interesting paper on "Brazil and the Brazilians," before the New York Historical Society. The following brief abstract of the paper, prepared for the Boston Journal, will interest the reader, as Mr. Fletcher was for years a resident of that country, and speaks from knowledge and observation.

Brazil, he says, possesses wonderful fertility and salubrity, which he attributes to the general elevation of the country and the constant trade winds upon her coasts, which cool the atmosphere and bear treasures of clouds from the ocean, which descend in rains that invigorate vegetation. The country has immense forests, garlanded with graceful wild vines and orchidaceous plants, or bearing the most brilliant flowers upon their own branches. The *Victorea Regia* blooms on the waters of the Amazon affluents, and the graceful palm lifts itself everywhere, imparting to the tropical landscape a very peculiar feature. Brazil, it is well known, is a diamond producing country, although its most prolific yield was in the eighty years preceding 1822—the era of Brazilian independence. In that time, three and a half million pounds sterling were obtained by the sales of the sparkling gem. It is rich, also, in other minerals, and in agricultural products. The single article of coffee, for the fiscal year 1854-5, amounted to more than twenty-five millions of dollars.

The climate is not so hot as in the summer with us, the average heat within the tropic of Capricorn being seventy-two degrees. The poisonous reptiles and the yellow fever have been greatly exaggerated; the latter has now left Brazil. Mr. Fletcher showed that the aborigines were among the finest who inhabited the New World, and proved that the earliest voyagers on the Amazon really believed that they had seen a nation of female warriors; for among the wild tribes found among the upper tributaries of that river to this day, the men wear their hair long, parted in the middle, braided behind, and done up behind with a comb. They pluck out their beard, wear necklaces and bracelets, and with their shields over their breasts they present exactly the appearance of women.

According to Mr. Fletcher, the first Protestant colony in the New World was planted under the auspices of the French Admiral Goligni upon an island in the bay of Rio Janeiro in 1555. The church at Geneva took great interest in the enterprise, but through the treachery of its leader and the victories of the Portuguese it was completely broken up. The Hollanders occupied a portion of the northern coast for thirty years, but were overpowered by the Portuguese. Some of them thereupon came to New York. The growth of Brazil may be dated from 1808, when King John IV., driven from Portugal by the French, took up his abode in this, the greatest colony of his subjects, and opened its ports to the commerce of the world, and introduced other reforms.

The government of Brazil is a constitutional monarchy, and nowhere in the world are religious toleration and the liberty of the individual better secured, unless in our own country. There is an imperial parliament, senators being elected for life, and representatives for four years (by electors.) There are twenty provinces and twenty provincial legislatures. Brazil is free from revolutions, her commerce is constantly increasing, and slavery will be done away with in course of time. She has six lines of steamers connecting with Europe, but none with the United States, although we sell to her five millions of dollars worth annually, and purchase nineteen millions. The Emperor, Don Pedro II., is an enlightened and able monarch, familiar not only with the literature of Europe, but of the United States, and is a man of great science and attainments.

☞ The Boston police found a sea captain on Thursday night in an intoxicated state, and in the hands of thieves. India pockets were *four hundred dollars*. He was taken to a hotel.

☞ Two Irishmen, John Glenn and Patrick Burke, Jr., have been arrested, charged with the murder of Peter Naughton and wife, at Dudley, Mass., on the night of Wednesday, Nov. 5. Glenn, who is supposed to be the principal, is about nineteen years of age, and has been in the country fourteen months. Implicated with Mr. May, in Woodstock, and name, used in the murder, has been identified as the property of his employer. Both the accused are in the county jail for safe keeping.

☞ Rev. "Father Sawyer," of Garland, Me., who was *one hundred and one years old* on the 9th ult., went to the polls, and voted for Fremont and Dayton.

Two men named Edward Vallerly and John Burns, have been convicted at Lowell of an outrageous assault upon Leander Crosby of Billerica, by which Mr. C. was brought almost to death's door, and have been fined $100 and half costs each, with the alternative of a year in the House of Correction. The amount of fines, says the Lowell News, would hardly pay Mr. Crosby's doctor's bill.

FIRES IN NEW HAMPSHIRE.—The dwelling house owned by Mr. Hiram Stevens of West Deering, N. H., and occupied by himself and Solomon Crane, with barn adjacent, was burned on Friday morning.—All the furniture of the house, with the contents of a shoe shop in the barn, were destroyed. No insurance. On Monday morning, the dwelling house, barn and other out buildings of Mr. John Shaw, on Little's Hill in Boscawen, were destroyed by fire, with all their contents. Loss about $2500; insured for $1200, in the Granite Co. at Boscawen.

EARTHQUAKE IN EGYPT.—A steamer arrived at Marseilles on the 25th, brought the intelligence that a severe earthquake has been experienced all over Egypt. At Cairo two hundred houses have been thrown down, and the others for the most part are damaged. 300,000 inhabitants are encamped outside of the towns. Few are wounded. Shocks have also been felt at Smyrna, and in the Archipelago. Rhodes has been devastated.

COMPANY FAILED.—The Robbins and Lawrence Company of Windsor, Vt., has failed for a considerable amount. We learn that attachments have been laid upon the company, but that they are endeavoring to procure an extension in order to go on with their business, they having large contracts on hand, and secure their creditors. A company at Hartford bears the same name, but is a private concern. The two companies employ from 600 to 800 men in the manufacture of rifles, pistols, machinery, etc.—*Saturday Evening Gazette.*

Spirit Rappings.

MRS. W. B. COXE, the celebrated Rapping Medium from New York, will hold a meeting at Rechabite Hall, on Saturday evening, Nov. 15th, on which occasion spirits of the departed will give unmistakable evidence of their ability to rap loud and distinct, and cause to identify themselves to the audience. Skeptics and scoffers who rainly and boastingly stigmatize Spiritualism as a humbug, are requested to detect the fraud and expose it, now they have an opportunity, and those good Christians who attribute the manifestations to the Devil, are invited to come to the rescue, and cast out the demons which are bewitching their fellow men. Manifestations commence at 7 2-1 o'clock. Admission 15 cents.

MR. JOHN F. COLES will lecture at the same place, on Sunday, at the usual hours.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Times, April 30th, 1849.

The following interesting letter has just been received from J. M. Dana, the enterprising traveling agent for Dr. Hayden's Pills, in Vermont and may be depended upon as strictly true:

Montpelier, Vt., April 25, 1849.

In haste, doctor, I enclose you the money for twelve gross. Forward them as soon as you receive this, for I am waiting for them. I send you one of the most valuable certificates I have yet received for your pills. It is from Dr. Dustin, the oldest and most skillful physician in Orleans County. Here it is:

Craftsbury, Vt., April 25, 1849.

I have made use of a few boxes of Dr. Wm. Hayden's Vegetable Purgative Pills, and think them a safe and valuable cathartic for family use. SAMUEL DUSTIN, M. D.

I sold him eighteen boxes, and he cured himself of the Liver Complaint. I also sold to Dr. Bigelow, of Barre, eighteen boxes, and he told me he had cured some old chronic cases with them. You will find the certificate of great value to you. Everybody up here speaks in the highest terms of your pills.

I am yours, as ever,

J. M. DANA.

It is now the standard remedy for all diseases of the hair and skin.—Only 50 cents a vial.

HEALTH AND STRENGTH!!

☞ Dr. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best medicine ever used for Summer Complaint. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has received so many testimonials throughout New England during the past three years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile on my signature upon the other wrapper. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au29 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Partridge, formerly of Kennebunk, Me., discovered that a simple article would cure Consumption, Asthma, and all diseases of the Throat and Lungs. He was an eminent practitioner, and a celebrated physician, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New-England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and have now it carefully prepared strictly according to the original recipe. There is no cure for all such as can, when the patient is past all human aid, before commencing its use! It is called "Doctor Burleigh Smart's Cough Medicine," and is for sale by all apothecaries. 2m77 TuTh&S 6m.

☞ Godey's Lady's Book for December 1856, that punctual and honest Magazine, has been received per mail from the publisher, L. A. Godey, Philadelphia.

It contains a Slipper Pattern,—the National Slipper, besides—a splendid Steel engraving, a Five Figure Fashion Plate, 100 pages of reading, 69 Engravings, and 60 contributions, for 25 cents.

Several reasons for taking Godey's Lady's Book are

First.—Because it contains variety.

Second.—It is original—never copying the ideas of others.

Third.—It gives fine Front steel engravings.

Fourth.—Its Literature is superior, and always of a moral tendency.

Fifth.—Its Fashion plates are always of the latest fashions.

Sixth.—It never deceives, giving as much (and sometimes more) in subsequent Nos. as it does in January.

LOCAL.

☞ The Democratic party of Kittery and Elliot celebrated the election of Buchanan and Breckinridge on Thursday evening by an extensive torch light procession, a salute of 100 guns, and a supper at Amee's Hotel, Kittery Point.—And there is to be a similar display in this city on Wednesday evening next, 19th inst. also in honor of the recent presidential election. At 7 o'clock the Procession will move through Market, Deer, Elm, North, Prospect and Dennett, down North, Vaughan, up Congress, Islington, Anthony, Austin, down State, Pleasant, South, South School, up Water, State, Mulberry and Daniel streets to Market Square.

☞ Rev. Daniel P. Pike will preach at the Hanover street Chapel, to-morrow at the usual hours of service.

We are requested to say that the Chapel will be open this (Saturday) evening for the accommodation of those who wish to procure slips or seats.

☞ We are informed that the Concert of the "Mass" will take place in the New Town Hall in Exeter, on Tuesday evening next, (not on Monday as we have before said)—under the direction of Mr. Wm. F. Lawrence,—and will doubtless be an excellent performance of a splendid musical composition.

☞ On Monday night, house, barn and shed belonging to a Mr. Whittaker of West Hopkinton, N. H., were entirely consumed with all their contents. In the attempt to save his papers, it is supposed that Mr. Whittaker lost his life in the flames. He was about sixty years of age.

FATAL ACCIDENT.—At Bennington, Vt. last week, the wife of Dr. J. W. Ranney, and another lady, were riding down a hill towards a bridge, when their horse became frightened and backed down the embankment fifteen feet, killing Mrs. Ranney instantly, and severely if not mortally wounding Mrs. Calvin, who was with her.

SUFFOCATION.—At Philadelphia, on Monday, a poor woman named Mulcaney, went out to a day's labor and locked her two little girls in her room. They had lucifer matches, which set fire to the bed, and they were suffocated before assistance could reach them.

HERO OF THE WHEELBARROW.—A correspondent of the Boston Transcript gives an account of a person who took a wheelbarrow a thousand miles.

His name was Job Finney, an old, eccentric, homeless, harmless man, who wandered about New England.

"On one occasion he borrowed of a friend in the town of D. a wheelbarrow, intending as we understood it, to go about a mile, and, having accomplished his errand, to return. But Job did not so. Days, weeks, months passed away, but neither the man nor the barrow returned. We do not know whether the owner of the vehicle was largely stocked with patience; if he were, his virtue, during this interval, certainly had a trial. "What had become of Job?" was the query. He had always been considered by those who knew him best, to be an honest man. He had been tried and trusted. Though poor, he was never known, it was said, either to beg or steal. At length, after many, many days, Job and the veritable wheelbarrow appeared. The wheel had, evidently, made many revolutions, for it was nearly worn out. When questioned concerning it, he unconcernedly replied that he had been to *Buffalo*, in New York State, which was at a distance of *more than a thousand miles*, there and back, provided he had taken the direct and shortest route.

☞ The negro hung for the murder of a Mr. Sheridan, in Highland county, made disclosures before his death, implicating the wife and step-daughter of the murdered in the crime. Sheridan was a young Irishman who had married a rich widow, and afterwards becoming disgusting to her and her children on account of his intemperance, they employed the negro to kill him, which he did by tying a rope about his neck while drunk, and twisting it with a stick till his neck was broken. The widow and daughter are arrested.

LATE FROM KANSAS.—Advices from Lawrence of 8th inst., state that 15 of the State prisoners on trial for murder, were acquitted, but immediately rearrested on the charge of robbing the Franklin Post Office. The free-state men are taking measures to contest the seat of Whitfield in Congress, on the ground of illegality of his election. A large quantity of clothing and provisions had arrived at Lawrence, and was being distributed among the destitute.

TREATY BETWEEN THE UNITED STATES AND PERSIA.—The Calcutta Englishman, of July 9th says; "The Correspondent of the London Times announces the conclusion of a treaty between the United States and Persia. It is ostensibly a commercial treaty, but contains three rather suspicious stipulations. These are, that Persia, not being a maritime nation, America will be obliged to keep a squadron in the Persian Gulf "in order to defend Persia against the enterprises of whatever maritime nation may attack her." secondly, that the Americans are to possess the right of having their ships of war in the mouths of the Tigris; thirdly, that they are to have a factory at Karrack."

ASSAULT.—At about noon, to-day, a savage fight took place in Fleet st., near Eagle Tavern. Peter Mallahan, a Republican Irishman, was badly injured, having his arm broken or dislocated, and his head severely cut, by an Irishman of the Buchanan party, who had a fancy for the Bully Brooks code. It is hard that a decent, respectable man, no matter what his birth is, cannot exercise the right of free thought and free speech, without being almost murdered.—*New Haven Palladium 3d.*

PHILADELPHIA, Nov. 12th.—*Pennsylvania.*—The Evening Bulletin says: We think the result in Pennsylvania, when the full returns are in, may be stated in round numbers very nearly as follows—For Buchanan, 231,000; for Union ticket, (Fremont,) 150,000; Fillmore 55,000; Straight Fillmore, 25,000.

This would give Mr. Buchanan a majority of 1000 over all; of 26,000 over the Union ticket; of 81,000 over Fremont, and 151,000 over Fillmore.

It is possible that the official returns will show Mr. Buchanan in a small minority, as compared with the combined opposition.

The grand difficulty seems to have been that the opposition did *not combine*, and therefore the elements defeated each other.

THE CLARYVILLE MYSTERY.—We have noticed the mysterious disappearance of Mr. George Ganet, the morning after his marriage with Miss Eliza St. John. The ceremony was performed at Claryville, Sullivan County, on the 14th ult. On the morning of the 16th, the bridegroom stepped out of the house without attracting any notice or saying anything to excite suspicion, and was not seen or heard from untill the morning of the 23d, when, after five days diligent search, his dead body was found in the woods, about a mile from Col. Bushnell's residence, suspended by his cravat. No reason can be assigned for this singular suicide. The Ponghkeepsie Press says the deceased has borne a character without a stain, and leaves a large circle of warm and personal friends to weep over his tragical end.—*Albany Transcript.*

CAPTAIN AND ALL HANDS.—The schooner Dandy, 40 tons burden, Capt. Currier, arrived at Newburyport, on Tuesday, from York, with a load of wood, having no living soul on board but the captain. Usually he has carried a cook, but as the lad was sick when he left home, he started alone—being captain and cook and all hands—and performing the voyage alone. Who beats that? says the Herald. We don't know what wood pays now; but we should think the Maine man could beat the crowd on clear profits, though he is a presumptuous fellow, and may some day find himself short-handed.

THE ARCTIC EXPLORATION.—The Philadelphia Leger says that the demand for Dr. Kane's Arctic Expioration is greater than for any book ever published in Philadelphia. It mentions that Philips, Sampson & Co. have ordered copies to the amount of $22,000.

BARNES & PARK,
Nov 10. 1m Proprietors, New York.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and delicate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the board well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

Prince & Co.'s
Improved Melodeons.
THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Dect. Hodges, Will Hodges, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:
Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....61
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....130
IN PIANO CASE:
Five octave Melodeon, from F to F.....$100
Six octave Melodeon, " F to F.....130
Five octave, double reed, " F to F.....150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds.....350

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIDGEFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of UTICA, N.Y., writes: "I have used your PECTORAL myself and to my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MASS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTERRY, IA., writes, 24 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the past forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALMON, MONROE Co., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months suffering under the dangerous symptoms of Consumption, from which no aid she could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Wearless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used so be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Dyspepsia, Indigestion, Morbid Inaction of the Bowels and Blood arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

STRIKING SCENE AT A GAMING TABLE.—As a company of fast young men were busy over the card table, a few evenings since, a singular noise attracted their attention. It was of so unusual nature that they immediately began to look about for its cause. It was repeated in another direction. Something more than curiosity was excited, and playing was suspended. Immediately one of the company dropped into what the spiritualists call a trance, and proceeded to utter, as if from a deceased father, a homily against gambling and its associate vices.

This was followed by an admonition purporting to come from a deceased sister of one of the company, couched in such terms and uttered with such sisterly feeling that the whole groupe were irresistibly moved to tears. There was no more card playing that night. None of those persons were believers in spiritual manifestations, and the scene was wholly unexpected to all.—Whether it was indeed spiritual, or is capable of some other solution, is a question. It was told at a religious meeting, Sunday, and we have no doubt that it occurred substantially as we her repeat it.—*Springfield Republican.*

BETTING ON ELECTIONS.—The Cincinnati Commercial says:

"The betting on Kentucky has been very heavy. We know of many instances of bets of extraordinary magnitude having been made on the result of the late election. Lands, negroes, cash, everything that is property in Kentucky, has been staked throughout the State. Hundreds of men are doubtless entirely ruined, and thousands sorely impoverished."

BACKING OUT.—The chivalrous Col. Keitt, it will be remembered, in a speech at Lynchburg, Va., ridiculed the idea that there was any fighting material in Massachusetts, and said that at the battle of Chapultepec, the Massachusetts regiment refused to go into the fight, and had to be guarded by other troops to prevent their plundering the baggage! The Colonel, without knowing it, trod on the toes of his own political friend, who was in command of that regiment. Upon having his attention called to the matter, he backs out of the whole statement—excusing himself for having uttered the slander by saying that he only reported what he had heard.—*N. Y. Times.*

INTERESTING CIRCUMSTANCE.—At the Town Meeting in Meadon on Tuesday last, pursuant to a vote of the town requesting it, Major Johnson Legg, Benjamin Davenport, Esq., and Benjamin Bates, Esq., all of whom voted at the first election of Jefferson in 1800, came forward and cast their votes before the poll was opened to the other voters. It is seldom that the infancy and the maturity of a great nation are connected together by such a powerful association as is suggested by these aged men shaping its destiny to-day, who gave it impulse and direction fifty years ago.—*Milford Journal.*

SUDDEN DEATH.—Tuesday, a silversmith named Jesse Follows, died suddenly in a fit of apoplexy, while at work in the shop of Henry Green, 32 Islington street. He was 42 years of age and unmarried.—*Boston Traveller.*

☞ Hon. Chandler E. Potter, of Manchester, N. H., was married on Tuesday to Miss McNeil of Hillsboro', daughter of the late Gen. John McNeil, and neice of President Pierce.

AN APPALLING FACT.—The Irish census tables just published, report that in one year there were 21,775 deaths from *starvation!* The editor of the Medical Times, commenting upon this appalling statement, says; "The figure must be far short of the truth. The harrowing details given in the body of the report leave no doubt that multitudes perished, by the wayside and in the cheerless Irish hovel, whom no policemen nor coroner's inquests ever took notice of.

☞ The Watertown, Mass., Independent Religious Society, worshipping in the Town Hall, have secured the clerical services of Rev. Theodore Parker, who addresses them every Sunday afternoon.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cans, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 2 lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our Trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one half the quantity of coffee. The price is 25 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of it (which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

DISTRESSING SHIPWRECK.

The Hamburg bark Elise, Capt. Nelson, just arrived at New York from Hamburg, reports that on the 10th inst., she spoke a Bremen Bark, having on board 16 of the passengers and crew of the French steamship Le Lyonnais, which left New York on the 1st inst. for Havre, and was run into by a large ship on the night of the 2d, and abandoned next day in a sinking condition. These 16 persons were picked up in a boat on the 9th inst., two others having died before the Bremen bark came along. Fourteen of the rescued were taken on board the Elise, and have arrived at New York. The others, Mr. Schaler and wife, remained on board the Bremen bark.

Amongst these saved was the 2d mate of the Lyonnais, who states that in the night between the 2d and 3d inst. the steamer was run into and struck so heavily, that in the morning she was in a sinking condition, and the captain decided to abandon her.

The 2d mate, and those with him, left the steamer on the afternoon of the 3d, and were consequently six days in the open boat. The mate says that to the best of his knowledge, the captain and all others on board the Lyonnais left her the next morning.

The Lyonnais had 40 passen on board.

The second mate reports that he stopped by the ship till next m rning, when it commenced blowing, and he believed the captain and all had left the vessel. They had a raft made, and about 40 persons got on it, which be believed went to pieces, and many lives were lost.

On Tuesday the fourth, the second mate lost sight of the other boats which left the vessel. The weather was very foggy.

ACCIDENT—OR CARELESSNESS?—We have already noticed that the house of John Whittaker, of Hopkinton, was destroyed by fire last Monday night, about 11 o'clock.

From the Concord papers we learn that the fire appeared to have taken in the shed connected with the house. Before going to bed, Mr. Whittaker went to the shed with a light, to look after a hen's nest. Mrs. Whittaker discovered fire, which had made strong head-way, gave the alarm to her husband, and escaped from the house with only her night-dress. It is supposed he went out when the alarm was given, but returned for his papers and money, and being suffocated by the smoke, lost his life in the flames of his burning home. The remains of the body were found amid the ruins.

A VETERAN VOTER.—The Syracuse N.Y. Standard says that Gideon Bentley, a survivor of the Revolution, aged one hundred and six years, voted for Fremont and Dayton, at Constantia, N. Y., on the 4th inst. He is the father of thirteen children, the ancestor of six generations, numbering in all two hundred and twenty four souls who descended from him in direct line. He participated in the most important battles of our great struggle for liberty—voted for Washington—has cast a ballot at every Presidential election since.

The Standard says:

"It was an affecting sight to behold that Patriarch of our first Revolution, advancing through the crowd to have his name registered, probably for the last time, upon the poll list of a four years' campaign. For a few moments, as the thoughtless throng realized the truths of the scene, there was a deathlike silence. The half-uttered oaths died upon the lips of the blasphemers—the fiery political wrangler ceased to curse and condemn his fellow-man, and one and all drew back to make room for him who had fought by the side of Washington."

THE RESIDENCE.—On the first page we notice the marriage of Hon. Chandler E. Potter of Manchester, to Miss Frances Maria McNeil, daughter of the late Gen'l John McNeil, at her residence in Hillsborough, on the 11th instant.

Miss McNeil occupies the homestead of her late father, the former residence of Gov. Pierce, and the birth place of the President, one of the most elegant country residences in New England.

We learn that the Col. "stood" up in his Veteran Continentals, attended by several of his staff in full dress, and that everything passed off in the most agreeable manner.

☞ Walker, who attempted the murder of Mr. Hall, the New York drover, is in jail in Northampton, Ms. for want of $3000 bail. He threatens to commit suicide if sent to the State Prison, and has also made an unsuccessful attempt to play the game of insanity.

CHINA.—Dates from China, by the overland Indian mail, are from Hong Kong September 12th, Shanghae September 11th, Canton September 10th.

Letters report a renewal of the adverse movement of the rate of exchange at Shanghae, the rate of quotations having advanced from 7s2d to 7s6d. This, however, was owing to the last mail having brought only a small amount of silver, that of the 3d of July, with £456,437 not yet due. At Canton there had been a favorable turn, the quotations having receded from 5s 0 1-2d. to 4s10d.

The exports of tea to date were 14,590,000lbs., and of silk, 19,000 bales. The season's supply of tea was expected to be very short. Prices of silk, on account of the advices from this side, were $30 per picul higher. The settlements to date had been between 30,000 to 35,000 bales.

The great floods over the country bordering the Canton River, have subsided. Canton imperialists admit that their forces have suitained serious and repeated defeats by the rebels in the adjoining province of Kwang-si, and reinforcements are being sent daily.

The British merchants at Shanghai had petitioned Sir John Bowring to help to abolish the system of foreign inspectorships at the Chinese Custom House there.

The North China Herald of August 16th thus sums up the present position in China: Three points appear to be established by a variety of concurrent testimony—1. That over a region, equal in extent and population to some of the most powerful States of Europe, the people have discarded the Manchu costume, and reverted to that of the Ming dynasty.

DESTRUCTIVE FLOOD IN INDIA.—*Loss of over Four Thousand Lives.*—The Calcutta correspondent of the London Times, under date of Oct. 4, gives the following account of a disastrous freshet in that country:—

"The rains this year have been unusually severe. The downpour in Afghanistan was unprecedented, and in August its effects began to be visible. The torrent of water which at this season rolls down the water system of the Indus gradually increased, then overtopped the banks, and then burst on the plains with a force which swept whole towns from the face of the earth. The cantonment of Naoshera, only half built, was carried away. The great cantonment of Dehra-Gazee Khan was totally ruined, the sun burnt bricks of the building melting in the flood. The bund, or dyke, which defends Lela, burst, and Lela has disappeared. The loss of life has not been in proportion—4000 or 6000 villagers not counting much in India—but the destruction of property has been incalculable.

CALIFORNIA ITEMS.—The Alta California says:

The proclamation of Governor Johnson, declaring San Francisco in a state of insurrection, has not yet been withdrawn.

A fine specimen of California-grown cotton was exhibited at the late Fair.

The Indians of Clinton Valley, Mendocino county, having stolen some cattle, were pursued by a party of whites, and about fifty of their number killed, according to report.

A man named Colebrook was hung by a mob at Angel's Camp, for killing Dr Armstrong, by striking with a knife.

During the night of the 7th inst., a French woman of ill-fame, named Victoire Rotang, was murdered in her bed by some person unknown. The object in committing the deed, it is supposed, was to prevent her from testifying against an Italian charged with attempting the life of a female by throwing vitriol in her face.

Eartin Gallagher, one of the Vigilance Committee exiles, returned from the Sandwich Islands on the 5th inst., in the brig Glencoe. He was disguised, and passed under the assumed name of Wilson Hunt.—The Vigilance Committee are on the lookout after him, but as yet his whereabouts remains unknown.

☞ A precious morceau was brought from California by the George Law, in the form of a letter in *favor of the Pacific Railroad*, written by Mr. James Buchanan before the election, but too late for its contents to be discovered in the Southern States. A very sensible letter indeed, but what will Virginia and South Carolina say?

THE PRICE OF SILK.—Silk has fallen in London three shillings sterling per pound, and this has led to a diminution of orders transmitted to China, and to a diminution of silver exported there, as the silver must always accompany the orders.

FATAL ACCIDENT.—A singular and fatal accident happened in this city at about two o'clock to-day. A son of Mr. Lewis Rowell, joiner, who resides at No. 57 Wells street, while descending the back steps of his father's house, fell violently to the ground and broke his neck. His skull was also fractured. He struck upon a flagging stone; but the distance which he fell, (less than five feet) would hardly seem adequate to produce such a result.

He was just starting for school and had his books under his arm, but stopped for a moment to play with his sister who stood at the door, and turning suddenly he tripped (it is supposed) and fell to the ground. Life was not quite extinct when he was taken up. He was 15 years old.—*Hartford Times.*

CUBA.—Eighty-six Peruvian lamas recently arrived at Havana, having been imported from the Peruvian territory by a French naturalist. He will receive a handsome reward for his enterprise.

BUFFALO, Nov. 14.—John Whitney, an old and respectable citizen of Londonsville, Ohio, was knocked down and robbed of $50 on Tuesday night, within 50 yards of his own house. His skull was fractured by a blow, but he was able to reach his house, where he shortly died. No clue has been obtained of the murderer.

The Post-office at Delaware, Ohio, was robbed on Monday night of all the letters it contained, and afterwards set on fire, but the flames were discovered in season to extinguish them without much damage being done.

The Express, to-day, publishes the protest of two deck hands, who were on board the propeller Toledo when she was lost. Their statement does not differ materially with the accounts already published. There were on board the vessel 43 persons, including five cabin and twelve steerage passengers.

The steamer Lady Elgin, reported lost, arrived at Chicago on Sunday.

DETROIT, 14th.—It is now ascertained that the steamer Superior is lost. She struck on a rock in Lake Superior, during the storm of the 29th, and went to pieces. 39 lives were lost, and 16 saved.

A BOY SHOT TO THE HEART AND INSTANTLY KILLED.—A most painful affair occurred this morning at about 7 o'clock, on Buck lane, below Passyunk road, which resulted in the death of a boy aged 11 years. The facts of the case, as they have reached us, are as follows: Charles Lutz and Irwin Lutz, cousins, both of the same age, found one of Allen's revolving pistols lying on the road, having evidently been dropped from some wagon, and not knowing the nature of such an instrument, proceeded to the barn of the father of the former, where they commenced an examination of the pistol. Unfortunately, it was not only loaded but capped, and in handling the weapon one of the barrels was discharged, the ball or slug from which penetrated the heart of Charles Lutz, causing instant death.—*Philadelphia Jour.*

RAILROAD ACCIDENT.—As the afternoon train was coming from Manchester to Lawrence on the 13th, an ox ran into the train behind the tender, about six miles from Manchester, and the first passenger car was thrown partially off the track and the other one entirely off. The cars contained one hundred passengers, who all escaped without the slighest injury. The running gear of the cars was demolished, sleepers were cut in twain, and rails twisted out of joint. The danger was imminent, as the train was very near an embankment 27 feet high, when the accident occurred.

The horses and carriages of Huntington, the forger, were sold at auction in New York on Wednesday. A great crowd was present. A pair of long-tailed bay mares, which cost $4000, and are considered the finest in New York, were bought by French, of French's Hotel, for $1400. Another pair brought $550.

A sporting fast man, a swindler with a bogus capital and two pair of horses, goes up like a rocket,—and now falls down like a stick, into the State Prison.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Times, April 30th, 1849.

The following interesting letter has just been received from J. M. Dana, the enterprising travelling agent for Dr. Hayden's Pills, in Vermont and may be depended upon as strictly true:

Montpelier, Vt., April 25, 1849.

In haste, doctor, I enclose you the money for twelve gross. Forward them as soon as you receive this, for I am waiting for them. I send you one of the most valuable certificates I have yet received for your pills. It is from Dr. Dustin, the oldest and most skilful physician in Orleans County. Here it is:

Craftsbury, Vt., April 25, 1849.

I have made use of a few boxes of Dr. Wm. Hayden's Vegetable Purgative Pills, and think them a safe and valuable cathartic for family use. SAMUEL DUSTIN, M. D.

I sold him eighteen boxes, and he cured himself of the Liver Complaint. I also sold to Dr. Bigelow, of Barre, eighteen boxes, and he told me he had cured some old chronic cases with them. You will find the certificate of great value to you. Everybody up here speaks in the highest terms of your pills.

I am yours, as ever,

J. M. DANA.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all hope when sid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuT&hS 6m.

LOCAL.

FIRE.—On Saturday evening, at eight o'clock, a fire broke out in the old building on Parker street, formerly occupied by Capt. Lefavor as a wool store, but latterly as a deposit for new cotton waste by the Portsmouth Steam Factory. The building and its contents were destroyed in half an hour or so, and the nearest house and the Ice House were severely scorched. But the roofs of the buildings were all covered with snow and no further damage was done.

The building destroyed was first built for a cabinet making shop and store, opposite the North Mill, on piles, in the Mill Creek; and has been removed twice.

The building was owned by the Factory Company. Loss $300. Uninsured.

For the Chronicle.

POST OFFICE BUILDING.

Messrs. Editors: — Various opinions have been expressed relative to locating the new Custom House, Post Office and United States Court Room. Most of the citizens were in favor of the lot on Market Square. Since the Market lot could not be had without paying an exhorbitant price, the government have so far met the wishes of the public by selecting the next best lot; and was the ground as high, the lot covered by Rockingham Bank, the Piscataqua House and Mr. Cotton's store would be preferable to the site of the Brick Market. A building on the above lot will be open to public view far more than on the Market lot. It will be in full view in coming up Market street, from Market Square, from the whole of State street, and most of Pleasant street.

Whether the City Government have acted wisely or not, by holding the Market so far above its value, we leave the people to judge. N.

We do not think the Market lot, and other land required to make out the needful room, are by any means too dear. But we do think the other lot named, is offered remarkably cheap—considerably less than its real value. The buildings thereon would cost to erect them as much as the price set for them—and the land is surely worth something.

PORTSMOUTH ALMANAC.—Mr. Fuller of the Gazette, has just issued this annual for 1857. The mathematical calculations are by A. M. Hoyt, Esq., of this city. The Almanac contains much valuable information respecting meetings, officers and institutions in Rockingham County, and should find a place in every family.

☞ Two of our experienced and eminently qualified teachers, Messrs. A. M. Hoyt and J. P. Payson, advertise an evening school,—kept at the Temple,—a fine opportunity for education, to those who wish to avail themselves of such instruction.

☞ It is said that Rev. S. C. Bartlett, of the Franklin st., Congregational Church in Manchester, has received a call from the New England Church in Chicago, to become its Pastor. Its first Pastor, Henry M. Dexter, was called to the Pine Street Church, Boston; its second, Henry Steele Clark, was called to a church in Philadelphia; and now its third one has a call to go to Chicago. These three calls have been made in six years.

PROBABLE VISIT OF MR. FREMONT TO BOSTON.—A private telegraphic despatch was received in Boston on Friday morning from New York, which states that Hon. John C. Fremont has been waited upon by the President of the Mercantile Library Association of Boston, and will, unless some unforseen circumstances shall arise, be present at the anniversary celebration of that institution, on Wednesday evening next. The address on the occasion will be delivered in the Tremont Temple by the Hon. N. P. Banks, Jr., Speaker of the United States House of Representatives. — Col. Fremont has also been invited to deliver one of the lectures of the course, and it is stated that he will accept.

☞ Thanksgiving in Rhode Island is appointed for Nov. 27th, which is the same day the anniversary will be observed in Massachusetts and New Hampshire.

ARRIVAL OF POTATOES.—Three vessels from Nova Scotia, which arrived at Boston Tuesday, brought 8200 bushels of potatoes.

☞ John Kelly of Shelburne, N. Y., killed his brother with an axe, in a dispute between the deceased and the prisoner's wife. On entering the jail, Kelly found one of his sons, 12 years of age, confined there on a charge of burglary and theft.

ACCIDENT IN WALPOLE, N. H.—On the forenoon of the 1st instant, Thomas G. Wells, Esq., of Walpole, N. H., was thrown from his carriage in consequence of his horse becoming unmanageable, by which his arm was broken and he was otherwise injured. His arm was favorably set and it is hoped that he will not long be confined by his injuries.

Mr. Wells served an apprenticeship at the printing business with Isaac Hill, in the New Hampshire Patriot office, at Concord, N. H. Subsequently he went to sea, and once narrowly escaped with his life from a burning vessel, in a boat, on one of the West India Islands. He again had a narrow escape, at the first great fire in San Francisco, Cal., where he did an extensive banking business. He was shut up for several hours in his office, of which the iron doors had been so expanded by the heat that he could not escape, and nearly roasted alive. He was horribly burned, and rendered almost blind and helpless by this misfortune. Mr. Wells has had an unfortunate life, truly.—*Worcester Bay State.*

THE BALTIMORE RIOTERS.—Orders have been given to the Baltimore police to arrest every person, without distinction of party, known to have been engaged in the recent election riots. A large number have already been arrested. The Patriot of Saturday says:

It will, probably, never be known how many were killed and wounded in the late riot, but now and then a case comes to light. We heard this morning of an Irishman belonging to Texas, Baltimore county, who loaded and fired a musket from Bel Air Market, taking deliberate aim from off a butcher's block. Having succeeded in shooting a boy, he got on the block again and gave a cheer, which was of short duration, for the next instant he fell dead, and was borne by three of his friends, towards the upper end of the market.

AMERICAN COIN.—An order has been issued in Havana, prohibiting the reception of American coin in official proceedings, and declaring that, in future, it shall not be a legal tender. The reason assigned in the order is that the circulation of foreign coin is a sign of foreign sovereignty.

This is a droll reason for the step. Nevertheless we don't object to the step, as we would gladly bid farewell to all the old Spanish changes we have among us.

The British steamer Magicienne has returned from a cruise to Sebastopol. She found the city as the Allies left it, with no trace of clearing away the ruins. The Russians have just begun repairing the fortifications of Anapa, but had not re-occupied Sujet Kaleh.

Jules Gerard, the lion-killer, has been robbed of seventy thousand francs, confided to him by a friend to buy land in Algeria.

DEATHS ON SHIPBOARD.—The Hamburg ship Howard, from Hamburg, with 210 passengers, arrived at New York, reports 26 deaths on board during the passage.

☞ An American bark landed a cargo of 600 slaves at a port near Cardenas about the 1st of November.

The oldest church in Philadelphia is the Gloria Dei, which was erected in 1700 on the same site as its predecessor, which was built of logs, and served the double purpose of a place of worship and a defence against the Indians. Christ Church is where Washington and Franklin worshipped. It was also at first a log building. The present edifice was finished in 1753. Its chime of eight bells was brought by Capt. Budden from England, free of freight, and in compliment to him, rang out a joyous peal on his arrival. Queen Anne presented part of the communion service in 1708.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men,
and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very res'ly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

THE QUEEN'S ENGLISH.

FROM "HOOD'S UNPUBLISHED POEMS."

A *sea* horse is a *sea* horse,
When you *see* him in the *sea*,
But when you see him in the *bay*,
A *bay* horse then is he.

Of *course* a race horse isn't *coarse*,
A *fine* is far from *fine*;
It is a saddening sight to see
A noble *pine-tree pine*.

If *miners* are all *minors*, then
Their guardians get their gains.
All glaziers extra *pains* should take
To pull in extra *panes*.

A bat about a farmer's room,
Not long ago I knew
To *fly*. He caught a *fly*, and then
Flew up the chimney *flue*.

But such a *scene* was never *seen*—
I am quite sure of that—
As when with sticks all hands essayed
To hit the *bat* a *bat*.

"How do you?" said Sal to John,
"*So so*," replied he.
"How do you do?" said John to Sal,
"Sometimes *sew-sew*," said she.

A kitchen-*maid* is often *made*
To burn her face or broil it;
A lady will do little else,
Than *toil-it* at her *toilet*.

'Tis *punishment* for me to *pun*;
'Tis trifling void of worth,
So let it pass unnoticed,
Like the *dew* that's *due* to earth.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and execution. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than those for use in manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and these are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I M SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are John W. Ver. Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as the book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may convey its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of generous enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers,

THE DRINKING CLUB.—Solomon says—"look not thou upon the wine when it is red, when it giveth his color in the cup, when it moveth itself aright." This is very strange, says the wine bibber,—why not? Solomon answers, and gives this reason: "At the last it biteth like a serpent, and stingeth like an adder."

Some of the moderns—wiser in their own eyes than Solomon, wiser in their own conceit than seven men that can render a reason,—have given large praise to the virtues of good wine, and formed themselves into drinking clubs to show their faith by their works.

The Liverpool Albion gives the following account of the "End" of one of these Drinking Clubs:

"A noted drinking-club, in a large town in the west of Scotland, which had formerly great influence at the local elections, is broken up. Two of its members were sent to a lunatic asylum; one jumped from a window and killed himself; one walked or fell into the water at night, and was drowned; one was found dead in a public house; one died of delirium tremens; upwards of ten became bankrupt; four died as they had lived half their days. One who was a baillie when connected with the club, is at present keeping a low public house. Such are a few facts well-known to those living in the locality."

Does any reader say, Go thou and do likewise! We trow not. Yet not a few *do it.*

EMERSON ON SELF WILLED PEOPLE.—An intractable person, according to Emerson, is a continual thorn to any household.—Such persons are so constantly aggressive in speech and action, that the remaining members of the family find themselves on the defensive on all occasions. A moderate amount of peace and quietness can only be preserved in homes afflicted in this way, by most of the occupants frequently changing their positions, balancing themselves and the precious freight of harmony and good will, much after the fashion of a company of passengers in some frail canoe, who are obliged to veer from side to side to prevent the danger of an overset.

SELL.—A shrewd countryman was in New York the other day, gawky, uncouth, and innocent enough in appearance, but in reality with his eye teeth cut. Passing up Chatham street, through the Jews' quarter, he was continually encountered with importunities to buy. From almost every store some one rushed out, in accordance with the annoying custom of the street, to seize upon and try to force him to purchase. At last one dirty-looking fellow caught him by the arm, and clamorously urged him to become a customer.

"Have you got any shirts?" inquired the countryman, with a very innocent look.

"A splendid assortment, sir. Step in, sir. Every price, sir, and every style. The cheapest in the street, sir."

"Are they clean?"

"To be sure, sir. Step in sir."

"Then," resumed the countryman with perfect gravity, "put one on, for you need it."

A LARGE BOY.—A rather ludicrous incident occurred yesterday before Alderman Enos. An elderly farmer from Kent county appeared against his son, whom he charges with running away from him. Officer Godwin made the arrest of the youth, who is 6 feet 2 inches in height and weighs over two hundred pounds. The officer said to the alderman, "Here is a boy that has run away from his father, sir." The Alderman looked around for the boy, and his risibilities were excited when the officer pointed out the youthly giant. The father says the innocent is nineteen years of age, and in his opinion too young to travel on his own hook. The Alderman ordered the child into the custody of his papa, and officer Godwin escorted them to the cars.—*Philadelphia Enquirer, 7th.*

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	.90
5 lb. Y. Hyson "	2.25	5 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

TUESDAY, NOVEMBER 18, 1856.

OUR OWN STATE.—While we have abundant cause of satisfaction at the general result of the recent Presidential contest, (says the Concord N. H. Standard,) we regret to be compelled to record the fact that the Granite State still remains in the hands of the enemy. We certainly expected a different issue to the canvass in this State. Our democratic friends were active in every section of the State, and confident of victory. And, on ordinary occasions, they would have been victorious. But our opponents were equally active, and succeeded by some means or other, in getting out a larger vote than was ever polled at any previous election. * * *

But, apart from the unprecedented vote given to the candidate of the opposition, we think we can perceive causes which operated greatly to the prejudice of the Democratic Party, and which might have been avoided and removed. The results of the late election in this State, furnish abundant food for reflection for the Democratic Party. The masses of that noble party, will begin to wonder how it happens, that, in each contest with the enemy, their party really becomes weaker. And we think they will begin soon to look about for the true solution of this state of things, and also for the remedy. We shall, in due time, venture some reflections upon the causes of our late defeat, and shall suggest the remedy. And we shall do it without fear or favor. It is sufficient now to say, that the Democracy have but little hope of recovering their lost ascendency in this State, until they demand and enforce a thorough and radical reform in their party organization and management.

The Democratic Standard, from which the above extract is made, is the paper set up in Concord, N. H. some months ago, with the assumption of idea that the N.H. Patriot's democracy was not sufficiently pure to suit some fastidious democrats, possibly Mr. Edmund Burke. It was said indeed, that he was to be the editor, and afterwards that he was the editor. The paper itself denied the latter statement. Nevertheless, the idea that Mr. Burke has some finger in the pie, is what gives the paper its currency.

The reader will carefully read and mark the last sentence, about the needful *radical reform* in the democratic party's organization and management.

What exactly Mr. Burke proposes to do by way of purification, we do not know: perhaps it may be intended to take away the government advertising from the Patriot and give it to the Democratic Standard. —Mr. Burke used to be a co-worker with Mr. Franklin Pierce in the business of political engineering in New-Hampshire,—and was, like his partner, a master of his trade.

A NEW TERRITORY.—The inhabitants of the Gadsden purchase in New Mexico, have elected a delegate to Congress, Mr. R. P. Cook, who will present a petition for the separation of the Gadsden purchase from the northern part of New Mexico, and the erection of an independent territorial government. The Gadsden purchase, or Arrizonia, as the residents sometimes style it, contains a total population of perhaps a thousand persons, of whom one half are Indians, and a third Mexicans of a very low class. The rest are Americans and Germans. The principal village is Tucson (Tooksonc), which aspires to be the capital of the new State. There is a fort in the vicinity of the place, with a small garrison of United States troops.

This region, which is said to be separated from the rest of New Mexico by mountains and deserts, is said to be rich in minerals, of which the copper is already beginning to be worked.

☞ It appears that the vessel that came into collision with the French steamer Lyonnais, was the barque Adriatic, from Belfast, Me., bound for Savannah and thence for Marseilles. Those on board the Adriatic say that they had no idea that the steamer was damaged materially, as she went on her way apparently uninjured.—The Adriatic now lies at Gloucester, Mass., whither she put back for repairs, her bowsprit and cutwater having been carried away. It was the captain's duty, however, to ascertain whether the steamer wanted help or not.

A seaman of the barque says, Capt. Durham and second mate were on deck at the time and saw the steamer's lights twenty minutes before the collision. If this be so, there was no need of any collision at all, and no excuse for it.

The whole number of persons on board the Lyonnais was 132; of whom 10 were rescued and arrived at New York.

☞ Frank Leslie's New York Journal of Romance and General Literature for November, contains a good variety of matter, and an extra number of cuts, some of them quite amusing and interesting.

SUFFERING IN ENGLAND.

An unfortunate woman, who had been a governess in a high family, was recently picked up in the streets of London in a state of exhaustion. She had eaten nothing for two days, and had no home. The police took her to a hospital, but the hospital authorities, after considertion, decided that she had no right there, and without offering the poor creature any nourishment they sent her to the workhouse, where she was regaled with the common soup of the institution, in swallowing which she died. The coroner's jury stated the facts, and the case ended there.

In the Marylebone work-house, a poor woman was most dreadfully beaten by order of the master, for some infraction of the rules of the establishment. The case was laid before the higher authorities; the master resigned in consequence thereof, but it was understood that he was an economical man, and notwithstanding the objurgation of the Poor Law Commissioners, who reprobated his conduct severely, the directors refused to receive his resignation, and thus sanctioned his doings.

A poor girl was found by her mistress to have suffered a miscarriage. The creature was put into a common cart, and died on her passage away. A jury decided that the mistress was "cruel." These are notes takes from the London papers, representing judicial proceedings of half a week.

The Boston Courier in copying the above, remarks:—

And yet the same papers are loaded with grief at the state of crime in the United States growing out of slavery.—Our good friends, the British, have always a great many tears to shed over the sufferings of the slaves in America, but they are very callous and hard-hearted against all unfortunate cases at home.

Tyranny, oppression, heartlessness, and unjust and wicked statutes, are exactly as odious on this side of the Great Pond as on the other.

American Slavery is not any better, because English men and women starve and suffer—nor on the other hand is an English work-house any the better or worse, because in America women and children are sold at auction.

It does not matter much as to the color of the slave—but the color of slavery is always dark and dingy.

There are dirty spots on the fair faces of both the nations,—"and these are of them."

BY THE PEOPLE.—We are decidedly in favor of the changes made in Maine and Massachusetts, whereby the people now choose many officers who were formerly appointed by the Governors.

We are also in favor of carrying the same a step farther, viz. to have Post Masters, Custom House officers, &c., chosen by the people of the towns, cities, collection districts, or ports, which they severally serve.

Will not some active men put petitions for a reform of this kind into circulation, and let Congress put such a change into effect.

☞ Among the various periodicals, we have just received an Annual, viz. The Artificial Leg Reporter, for the year 1857. —This is edited by B. Frank Palmer, the inventor and maker of the legs, and by G. Hudson, M. D. It is illustrated with cuts of hard cases, and filled with certificates of good legs—one of which by a lady, we know to be true.—Mr. Palmer made a great invention, and is now making a fortune by it.

LONG WINDED.—A foreign journal states that Rogell, trumpet-major and band master of the Artillery of the Guard, was to celebrate at Berlin his fiftieth year of continual service in trumpeting; and this too *with uninjured lungs*. In honor of the occasion there was to be a monster concert by an orchestra playing upon 490 instruments —most of them brass. This Rogell blew the retreat at Jena, and the advance at Leipsic and Waterloo. Whatever else may be said of the musical veteran, it is certainly true that he has "blown his own trumpet" longer and with more safety, success and renown, than most men who perform a similar operation.

The Athens (Ga.) Advertiser gives the following obituary notice of a deceased citizen of that county: "He was the father of eleven sons—five of the sons having married five sisters. He had also one hundred and eighty-nine great grand children; and at his funeral two weeks ago last Sabbath, two horses were stung to death by bees, and another came near losing his life by the same!"

NEW YORK, Nov. 16.—*The Lyonnais.*—The steamer Marion, sailed to-day in search of the Lyonnais and passengers.

POLITICAL.—The New York Herald publishes a startling and incredible despatch from Richmond, Va., the substance of which is that some of the extreme disunionists of the South have developed a plan for the control of Buchanan or the destruction of the government. They propose "to bring Mr. Buchanan by letter up to the mark of the Southern nullifiers, or to compass his defeat by giving a sufficient number of the Democratic electoral votes to throw the election into the House. The nullifiers are afraid of the Northern Democrats elected to the next Congress in behalf of Kansas as a free State; and from recent disclosures from Lancaster, they also have their fears of Mr. Buchanan himself. Hence this desperate plan of bringing Mr. Buchanan to the mark, or of defeating his election. The conspirators do not expect any satisfactory answer from Mr. Buchanan—they do not desire it.—Their object is disunion and the despoils of a Southern confederacy."

The Lancaster (Pa.) Express, printed in the immediate neighborhood o Mr. Buchanan, has taken the business of forming a cabinet for him out of the hands of the New York journals and their Washington gossips, and has information from "the most reliable sources, that Mr. Buchanan is determined to give his administration such a shape as will, in his judgement, be best calculated to bring out the liberal and conservative sentiment of the people, North and South. Before the election he expressed it as his earnest conviction that Kansas should come into the Union as a free State, and he still adheres to that opinion. To make good this prediction, and to fulfil assurances repeatedly made to his friends here, he will necessarily have to avoid all extremes both in the selection of his cabinet and in the policy of his administration. After looking over the whole ground, with the light now before us, we come to the conclusion that the new cabinet will stand something like this:

Lewis Cass, of Michigan, Secretary of State.

R. M. T. Hunter, of Virginia, Secretary of the Treasury.

John Appleton, of Maine, Secretary of the Interior.

Howell Cobb, of Georgia, Secretary of the Navy.

James A. Bayard, of Delaware, Secretary of War.

Jesse D. Bright, of Indiana, Postmaster General.

Josiah Randall, of Pennsylvania, Attorney General."

☞ The man who has a perfect horror of politics has retired to the rural districts for the next five months, and has given strict orders that no newspaper shall be brought within three miles of him.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Times, April 30th, 1849.

The following interesting letter has just been received from J. M. Dana, the enterprising travelling agent for Dr. Hayden's Pills, in Vermont and may be depended upon as strictly true:

Montpelier, Vt., April 25, 1849.

In haste, doctor, I enclose you the money for twelve gross. Forward them as soon as you receive this, for I am waiting for them. I send you one of the most valuable certificates I have yet received for your pills. It is from Dr Dustin, the oldest and most skilful physician in Orleans County. Here it is:

Craftsbury, Vt., April 25, 1849.

I have made use of a few boxes of Dr Wm. Hayden's Vegetable Purgative Pills, and think them a safe and valuable cathartic for family use. SAMUEL DUSTIN, M D.

I sold him eighteen boxes, and he cured himself of the Liver Complaint. I also sold to Dr. Bigelow, of Barre, eleven boxes, and he told me he had cured some old chronic cases with them. You will find the certificate of great value to you. Everybody up here speaks in the highest terms of your pills.

I am yours, as ever,

J. M. DANA.

WOOD'S HAIR RESTORATIVE.

☞ We advise those of our friends in a state of single blessedness, who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—[Ohio Statesman.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is call'd "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuT&hS 6m.

LOCAL.

MECHANICS' LYCEUM.—It will be seen by their advertisement, that Wendell Phillips, Esq., one of the most eloquent, beautiful and popular speakers in the country, will appear this evening.

Also, that Hon. Thos. H. Benton will lecture before this Lyceum, on Friday evening of next week.

THE LYCEUMS.—It seems likely that we are to be honored with a visit from the husband of Jessie, as well as her father! for while the Mechanics' Association announce the Hon. Thos. H. Benton to appear during their course, the Mercantile Library Association have invited Col. John C. Fremont to lecture before them sometime during the winter: and a conference is appointed for Wednesday evening, between a member of the Mercantile Committee and the distinguished gentleman, in Boston—with a view to a completion of pending negociations.

FIRES.—Our Fire Department certainly did great service, and won much praise, in subduing the fire near the Factory, on Saturday evening. Water was scarce—as indeed it always is in that vicinity. The tide was out—and the Pond in that region is but a mud hole, at best. A good reliable tide-reservoir might and should be constructed near the P. & C. Depot, at small expense.

Water was brought by two engines, from the Pond between Conn's wood-yard and the Factory; and by two others, from the Pond between the railroads, near Deer street. But it was dreadful muddy work and we pitied the poor "stewards."

INCENDIARISM.—Though there was some talk of spontaneous combustion as the cause of the fire on Saturday night, it was, without doubt, the work of an incendiary.

An attempt was also made to fire shingles in the lumber yard of Messrs. Wendell & Call, on Friday night, which was fortunately discovered in season to frustrate the attempt.

LAGER BIER.—This famous German beverage, which is fast becoming an American beverage also, is severely condemned by the Scalpel, a New York Medical Journal, on account of its physical effects, as sleepiness of the eye, a dull, heavy countenance, &c. &c.

AGRICULTURAL PRODUCE OF CALIFORNIA. The San Francisco papers of the 18th Oct., give the following receipts from the interior, brought to that market during the two weeks just passed: 22,000 sacks of Wheat, 32,000 do Barley, 10,000 do Oats, 15,000 do Potatoes, 3000 do Beans, 2000 do Onions, 1000 do Bran, 600 half do Flour, and 1500 tons hay.

POST OFFICE REFORM.—Postmaster Fowler of New York urges the entire abandonment of the present system of box delivery, and the substitution of the universal delivery of letters at the dwelling house and counting room of parties to whom they are addressed, after the plan adopted in Paris and London.

☞ A wag in the New York Evening Post likens the labors of Choate and Hillard, when keeping guard over the Union, to those of Owen Whim's officers, as related by Rabelais, two of whom kept watch on a tower, to guard the moon from the wolves.

ELECTORAL VOTES OF NEW ENGLAND.—New England gave her entire vote to Washington, and now gives it to Fremont. No presidential candidate intervening shares with them the honor.—*Springfield Republican.*

The above paragraph is traveling round the country, and excites comments in some journals, and has called forth replies in others. No paper that we have seen has denied the truth of the statement, and yet the Republican is greatly in error. In 1796 and again in 1800 John Adams had the entire electoral vote of the New England States; John Quincy Adams had all the electoral votes of New England for the Presidency in 1824, making three times since Washington's day when the New England States were united on a Presidential candidate.

In 1820 James Monroe had all the New England votes for President except the one cast by Ex-Gov. Plummer of New Hampshire, who voted for John Quincy Adams, and thus prevented the unanimous re-election of Munroe. In 1828 John Quincy Adams had all the electoral votes of New England but one, which was cast by a Maine Elector for Andrew Jackson.—*Boston Transcript.*

Chinese sugar cane is coming in use in the South. Some few specimens have been raised near Savannah, and it is a pity that in this season of scarcity of sugar, it could not have been cultivated there. The cost of making a gallon of syrup in Georgia will not exceed 15 cents, and it is thought that soon it will be made into sugar for export.

FROM NICARAGUA.

NEW YORK, Nov. 16.

Steamer Texas arrived this morning from San Juan, via Key West.

The Texas brings 300 passengers, and $127,000 in specie.

The Texas brings Grenada dates of the 1st inst. Matters in Nicaragua had been quiet since the battle of Massaya. Walker was awaiting the arrival of recruits before marching again upon Massaya.

Gen. Heningsen, who superseded Goicouria, was drilling the army in the use of the mountain howitzer and Minnie rifle.

The whole army amounts to two thousand men; all in good spirits and eager for an engagement with the enemy. The decisive battle it was thought would be fought about the 8th or 10th of November.

The steamer Virginia arrived at Granada 30th, from Bulualdo, with a full cargo of cattle; corn and rice. Matters in that department were quiet. Advices from the mines were favorable. Another rich silver vein has been opened, and extensive copper mines have been found in the vicinity of Boacs.

WASHINGTON, Nov. 16.—At a Meeting of the Washington Republican Association last night, resolutions were unaimously passed in favor of the continuance of their organization on the principles of their old platform, and those of the Philadelphia Republican Convention. A committee was appointed to draft an address and resolutions congratulatory to the friends of freedom and Fremont, and urged upon them the importance of keeping up their local organizations.

Remarks were made laudatory of Col. Fremont, and expressive of gratification at his success in the free states, but the Association deemed it injudicious at this time to make any Presidential nomination for 1860. It appears by the Secretary's report, that the Association published and circulated about 4,000,000 of documents during the campaign. There were 80 different kinds of pamphlets; among them 100,000 of Mr. Blair's letter, about 300,000 of Senator Seward's, 218,000 of Senator Sumner's, 143,000 of Senator Wilson's, 136.000 of Mr. Colfax's speeches, together with 165,000 of the Kansas Investigating Committee's Report.

WASHINGTON, 16th.—The President has caused to be submitted to the Government of New Grenada a formal proposition for the cession to the United States of municipal control over the Panama Railroad route, the cities of Aspinwall and Panama, and a strip of the territory through which the road runs sufficiently wide to insure the protection of the route from further violence.

SAD ACCIDENT.—While the Democratic party were firing a salute in Westerly yesterday, the cannon not being properly swabbed out, the cartridge took fire, blowing off the right hand and the thumb and several fingers of the left hand of one of the men engaged in the firing, and lacerating the flesh of both arms very badly. His eyes, it is thought, will be saved, though he is totally blind now. They had fired one hundred guns for Buchanan, and were firing eight for Fillmore when the accident occured.—*Providence Journal, 15th.*

WOOD AND COAL.—Coal, as is generally known, is the produce of buried trees. A traveler underground has calculated that an acre of coal 3 feet thick is equal to the produce of 1940 acres of forest! The first coal mines were worked in Belgium in 1168, and very soon after in England. There is now raised five times as much coal in Great Britain as in any other country; and it is now estimated that there is in these isles more than 4000 square miles of coal fields yet to cut out.

A THIRSTY PEOPLE.—A friend just from Montreal says that twenty-five thousand bottles of Champagne were destroyed in that city in three days. Mr. Gough should take a tour up that way.—*Eastern Argus.*

BARNES & PARK,
Nov 10. 1m Proprietors, New York.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and delicate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these Instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new Improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60

DANCING.—The dancing season of the year has commenced, and for the benefit of those who have not time to learn of a master, and at every ball we notice some who have never learned the graceful art, we give the following:

"Get a pair of dress-boots, high heels are the best
And a partner; then stand with six more in a ring;
Skip thrice to the right, take two stamps and a rest,
Hop thrice to the left, give a kick and a fling;
Be careful in stamping some neighbor don't rue it,
Though people with corns had better not do it.

Your partner you now circumnavigate; that
Is, dance all the way round her, unless she's too fat;
Make a very long stride, then two hops for possession;
Lastly, back to your place, if you can, you must get.
A general melee here always ensues,
Begun by the loss of a few ladies' shoes;
A faint and a scream—'Oh, dear, I shall fall!'
'How stupid you are!'—'We are all wrong!' and that's all."

ONE GOOD BLOW.—It will be recollected that we have stated that John Butler, a colored man, came all the way from California, to vote for Fremont. A friend meeting Mr. Butler a day or two after the election, said to him—"Well, John, your vote didn't secure the election of Fremont." "No" replied Butler, "but I had the satisfaction of giving the monster (slavery) one good blow," at the same time putting himself in a striking attitude.—*New Bedford Standard.*

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into the careful hands that when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,
Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect finished as a Book for the American People.

Every Public Institution of our country, every family—every citizen should possess such a National Work, that he may convert its instructive records, and kindle his patriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fond enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail, postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers

SERIOUS BALLOON ASCENSION.—The party that ascended with Mr. Goddard on Tuesday afternoon, came down in front of the mansion of Mr. C. H. Fisher, above Germantown, where several capital ascensions were made, after which the party were handsomely entertained by Mr. Fisher and lady. When the balloon was near Germantown, it was low enough for those in the car to speak to persons along the road. One of the party put his head over the basket and gave three cheers for Buchanan, but when he had drawn his head in again it was noticed the gentleman's face had sunken in very much, and that he looked ten years older. The party were at a loss to understand how so great a change could have taken place.—Some were about attributing it to fright, when the unfortunate gentleman informed them that while hurraing, his teeth had fallen out. The balloon being about 7,000 feet in the air, it was thought best to leave them on the ground.—*Philadelphia Leger, 7th.*

SUCCESS IN LIFE.—We are all inclined to pursue too keenly, and value too highly, what is called success in life, which means a good estate, distinguished social position, power, influence and consideration. All the elements that mould the growing mind tend to strengthen this passion. Open the common biographies which are written for our children, and what do you find set down in them? This man, when he was a boy, was docile, diligent and frugal; he studied hard; he was never naughty, and never idle; he made friends; he acquired knowledge; he laid up all the money he earned. And what was the result? He became prosperous and powerful and rich; he held high offices and enjoyed great honors, and was esteemed and exalted. If you do the same, you will be what he was, and gain what he gained. This is but another for a of appealing to the love of excelling, rather than the love of *excellence*—that inferior motive, which, though it may sicken the faculties, dims the beauty of the soul. —*George Hillard.*

COURT OF COMMON PLEAS.—The cases of Peter Ginsardi and Robert Ward are worthy of a more extended notice than we gave them yesterday. The parties belong in Charlestown, and are brothers in law.—Last June, Ward went into the house of Ginsardi with a rope for the purpose of chastising him for beating his wife. The consequences were that Ward was severely cut about the head, neck, arms and breast, by a razor in the hands of Ginsardi, who was arrested and bound over. Ginsardi's trial, on Wednesday, resulted in his discharge, the judge holding that a man had a right to defend himself in his own house. Ward was then examined on a charge of assault upon Ginsardi with a rope, found guilty and fined $5 and costs. Neither party had counsel.—*Lowell News, 15th.*

MUSIC.—Zwingle, the Swiss reformer, when reproached by Faber, afterwards Bishop of Vienna, for cultivating music, said: "Thou dost not know, my dear Faber, what music is. I love to play a little upon the lute, violin and other instruments. Ah, if thou couldst only feel the tones of the celestial lute, the evil spirit of ambition and the love of riches which possess thee, would then quickly depart from thee."

"My dear Amelia," said a dandy, "I have long wished for this opportunity, but hardly dare speak now, for fear you will reject me—but I love you—say, will you be mine! Your smiles would shed—" and then he came to a pause; "your smiles would shed—" and then he paused again. "Never mind the wood-shed," says Amelia, "go on with the pretty talk."

SAD FINALE.—Our readers will remember an account which we gave of a brutal assault by George Ware of Leicester, upon his wife, whereby he broke one of her arms and otherwise severely injured her. In addition to this he threatened to kill her, and might have done so, had he not been arrested. All these troubles and the anxiety which Mrs. W. has labored under, has driven her to madness, and she is now in the Insane Hospital in this city, while her husband is in the County House, on the opposite side of the street.—*Worcester Transcript.*

A female writer says, "Nothing looks worse on a lady than darned stockings." Allow us to observe that stockings which *need* darning look much worse than darned ones.

NEW HAMPSHIRE SUGAR.

The editor of the Farmer's Cabinet, Amherst, N. H., has been making sugar from cane of his own raising; and what is more, he makes a good item out of it, which we here copy for the benefit of our readers.

We have frequently alluded to our experiment in raising the Chinese sugar cane, from seed received at the patent office. We are entirely satisfied that it can be raised with great profit in this locality, either for fodder or for making of sugar or molasses. We have in a small way tested it for both, and think we can satisfy the most incredulous that our farmers can raise good molasses and sugar to more profit than they can either corn or potatoes. Our seed we received late, and planted after corn was generally up. When about a foot in height, it encountered a violent hail storm, which seriously damaged it and hindered its growth, so that it is doubtful whether the seed is sufficiently ripe to be reliable—and we shall accordingly secure a supply for ourselves and others to whom we have promised it, from Washington or elsewhere. Preferring securing the seed to experiments in sugar making, we allowed our cane to stand beyond the proper season for the latter purpose, and after gathering, it stood several weeks before used.

Last week, finding election over and no firing to do, and but little to interest us in the papers, we essayed to convert the product of six hills, planted like corn, into molasses. Pretty sport for an editor!—but our motto is, anything to save our country!—and so at it we went, and a sweet time we had of it—better than wheeling apples we reckon—and the process and result we will give for the benefit of mankind in general. We run thirty two stalks through a hay cutter, and with our standing press and a cheese-hoop, took therefrom three quarts of clear and rich juice, which being boiled to the consistence of sugar-house molasses, yielded one pint. The flavor is very agreeable, and the color and appearance nearly that of honey—and it is the universal opinion of those who have tested it, that it is superior to any Southern molasses.

NICARAGUA.

The news from Nicaragua has no very warlike tone. No great battle has been fought since last accounts, although Walker is represented as having made formidable preparations against the enemy.—"There can be no doubt," says the Tribune, "that he has received considerable reinforcements from this country, both of men and money. We observe also that Mr. C. F. Henningsen, a military adventurer who has served in Spain in the Legitimist ranks, whence he went to Russia, and afterward in Hungary, in the Revolutionary war of 1849 and '50, is active in Walker's service. He came to this country with Kossuth, and became intimate with some of the most zealous supporters of Mr. Buchanan for the Presidency. It is no doubt owing to their influence that he has now gone out to sustain the cause of slavery in Nicaragua, and to prepare that country for admission into the Union as a slave-holding State. Walker has conferred upon him the rank of Brigadier-General, and put him in command of the artillery."

The Secret Ballot.—This perfectly fair and safe way of voting was enjoined by an act passed by the Coalition (democrat and free-soil) Legislature of Massachusetts. It was amended, (so as to spoil it,) by the Whigs, as soon as they got the power. Now the Boston Telegraph proposes to revive it. It says, there are many conditions necessary to make elections even approximate to the republican theory, but above all things the ballot should be secret. That great condition was once established in this *Commonwealth*, and would have remained so, had not certain men of eminent gravity, who felt it to be dangerous to their ascendancy abolished it. They sent us back one step towards the *viva voce* method of voting, which is always preferred by slaveholders and great money kings. Slavery could not get along a single year with the ballot *secret*. Could non-slaveholders in Virginia vote as they think, and not have to answer for it to the knight of the lash, we should have had a Fremont vote in that Old Dominion that would have wonderfully affected the price of negroes. As a model republic, we owe it to our sister States to restore the secret ballot, and perhaps a more favorable time to attend to this matter than the present will not occur.

☞ More than thirty millions of bricks were made in Milwaukie last year.

Badger Musketeers.—The Brooklyn, L. I., Evening Star of the 13th, contains the following notice, in which a native of this city has an important place.

The Badger Musketeers, under the command of Capt. J. R. McIntire, had a good time of it on their target excursion to East New York, on Saturday last. The company and invited guests numbered upwards of 200 persons.

Many valuable articles were presented by Messrs. Badger & Co. and other citizens, to the amount of over $500, and made up into fifty prizes to be shot for—competent Judges selected to award the prizes. A splendid dinner was provided by the members of the company, which was served up at 6 P. M., and every one appeared to do justice to it. After dinner the company returned to New York, arriving at 10 P.M.

This company is by far the largest of the kind that ever went out of New York. They are composed entirely of the employees of Messrs. D. D. Badger & Co., at their extensive Architectural Iron Works, situated on the east side of the city of New York, extending from 13th to 14th street and avenue C. They employ 450 men, and carry on a very large business in the manufacturing of Iron Front Buildings and Patent Rolling Iron Shutters, specimens of which can be seen in most every part of the Union. A number of their iron buildings, four, five and six stories high, are certainly a credit to the builders, as well as to the city.

We understand this firm are putting up in Chicago, this year, upwards of five hundred feet of five-story iron buildings, one of which is deemed the most splendid building west of New York; it is owned by Mr. Robbins, and is rented for $2,400 per annum.

The Montreal Jubilee.—The Boston Journal says that quite a number of Bostonians, who were among the party which left that city on Tuesday morning, returned home Thursday evening, having "seen the elephant" to their satisfaction. They arrived at Montreal between eleven and twelve o'clock on Tuesday night, and found that no provision whatever had been made for their accommodation! The hotels and boarding houses were filled to overflowing. One gentleman kindly threw open his house to shelter all who could get in. Gentlemen of the party, had to sleep in chairs, and were glad of such accomodations, and ladies were content to seek rest upon a a straw bed thrown upon the floor. One night of such experience after a ride of four hundred miles, induced quite a number to return to Burlington after the parade on Wednesday.

The rush was unexpectedly large, and there is a limit to all human means of accomodation.

☞ Thalberg, the greatest of living Piano-players, made his first appearance in New York last week. The Musical World says his reception was eminently kind and cordial. Thalberg's appearance is not of the kind to encourage great demonstration, of any kind. He is a quiet man. He never aggravates applause by bowing, and by those tricks so well understood by others. He is too respectable looking for much nonsense. Cleanly-shaved, simply-dressed, he has none of the redundancies of modern fashionable artists, on which young ladies are apt to hang so much admiration—and sometimes their hearts.—Thalberg would *pass* in Wall street!—a perfect confidence man, in the best sense of the word.

Supposed Homicide.—John Claxton, aged about nineteen years, recently disappeared from Georgetown, D. C., under circumstances of peculiar interest. The Intelligencer learns "that he left his home last Monday week, and in company with some other young men, was present at a ball given somewhere on the Island. In the course of the evening the house was visited by a number of confederated persons, said to be chiefly from Baltimore, going under the brutal appellation of the 'Plug-Uglies,' who compelled the inmates to flee for safety. A companion states that he and Claxton were chased until they were forced to separate." On Thursday his shawl was found in the canal near Fourth street, which is the last trace his afflicted friends have been able to discover.

☞ To a toast complimentary to the President of the United States, at the Montreal banquet, Senator Wilson of Massachusetts, who appears to have been the only Senator present, responded in appropriate remarks. Considering the relations of President Pierce and Senator Wilson, it was a little singular; but it was well done.

☞ John H. Snead, who stabbed Mr. Hickman, an esteemed citizen of Berlin, Maryland, during an election riot, has been released on $4000 bail.

Mathematical.—What Mathematical question can be be given in which *four* questions are involved, each of which have the same answer? viz.:

the Cube root is 96.
the square root is 96.
the quotient is 96.
the product is 96. A. B. C.

The Question.—The sum of the products of two squares, multiplied by their opposite roots, is 1920. Required the two squares, the sum of their roots being 20.

1st—What is the Cube root of the product of the *two* products?

2nd—What is the square root of the product of the *two* squares?

3rd—What is the quotient of the given sum divided by the sum of the roots?

4th—What is the product of the two square roots?

☞ New counterfeits are afloat on the Merchants' Bank of Salem, Mass., fives, photographs—finely done. Vignette, medallion heads on each corner; watch dog, vide fidelity, in the centre. Also, American eagle, with spears and shield. There are also counterfeit 3's on the Mechanics' Bank, Burlington, altered—Eagle and shield on upper left corner—portrait of Washington on right centre.

Gov. Geary in Danger.—The Kansas correspondent of the Cincinnati Commercial, under date of Oct. 30, writes;

"Gov. Geary, who was expected in from his southern tour four days ago, has not been heard from. Some apprehensions are felt concerning his safety, as reports are afloat that he has received some violence from the hands of the infuriated mob near Sugar Creek, where their large encampment was. The object of his tour was to disperse and expel them from within the limits of the Territory.

☞ The distillery of Perrin & Gould, at Higginson, Ohio, was burnt on Saturday, together with the stock of corn and whiskey. Loss $20,000. Insurance $10,000.

Well Said.—A cotemporary says:—"In our opinion, the result of long experience and observation, an editor of a newspaper may deserve far more credit for what he *keeps out* of his paper than for what he *puts in* it.—*Editor of the London Times.*

Ecclesiastical.—Rev. Daniel C. Eddy, of Lowell, has received a call from the Harvard street Baptist church in Boston.

Quebec, Nov. 17.—The City Bank was robbed last night. An entrance was effected by undermining the safe, which contained only $4000.

Bangor, Nov. 17.—A wood train ran off the track of the Portland and Kennebec Railroad to-day, a few miles from this city, smashing the cars and killing an Irishman.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Times, April 20th, 1849.

The following interesting letter has just been received from J. M. Dana, the enterprising travelling agent for Dr. Hayden's Pills, in Vermont and may be depended upon as strictly true:

Montpelier, Vt., April 25, 1849.

In haste, doctor, I enclose you the money for twelve gross. Forward them as soon as you receive this, for I am waiting for them. I send you one of the most valuable certificates I have yet received for your pills. It is from Dr. Dustin, the oldest and most skilful physician in Orleans County. Here it is:

Craftsbury, Vt., April 25, 1849.

I have made use of a few boxes of Dr. Wm. Hayden's Vegetable Purgative Pills, and think them a safe and valuable cathartic for family use. Samuel Dustin, M. D.

I sold him eighteen boxes, and he cured himself of the Liver Complaint. I also sold to Dr. Bigalow, of Barre, eighteen boxes, and he told me he had cured some old chronic cases with them. You will find the certificate of great value to you Everybody up here speaks in the highest terms of your pills.

I am yours, as ever,

WOOD'S HAIR RESTORATIVE.

☞ We advise those of our friends in a state of single blessedness, who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—[Ohio Statesman.

HEALTH AND STRENGTH.

☞ Dr. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aug8 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuTh&S 6m.

POLICE COURT.

Nov. 15.

Before Justice Bennett: James Ha'pen- was accused of assaulting and robbing atrick Smith of some handkerchiefs and oney. He was bound over to February ourt,—and for lack of bondsmen went to il.

James Sullivan was charged with drunkness. Plea guilty. Sent to House of orrection for 30 days, and to pay costs, 4.32.—He has just served 60 days for a milar offence.

Nov. 17.

Before Justice Odell:—Three young men ere accused of assaults, (probably drunkn assaults,) on an Irish family of two omen and a man. The proof was quite lear against one of the young men in all he cases; and he was fined $5, 3, and 1; vith costs $7.72, 2.71, and 1.92. In all $21.51. This sum, with his lawyer's fee. nakes rather a costly luxury of a drunken assault.

The other two, not *proved* guilty, though nixed up in the mess, were discharged.

Nov. 18.

Before Justice Bennett—a young man was brought up by his family and friends, for idleness and improvidence, caused by intemperance—and sentenced to the House of Correction for 60 days.

The latter cases show the beauties and blessings of the tippling shops and tippling usages among us, in a light too plain to be mistaken.

AN APPEAL.—The season of the year is approaching when the destitution and sufferings of poverty among us will be most keenly felt. The means which would avail for a comfortable subsistence in the milder season, are wholly inadequate amid the rigors of winter. It is many years since the approach of winter was marked by so high prices of all articles of home consumption. Our city missionary in his rounds among the poor often finds suffering which demands immediate relief — and if the means were at his disposal, small sums could be more judiciously appropriated by him than by any one else. We are happy to know that unsolicited, a small amount has already been placed at his disposal for this object. The Board of the Mission would solicit from the charitable among us contributions to be placed in the hands of our missionary, to be expended by him in the relief of cases of suffering which are constantly coming under his notice.

Any such contributions which may be placed in his hands, or addressed to him through the Post Office, we are confident will be wisely and faithfully distributed.

W.

Per order of the Board.

☞ The lecture before the Mechanics' Lyceum on Tuesday evening, was by Wendell Phillips, on Slavery. In this Lyceum each lecturer chooses his own subject, and Mr. Phillips chose one which he can handle as no other man can. Of course he did not please all the hearers, but he gave them all a subject for thought.

Hon. Thos. H. Benton delivers the next lecture, on Friday, Nov. 28th.

MERCANTILE LYCEUM.—The lecture of Prof. Wm. J. Whittaker will be delivered on Friday evening of the present week, instead of Thursday. Prof. W. is, by previous arrangement, to deliver the opening lecture of a course before an institution in Philadelphia this evening, and cannot possibly reach here in season to fulfil his engagement for Thursday. So the lecture stands postponed till Friday evening, the 21st. His subject for this week's lecture is to be, "The Historic Growth of the Fine Arts;" and his second lecture, which will occur on Wednesday evening next,—Thursday, the 27th, being Thanksgiving—will be entitled "The New Mission of Art,"—both finely illustrated.

MUSICAL CONVENTION.—In reply to inquiries, we would state that the Rockingham County Musical Association will probably hold their third Annual Musical Convention, in Portsmouth, early in January, 1857—under direction of Prof. B. F. Baker of Boston. As soon as the Executive Committee have met and made more definite arrangements, particulars will be announced.

☞ There is to be a grand torchlight procession, illuminations, and a "Democratic Jubilee" in this city this evening, in honor of Buchanan and Breckinridge.

"Hush!"—Here is the last "good thing" about hoops:

Little Boy—"Ma, what is hush?"

Mother—"Why, my dear? why do you ask?"

Little Boy—"Because I asked sister Jane yesterday, what made her new dress stick out so, and she said '*hush!*'"

FOUR DAYS LATER FROM EUROPE.

ARRIVAL OF THE CITY OF WASHINGTON.

PHILADELPHIA, Nov. 18.—The steamer City of Washington brings Liverpool dates of the 5th inst.

The Liverpool Cotton Market had been dull, and prices were a trifle lower. Sales of the three days only 13,000 bales.

Breadstuffs were also very dull, and prices had a downward tendency.

The London Money Market was unchanged. Consols closed on the 4th at 92 7-8 a 93.

The Morning Herald's Paris correspondent states that commercial accounts agree in admitting the greater abundance of money, and the certainty that no money crisis is to be feared through inability to meet engagements.

The Neapolitan squadron had not sailed. it was taking provisions for six months.

The Persian besieging army at Herat had taken possession of the environs of that city and were fortifying them.

A later despatch states that the Affghans had been defeated by the Persians, and 6000 prisoners taken.

WASHINGTON, Nov. 17.—The Commissioner of Lighthouses has awarded to a citizen of New Bedford the contract for 95,000 gallons of the best oil, at an average of $1 50 per gallon.

It is satisfactorily asserted that whatever the Administration is contemplating relative to Panama and Aspinwall, no one can speak upon the subject as to any precise line of action which it proposes to take, except that the rights of our citizens individually and the interest of our government will be vigorously enforced and protected, by means promising to be more direct and efficient than those heretofore employed. The subject has proved embarrassing to the administration, and has occupied a large share of Executive deliberation.

This despatch is directly contrary to one of yesterday, as to Panama &c.—showing such speculations to be worthless.

MONTREAL, Nov. 17.—*Fire at Three Rivers.*—Fire at Three Rivers was first discovered in a house in Notre Dame street, at four o'clock Saturday morning. The inmates barely escaped with their lives. The wind blowing fresh from the North, the fire caught the house on the opposite side, and spread with fearful rapidity, and consumed three sides of the block, about fifty buildings in all. The estimated amount of the property destroyed is about £100,000.

About one-half of the business portion of the town was destroyed.

As usual, the scarcity of water tended to this result. For upwards of half an hour, not a single carter could be found to draw water from the river, which is in the immediate vicinity. The flames spread until they were literally exhausted for want of sustenance, and burned everything until they reached the river.

NEW ORLEANS, Nov. 17.—*Killed by Indians.*—A party of four Americans, consisting of David Nichols, late merchant of New York, Dr. P. B. Cabell of Danville, Va., and Messrs. Collier and Kennedy of St. Louis, were recently surrounded and attacked by a party of 16 Camanche Indians, about 150 miles north of Zacatecas, Mexico. Dr. Cabell was killed. The remainder of the party escaped without injury.

NEW YORK, Nov. 18.—Newspaper advices from the City of Mexico are to Oct. 29.

Gen. Morena reports that the revolutionists at Puebla had been vanquished. — The sale of church property progressed daily. Comonfort was still popular. Hon. Mr. Forsyth, the U. S. Minister, had been presented to the President.

ALBANY, Nov. 17.—Official returns from all counties in the State except Alleghany, Chenango, Clinton, Erie, Kings, and New York, which are also included in the statement, being nearly accurate as possible, foot up as follows; Fremont 275,353; Buchanan 194,908; Fillmore 124,660.

SERIOUS ACCIDENT.—Mr. Judson Perkins, son of Col. Benjamin Perkins, of Exeter, by the accidental discharge of a blast from a rock, on Thursday of last week, had his hand so badly shattered, that it was found necessary to amputate it. The operation was performed by Dr. Wm. G. Perry, and the young man, who is about 19 years of age, is said to be doing well, so far as the healing of the amputated arm is concerned. —*News Letter.*

DR. BAUMBACK, in his travels on the cape of Good Hope, says: "I found very frequently among the Dutch Boors of the back country, *Ayer's Cherry Pectoral*, which they keep hung up by a thong around the neck of the bottle to a peg over their hammocks. Indeed this seems to be their sole protection against the throat and lung disorders which are quite prevalent among them. I thought it a speaking comment on the practical genius of the American people, that they should furnish the staple, I believe the only remedy this people buy to use. Asking if they used the same manufacturer's Pills, they told me that better purgatives grew all around them than anybody could prepare."

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.
BENJAMIN AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your profession, as the poor man's friend."

Asthma or Pthisic, and Bronchitis.

WEST MIDDLESEX, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALMON, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no skill we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have been for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHIRLEY, of SHIRLEYNIA.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments it can only be obtained by purchasing one of their manufactures."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct. 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Doet, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and workmanship is of the very best quality. The styles and prices are—

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is the great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go less several hundred times oftener than those used to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New improvements of the latest approved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and gloriously and beautifully embellished by American artists (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappel and Ostell,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a book for the American People.

Every Public Institution of our country, every family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle his patriotism at the spirit stirring narrative and point to the exhibition of genuine skill, with those feelings of fraternal enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the subscriber's residence or sent by mail postage free. Subscribers' name respectfully solicited, and all letters and inquiries promptly replied to by the Publishers

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has inspe arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY.**
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R'H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, atd the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas. Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ anh ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Morning Chronicle.

THURSDAY, NOVEMBER 20, 1856.

LOWELL.

At a special meeting of the Mayor and Aldermen of Lowell, Mass., on Saturday afternoon, the Mayor and Marshal Clemence submitted a lengthy report upon the recent memorial from "Father McDermott" and others concerning the rowdyism that rules the "Acre." The committee think the story of the memorialists "is doubtless somewhat exaggerated, or too highly colored, but yet contains enough of sober truth to excite alarm and apprehension." They trace the cause directly to the grog-shops, and delicately hint to the memorialists that a few of their number are reputed to be personally engaged in the keeping of grog-shops, or are the lessors of buildings that are used for grog-shops. The remedy proposed by the Mayor and Marshal, says the Citizen, may be found in the following resolution, which was reported to the Aldermen, and was passed:

Resolved by the Mayor and Aldermen, 1. That the memorial and petition of Rev. J. T. McDermott and others, presented to the Board of Aldermen, Nov. 11th, representing that violence and disorder prevail, to an unusual degree, in the section of the city inhabited by the memorialists, demands the serious consideration of this Board.

2. That, in the opinion of this Board, the evils complained of are mainly, if not entirely, to be traced to the illegal traffic in intoxicating liquors.

2. That we gratefully receive the pledge of the memorialists to render to the city authorities all the aid and assistance in their power to effect a suppression of the spirit of insubordination, and the scenes of violence that prevail; and, to this end, we invite them to communicate to the proper officers all such information as they possess, or can, from time to time, obtain, as will lead to the conviction of persons guilty of crime, or persons engaged in the illegal traffic in intoxicating liquors.

4. That the city marshal and all officers connected with the police department be required to use the utmost diligence in bringing to justice the perpetrators of offences against persons and property, and that the marshal be instructed to prosecute for all violations of the law prohibiting the sale of intoxicating liquors, whenever and wherever he receives reliable information that such are committed.

Suiting the action to the word, in the Police Court of Lowell, on Monday morning, John Golding, for violation of liquor law, was bound in $100 till Wednesday. Peter Bradley, similar offence, two counts, was fined $10 and costs and twenty days in the House of Correction on the first count, and $20 and costs and thirty days in House of Correction on the second—appealed—ordered in $200 to C. O. P.

In the Court of Common Pleas at Lowell, on the same Monday morning, Wm. P. Cook of Lowell was convicted of violation of liquor law.

The movement in Lowell, by the priest of the Roman Church, and others who petition with him, we take to be a remarkable case of the reaction of public opinion.—Many of these memorialists were men who had done what they could, in voting and otherwise, to defeat the liquor law, and to paralyze the action of the courts in its execution. But the evils, generated in the liquor shops which they fostered, became intolerable,—and they cry out to the city government to deliver them from the vipers they had warmed into life. The city government say yes—and begin to break up the nests wherein they are hatched.

ACCIDENT.—The Salem Register says:—"On Friday evening, just before closing the Naumkeag Steam Cotton Mill, at 7 P. M., a boy named Dennis Magrath was carelessly pushed by another lad, and fell down one of the elevators, the whole distance from the fourth story. He struck one of his shoulders among some boxes, receiving very serious injury, but was living when taken up. Another youngster, who was standing near the opening of the elevator at the time, caught Magrath by the trousers and attempted to prevent the fearful fall, but his strength being insufficient he was obliged to relinquish his grasp, which he did just in time to save himself from being dragged headlong after his unfortunate companion."

☞ The New York Observer reports that John Tappan, Esq., of Boston, has ordered of the American Bible Society a number of imperial quarto bibles, bound in Turkey morocco, with panel covers, each to be enclosed in a rosewood case, and presented to each of the crowned heads of the world. The books will cost about $30 a copy, and are said to be magnificent specimens of work. In solidity and beauty of binding, in the quality of the paper and splendor of typography, they are all that the present perfection of art can make of the best and greatest book in the world.

MUSIC IN PUBLIC SCHOOLS.—In the Brooklyn, N. Y., Board of Education, last Monday evening, the Music Committee reported in favor of making an appropriation for another teacher of Music (there are three now), in order that the scholars may have two hours in the week devoted to Music, instead of one, as at present. The resolution drew forth considerable discussion, it being contended that the teaching of Music, as now conducted in the Common Schools, is perfectly useless, the scholars not being grounded in the rudiments. On the other hand, it was held that the scholars showed considerable proficiency in the art, and that it had a refining tendency on the minds of the children. The report was finally adopted by a vote of 24 Yeas to 8 Nays.

THE BATTLE OF MASSAYA.—The steamer Texas brought the full details of the battles Massaya and Granada, sketches of which have been before published:—the battle of Massaya took place on the 11th and 12th of October, 1856.

The report of the battle of Granada, which had been taken by Walker's opponents while he was fighting at Massaya, and to which place he marched back and drove out the allies, was before given. Among the persons killed were a Mr. Wheeler, who had been sent there to distribute bibles by the Bible Society of New York, the Rev. Mr. Fergerson and a Mr. Lawkess, who had been a merchant there for some years.

A PACIFIC RAILROAD.—By the advices from California it appears that, before the election, all three of the candidates for the Presidency were about equally impressed with the necessity of a railroad to the Pacific, to be built with the aid, in some shape, of the general government. There is nothing like the pressure of a necessity, or the exigency of an occasion, to secure unity of sentiment. So says the Boston Courier.

ONE OUTRAGE which the North persists in practicing upon the South was overlooked by Mr. Barnwell Rhett when he issued his sweet tempered catalogue of injuries. We allude to the monopoly of the Patent Office. Perhaps he could not do that subject justice, and therefore omitted it altogether. During the year 1855 there were issued from the Patent Office—to Arkansas 1; to gallant little Rhode Island 21; to South Carolina 7; to Massachusetts 300; to Missouri 7; to Connecticut 104; to Virginia 46; to New York 535. Total to Slave States 186; to Free States 1626! Of the 40 patents awarded during the week ending Nov. 4, 1856, 39 were for valuable improvements in the Free States; 1 for an improvement in the cotton gin in Mississipi. Was ever such an unblushing monopoly tolerated before?—*Boston Chronicle.*

BALTIMORE, Nov. 18.—*Railroad Accident.*—An accident occurred on the South Carolina Railroad, on Saturday, in consequence of the breaking of a rail. Three cars were demolished and several persons injured, two of them fatally.

VIRGINIA.—Gov. Wise, a few weeks since in conversation with a northern gentleman on the political state of the country, stated the position of affairs thus:

"We have no fears of the northern abolitionists.—We can take care of *them*. But what we have to fear is an insurrection among ourselves."—"What?" said the other, "insurrection of the *blacks*?" "No" said the Governor, "but of the poor whites." This remark he explained by saying that he should not be surprised if a bill were introduced into the next Legislature of Virginia to restrict the slaves from learning the mechanic arts, with design to restore these trades to the poor whites.

MRS. LEE.—Mrs. Lee, formerly Mrs. Bowditch, died on the 23d ult., at Erith, after a protracted illness. This lady was not only distinguished for her literary talent, but possessed, for a woman, singular courage and love of adventure, and had been educated by her first husband (Mr. Bowditch) to share in his scientific labors. She accompanied him to Africa where he was sent on a mission to the King of Ashantee; and, whilst Mr. Bowditch went up the country, she remained at Cape Coast Castle, of which her uncle was the Governor, and there collected the material for a series of charming tales, called "Stories of Strange Lands," illustrating African life and customs. The "African Wanderers" is, however, her best book. The descriptions it contains of life and scenery, of the dense African forests especially, are vivid and graphic, given with great precision and simplicity. After her and her husband's return from Africa she lived some time in Paris, where she enjoyed the friendship of Cuvier, Denon, and many other distinguished men. She wrote an excellent memoir of Cuvier. She was the author of several well-esteemed works on natural history. She possessed a great fund of scientific information, and was laboriously accurate in her facts. Mrs. Lee was in receipt of a pension from Government of £50 a year.—*English paper.*

VERMONT ELECTION.—*Montpelier, Nov. 18.*—The official canvass of the Presidential vote of this State was made in this city yesterday. The figures stand as follows:

Fremont,	39,563
Buchanan,	10,577
Fillmore,	546
Scattering,	75

Fremont's majority—28,365.

BRIDGEWATER, MASS.—A letter from Bridgewater to the Boston Telegraph says:

The quiet of our village has been somewhat disturbed by the prosecution of a number of Irish rumsellers, who have for some time disgraced our town by their existence. Some weeks ago, the keeper of the oldest establishment of this kind was found guilty before a Justice's Court, and required to give bonds to prosecute his appeal to the December Court at Plymouth. Failing to procure bonds, he was committed, and is now in jail. Last week, two more were before Justice Keith, and the trial resulted as the first case mentioned, and they were committed. One of the number of these rum venders has been bailed out by a Boston runseller; the other two will probably remain in jail till December, when, without doubt, a jury will find them guilty on two complaints each, viz: for selling, and for keeping with intent to sell. The night after the two last mentioned offenders were committed to jail, the house of P. D. Kingman the Deputy Sheriff who committed them was fired, but fortunately was discovered in season to prevent damage. A petition is in circulation for a Town Meeting, for the purpose of taking measures to sweep this curse from our midst.

KANSAS MATTERS.

Late despatches show that the rule of Douglas, Atchison, and slavery, is still maintained in this devoted territory.

According to the Leavenworth Journal, (pro-slavery,) one of the Free State prisoners in Kansas, named Bainter, of Grasshopper Falls, has been tried and sentenced to a term of six years at hard labor in the chain gang. It is rumored that the Grand Jury at Lecompton has found a true bill of indictment against G. W. Clark, United States Indian Agent, for the murder of Barber, a Free State man.

A despatch from Chicago, Nov. 18, says:

Our dates from Kansas are to the 10th inst. Hayes, the murderer of Buffane, was released by Judge Lecompte on the 8th, on his giving bail in the sum of $10,000.—Sheriff Jones was his bondsman. Gov. Geary ordered his re-arrest, but he had already escaped to Missouri. Gov. Geary has threatened to hold Marshal Donaldson responsible for the recapture of Hayes.

A despatch from St. Louis, Nov. 17, says:

Our advices from Lawrence are to the 10th inst. Last Saturday twenty prisoners were tried at Hickory Point, and found guilty of manslaughter. They were sentenced to five years' imprisonment at hard labor.

Look at the items. The 20 Free State prisoners were sentenced to five years' hard labor, for breaking up a den of thieves, by force and arms.

The murderer Hayes goes out on $10,000 bail, the bond signed by a scoundrel who may not be worth a copper. He is followed by a *threat*—of little value, probably.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

NOTICES FROM THE PRESS.

From the Times, April 30th, 1849.

The following interesting letter has just been received from J. M. Dana, the enterprising travelling agent for Dr. Hayden's Pills, in Vermont and may be depended upon as strictly true:

Montpelier, Vt., April 25, 1849.

In haste, doctor, I enclose you the money for twelve gross. Forward them as soon as you receive this, for I am waiting for them. I send you one of the most valuable certificates I have yet received for your pills. It is from Dr. Dustin, the oldest and most skillful physician in Orleans County. Here it is:

Craftsbury, Vt., April 25, 1849.

I have made use of a few boxes of Dr. Wm. Hayden's Vegetable Purgative Pills, and think them a safe and valuable cathartic for family use. SAMUEL DUSTIN, M. D.

I sold him eighteen boxes, and he cured himself of the Liver Complaint. I also sold to Dr. Bigelow, of Barre, eighteen boxes, and he told me he had cured some old chronic cases with them. You will find the certificate of great value to you. Everybody up here speaks in the highest terms of your pills.

I am yours, as ever,

J. M. DANA.

WOOD'S HAIR RESTORATIVE.

☞ We advise those of our friends in a state of single blessedness, who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—[Ohio Statesman.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article never before used as a medicine, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuTh&S 6m.

REVISION OF THE SENTENCE OF VALLERLY AND BURNS.—In the Court of Common Pleas, this forenoon, Judge Aiken revoked his sentence of the fellows Vallerly and Burns for their outrageous assault on Leander Crosby of Billerica. The original sentence was a fine of $100 and costs each with the alternative of one year in the House of Gorrection. The sentence now stands three years in the House of Correction.

We are very happy to record this change of sentence. We learn that Judge Aiken's original sentence was given without a full knowedge of the aggravated nature of the case. His prompt revision of the affair, when he was made aware of his error, speaks well for his integrity.—*Lowell News 17th.*

At the cathedral in Cincinnati, were married a young and handsome couple, with the respective names of Jerry Better and Louisa Well. Louisa was *Well* before, but we are positive she is *Better* now.
